From D. C. GORDON, Esq., Examiner, Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 13th March 1885, No. 134 W.

The reports called for in G.O., No. 18 W., dated 6th January 1885, having been received from all Superintending Engineers, I have the honor to submit them in original with a statement giving in tabular form the number of works accounted for under each agency in the accounts of the several divisions for the month of December 1884, and the dates proposed by Superintending Engineers for despatch of accounts from Executive Engineers' offices, as well as the probable date of their arrival in Examiner's office, and to offer the following remarks thereon:—

2. *I Circle*.—Of the first three divisions, the amount of accounting in each of which has been pretty nearly the same, the average dates on which accounts have been received in this office from April to December compared with the proposed dates are as follows:—

	Actual average.	Proposed.
1. Ganjam	23rd	24th
2. Rushikuliya	20th	24th
3. Vizagapatam	19th	23rd

So that there will be a distinct loss of time in each case. I do not think it advisable, therefore, to concede any extension in these cases. In the next three divisions, the work is heavy and the distance is great; the time asked for may be allowed for the present. But I think when the normal cost system has been introduced, the increased establishment required for the Godávri eastern division sanctioned, the relief to Executive Engineers proposed in G.O., No. 3151 W., dated 23rd December 1884, afforded, and the plan of closing sub-divisional accounts when the sub-treasury closes, viz., the 24th or 26th, adopted, earlier dates may fairly be fixed for these divisions.

3. *II Circle*.—The time asked for may be allowed on the same understanding as above, except in the case of the Buckingham canal. The work of this division is chiefly done by contract. It appears to me that the accounts of this division may fairly be required to reach this office by the 18th of the month (see report by the Superintending Engineer, V Circle).

4. *III Circle*.—Kurnool and Cuddapah are light divisions. The accounts should reach this office on the 16th. The other dates may stand.

5. *IV Circle*.—Barur and B. Project divisional accounts should reach this office by the 16th. The other dates may stand for the present, but improvement will be expected hereafter as suggested in paragraph 2.

In forwarding herewith
progress report showing receipt of
accounts for May 1888, I beg to state
that the delay in receipt of the
accounts, is probably in some cases
due to their having been forwarded
by parcel post in consequence of a
mistake in a circular issued by me.
Steps have been taken to correct
the mistake.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Resolution
of the Board of Revenue/Land Revenue
dated 11th June 1888 No 5557 in a letter
from the Collector of Anantapur
dated 2nd June 1888 No 375.

I have the honor to request
sanction to pull down what is
known as the Gorantla Gate in the
Penukonda Fort wall. There are
at present only two entrances into
the Town of which the Gorantla
would be the most important
only that a heavy cart can only just
squeeze through and if laden
in the goods which project the
slightest it has to go round to the
northern gate a very long detour

2. It is proposed by the
District Board to pull down
the superstructure and widen the
opening of the gate way. The gate
is of no historical or architectural
