3 tracings
2 Estimates

Sir,

With reference to your letters marginally noted, I have the honor to forward 3 tracings and an Estimate amounting to Rs 4550/- for the following works to be executed at the Ophthalmic Hospital:-

1. Ceiling the roof of the upper stories
2. Altering the existing Apothecary's kitchen into a coach house & stall for the Medical Officer.
3. New kitchen & godown for the Apothecary
4. Altering sign board.

Particulars of the work to be done are given in the report attached to the Estimate.

If the plans & Estimate meet with your approval, please countersign & submit them

COPY of a communication from the Superintendent Govt Ophthalmic Hospital Madras to the Consulting Architect to Government, No. 226, dated 16th July 1888.

I have the honor in reply to your letter No 582 of July 15th 1888 to state that the Verandah is absolutely necessary as the frontage of the new kitchen buildings will face the north, and unless protected, insuperable inconvenience will be experienced during the prevalence of the North East monsoon.

I beg therefore to submit that the original plan be adhered to in its entirety in preference to the alterations proposed.

R. 27.7.88 – R. 6.8.88.

C. No 7149

Reg: N. 2383/8

The accompanying plan and Estimate were returned to the Consulting Architect with this Office No 2653 d/ 13th July 1888. for revision and reduction of rates –

The consulting Architect in reply states that after communication with the Medical Officer in charge of the Ophthalmic Hospital that Officer is of opinion that a verandah is necessary for the proposed Kitchen for the Apothecary's Quarters as inseparable inconvenience would be felt during the North-East Monsoon if it was left unprotected –

That it is necessary

27/7

the kitchen should be built with stock bricks in order that it may harmonise with the other buildings.

In regard to rates the Consulting Architect states that the rates in his division have been carefully compiled and thus he does not think a comparison can be made between the rates of his division and those of the Presidency Division -

Remarks

The necessity of a verandah for the kitchen is not sufficiently shown, the North East monsoon only lasts for a short time between the months of October and December it would therefore be sufficient to have projecting eaves which would protect the sides of the building from the North East as well as the South west monsoon.

The use of expensive stock bricks for a building of this class particularly a kitchen which will soon become dingy and black seems a waste of good materials.

No exception would have been taken to the rates given in the schedule for the Consulting Architects Division if a list of "Special Rates" had not been appended to it and as the rates in question did not come under "Special Rates" they had to be objected as being in excess of rates for similar items in the Presidency Division Schedule -

It may be well

2383W

(12)

to ask the Consulting Architect and the Supdg. Engr. II Circle to consult each other before fixing the rates in these divisions in future as it is only reasonable to expect the rates for work of an ordinary character to be alike in both of these divisions as they are working in the same locality as these rates stand at present either one is too high or the other too low —

The Estimate has been slightly reduced but not to the extent pointed out in the note put up with the Est. —

24/7/88

I think considering that the Kitchen faces the N.E. it is advisable to have a verandah — and as the surrounding buildings are of good appearance it would be a pity to economize at the expense of appearance in the case of the Kitchen. The inside of this would perhaps become dingy but the outside is what we are concerned with. The C.A's rates must I presume be accepted but a revision in accordance with the suggestions made hitherto with advantage.

The estimate may be sanctioned

25/7/88.
