DEPT.

EXAMINER, P. W. ACCOUNTS.

Madras, 27 June 1888.

OFFICE NOTE No. 1762

Enc: 3

To

W.

I beg to forward herewith (in original) with remarks the explanation of the Executive Engineer Cuddapah Division of the several points requiring his attention in the report of the last inspection of his office. The Supg. Engineer apparently has taken no action on the explanation which the Executive Engineer states has already been forwarded through him.

2. Item No. 24 of summary. It is presumed that the Supg. Engineer will take the necessary steps to carry out the orders of Government.

3. The other items call for no further remarks.

No 2543 dated
5th July/88 with
enclosures.

In returning your endorse-
-ment No. 2543 dated 5th July/88, I
have the honor to report that the
Executive Engineer's explanation
of the several points alluded to
by the Deputy Examiner in his
report of the last inspection of
the Buddapah Division office was
received by me on the 9th March/88
but it was not forwarded to you,
as from G. O. No. 2983 dated 8th
November/87, it did not appear
to me that any report was called
for by Government.

With

2. With regard to the separation of famine tools from provincial tools I am quite as anxious to have it effected as the Examiner but the difficulty is in finding accommodation for the enormous number of famine tools we have on hand. They are located wherever room can be found for them and necessarily in the same building with provincial tools and hence there is a difficulty in keeping them entirely separate at present. The Executive Engineer is however trying his best to keep them separate. Eventually it is hoped the Nawabs Mahall at Buddapah and the lower story of the Mahall at Gurrunkonda may be given over to us for the storage of famine tools exclusively.

I have the honor to be
Your most obed^t servant
H. Smalley Colk. E.
Suptg Engineer B. Circle
