READ—the following paper:—

From R. W. BARLOW, Esq., C.S., Chairman, Harbour Trust Board, to the  
Chief Secretary to Government, dated Madras, 12th June 1888, No. 935.

I have the honor to submit herewith, for the information of Government, statement  
of receipts and charges of the Harbour Trust Board, for the official year ending 31st  
March 1888, certified as correct by the auditors appointed under section 43 of Act II  
of 1886, and recorded by the Board at their meeting of 18th May.

2. A copy has been forwarded to the *Fort St. George Gazette* and to one of the  
local papers for publication, in accordance with the provisions of section 44.

3. The items of expenditure are all within the estimated amounts provided in  
the revised budget estimate recorded in G.O., Nos. 133, 133-A, Financial, dated 9th  
February 1888, so need no comment in reference thereto.

4. The original budget estimate for 1887-88, based on actuals for the immediately  
preceding period, may be taken as giving a more interesting comparison. I therefore  
forward herewith a comparative statement showing the variations between the actuals  
of 1887-88 and the original estimate.

5. On the receipts side of the account, there is a satisfactory net increase of over  
Rs. 40,000.

6. In the various items of charges the causes of increases have been already  
explained in the revised budget estimate, and I need therefore only remark upon  
the items of decreased expenditure.

7. The largest savings are under the heads of New Works (Rs. 33,000), and Tools  
and Plant (Rs. 21,000).

8. With regard to the former, it is a matter for regret to the Board that they have  
been unable to push improvements on faster, but various matters requiring careful  
consideration have had to be settled, and undue haste to introduce reforms might have  
resulted in unnecessary expenditure. They have since approved a general scheme of  
beach improvements, and the work is now being pushed on vigorously.

9. The saving in tools and plant has been effected by adapting and repairing  
existing machinery, which is gradually being got into excellent order, instead of buy-  
ing new cranes, &c., which it was at first thought must be done. The charges against  
Repairs have consequently necessarily been heavy; the amount charged under this head  
includes a stock of beams and planking on hand on the 31st March valued at  
Rs. 13,850.

10. Of the other items of saving, the largest is that under the head of Fees to  
Trustees, Rs. 6,690. This has resulted from the Board not being at its full strength,  
and to care having been taken to call as few meetings as possible.

11. The petty items of saving amount in round figures to Rs. 3,000, of which one-half is accounted for by a reduction in overtime fees paid to establishment which has been effected, though quite as much work has been done at night time and on Sundays and holidays as in the previous year, by the careful attention of the Secretary to detailing the staff for overtime work.

8. With regard to the former, it is a matter for regret to the Board that they have been unable to push improvements on faster, but various matters requiring careful consideration have had to be settled, and undue haste to introduce reforms might have resulted in unnecessary expenditure. They have since approved a general scheme of beach improvements, and the work is now being pushed on vigorously.

9. The saving in tools and plant has been effected by adapting and repairing existing machinery, which is gradually being got into excellent order, instead of buying new cranes, &c., which it was at first thought must be done. The charges against Repairs have consequently necessarily been heavy; the amount charged under this head includes a stock of beams and planking on hand on the 31st March valued at Rs. 13,850.

10. Of the other items of saving, the largest is that under the head of Fees to Trustees, Rs. 6,690. This has resulted from the Board not being at its full strength, and to care having been taken to call as few meetings as possible.

11. The petty items of saving amount in round figures to Rs. 3,000, of which one-half is accounted for by a reduction in overtime fees paid to establishment which has been effected, though quite as much work has been done at night time and on Sundays and holidays as in the previous year, by the careful attention of the Secretary to detailing the staff for overtime work.

READ—the following paper :—

From R. W. BARLOW, Esq., C.S., Chairman, Harbour Trust Board, to the Chief Secretary to Government, dated Madras, 12th June 1888, No. 935.

I have the honor to submit herewith, for the information of Government, statement of receipts and charges of the Harbour Trust Board, for the official year ending 31st March 1888, certified as correct by the auditors appointed under section 43 of Act II of 1886, and recorded by the Board at their meeting of 18th May.

2. A copy has been forwarded to the *Fort St. George Gazette* and to one of the local papers for publication, in accordance with the provisions of section 44.

3. The items of expenditure are all within the estimated amounts provided in the revised budget estimate recorded in G.O., Nos. 133, 133-A, Financial, dated 9th February 1888, so need no comment in reference thereto.

4. The original budget estimate for 1887-88, based on actuals for the immediately preceding period, may be taken as giving a more interesting comparison. I therefore forward herewith a comparative statement showing the variations between the actuals of 1887-88 and the original estimate.

5. On the receipts side of the account, there is a satisfactory net increase of over Rs. 40,000.

6. In the various items of charges the causes of increases have been already explained in the revised budget estimate, and I need therefore only remark upon the items of decreased expenditure.

7. The largest savings are under the heads of New Works (Rs. 33,000), and Tools and Plant (Rs. 21,000).

8. With regard to the former, it is a matter for regret to the Board that they have been unable to push improvements on faster, but various matters requiring careful consideration have had to be settled, and undue haste to introduce reforms might have resulted in unnecessary expenditure. They have since approved a general scheme of beach improvements, and the work is now being pushed on vigorously.
