ing the opening out of an imprest

you will be good enough to obtain
the orders of Government as to
whether military students of the
Civil Engineering College may,
during their time of apprenticeship,
be entrusted with the custody of

as to security. The case does not
seem to be covered by Code para 750.

Para 102 of the Public Works Code indicates clearly that apprentice overseers are in the position of Students, and they should not therefore be placed in charge of works or entrusted with payments, without the previous sanction of the Chief Engineer. No security will therefore be required from them.
