It is very difficult to draw
the line. but it may be advisable
to make an exception with
regard to Tables of Tel: & Dis: charge.
but for these a list of those
for which it is desirable the

Jackson's & Hyman's Psychometric
Tables are likely to be generally
required; but I would not
enter any books by name in
the Code. I think that all
books of tables, whether
psychometric, or for arithmetic
counting of timber &c
should be purchased for the
use of officers at the expense
of York. If such case is decided
with on its merits, the following
collection might be made in
Code 848.

after State order in continuation
of the clause, "books of tables
intended to save labour in calculation,
may be supplied, with the
prior sanction of Government."

In order to facilitate
the purchase of the
books can be
allowed, with
reference to para 32
Appendix 2, M.C. Code.

There is no rule under
which the books can be
purchased at the cost of Govt,
of the use of Govt. part, T.R.S.
but it might be considered
whether hydraulic tables &
similar books of reference
might not be treated
differently from the professional
books, which officers are
expected to buy themselves.
A slight alteration in the code
would be sufficient, and such
one might be treated on its merits.

The proposed addition block
para 848 is not approved by
Govt. but the sanction may be
given as a special case to the
purchase of the tables required
for Mr. IV. Part. J.R. Elhene, and
also of the tables required by the
P.S.I. in his letter No 28 G.D
28th March 188.
