5. The delays remarked upon in the last two paras seem to require further notice.

6. Para 18 of the Examiner's office note. It is presumed that a further report will be submitted.

7. Para 19 of the Examiner's office note. The Supg. Engineer should, I think, be required to report what action he proposes as regards taking stock of the late Irrigation and Canal Company's Stores.

8. Para 20 of the Examiner's office note. With regard to count of tools (famine and others) I beg to point out that the Code rules require a periodical count, and it is apparently the duty of the Executive Engineer, and of the Supg. Engineer, to see that it is done; or to report at once to Government their inability to do it and to obtain either a dispensation from doing it, or the means of carrying out orders.

to non-recoupment of imprest, I beg

considered the Executive Engineer's
duty to require the imprest holder,
whoever he may be, to submit his
accounts regularly at least once
a month, and always at the end of
the month, in time for recoupment be-
fore the close of that month. Non-
recoupment, as in the case noticed,
means that expenditure is not
brought to account at all until
five or six months after it is in-
curred, and often perhaps not until
the following financial year.

3. Para 9 of the Examiner's office
note. The Executive Engineer
gives no explanation whatever of
the extraordinary delay in the
preparation of the estimate for the
annual repairs of boats, completed
in July 1887, and mentions as if it
were nothing unusual, that on the
18th. May 1888 this estimate is still
under consideration. The estimate
has not yet been sanctioned.

4. Also as regards the payment
for work done, the Executive Engineer
does not attempt to explain why
bills for work completed in July
were not submitted until the fol-
lowing February, nor does he say

any steps have been taken to prevent similar delays in future.

5. The delays remarked upon in the last two paras seem to require further notice.

6. Para 18 of the Examiner's office note. It is presumed that a further report will be submitted.

so as to reach the Government of India not later than the 1st May 1888.

2. The Punjab Provincial budget estimate contains a provision of Rs. 13,000 to meet charges on account of printing, regarding which the Government of India will be glad to have further information.
