G.O., dated 16th June 1888, No. 354, Educational.

Read—the following letter from the Director of Public Instruction, dated Madras, 8th June 1888, No. 0/212:—

ABSTRACT.—Submitting, with remarks, plan and estimates for the proposed improvements to the Saidápet High School building for the location of the Teachers' College.

Order—dated 16th June 1888, No. 354, Educational.

The plan and estimates, amounting to Rs. 14,460, submitted with the foregoing letter by the Director of Public Instruction, for adapting and improving the late Saidápet High School building, so as to provide accommodation for the Teachers' College, are approved, and will be transferred to the Public Works Department with a request that the work may be undertaken at an early date.

2. The Government have approved these estimates on the understanding that the Director of Public Instruction considers them in every way satisfactory. But they observe that neither the Director's letter nor the report of the Executive Engineer gives any information as to the amount of the additional accommodation proposed to be provided. It is assumed that the additional buildings to which the estimates relate will allow of the Agricultural College being entirely vacated by the Teachers' College.

3. The Director will report whether this is so, and the Government further desire to be informed, before passing final orders on his letter No. 2605, dated 10th April 1888, whether the buildings now to be provided for the Teachers' College will not afford sufficient accommodation for the instruction in chemistry of the pupils of both colleges.
