Madras, 5 July 1888

OFFICE NOTE No. 1813

Enc: 1

To

W.

Code para 1888 lays down how transactions of other provinces with the Mysore State are to be adjusted, and although the rule ought in reason to be held to imply that the same course should be followed in regard to transactions arising in this presidency, yet it is not regularly acted up to in that sense.

2. It seems desirable therefore to have a definite rule laid down in the Code in regard to the manner and mode etc. of adjustment of such transactions in future, and I accordingly beg to submit herewith for the approval of Government, the accompanying draft standing order which will meet the object in view.

preparation of the estimate for the annual repairs of boats, completed in July 1887, and mentions as if it were nothing unusual, that on the 18th. May 1888 this estimate is still under consideration.

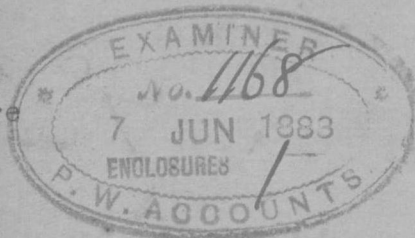

4. Also as regards the payment for work done, the Executive Engineer does not attempt to explain why bills for work completed in July were not submitted until the following February; nor does he say whether any steps have been taken to prevent similar delays in future.

5. The other points explained in the Executive Engineer's letter do not need further notice.

MADRAS.

SIR.

With reference to your No. 233 SE dated the 11<sup>th</sup> idem, I have the honor to inform you in the case of Item No. 7 of your forwarding note.

That a payment was made to the Contractor in February 1886 for some stone collected but work was deferred pending sanction to a revised estimate which has lately been submitted.

(8) The discrepancies in material at site have been set right.

(9) The delay in payment was due to late submission of bills by the Upper sub. Officer. Bills were received in February 88 and payment made in the same month. The estimate is under reference with the Chief Engineer.

11. Advances of materials at site to Contractors was very common
