GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers :—

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Bangalore, 16th July 1888, No. 1630.

With reference to your memorandum No. 2424 C., dated 27th June 1888, I have the honor to state that I consider the proposal of having the accounts of the bridge works made up in the South Arcot Division office may not be found to answer. A great part of the work will have to be done by departmental labor, and the accounts work will be very considerable. The work in the South Arcot Division office is as much as it can well be, and the Executive Engineer will probably want extra hands if the bridge accounts are to be given to him. I think, therefore, it would be advisable to treat the bridge works as a separate division and to have a complete divisional office establishment for the works on a reduced scale, the accountant doing the duties of head clerk in addition to his own. An extra division will perhaps give some little more work to the Examiner's office, but that should not, I think, be considered an objection.

2. When the work is in full swing, it will be necessary to have not less than two Overseers, one for each bridge, as they will have to be out on the work nearly the whole of the day, and Honorary Assistant Engineer Mr. Subramania Pillay cannot, I presume, be expected to do Overseer's work. If materials have to be manufactured departmentally, another Overseer or a good Sub-Overseer at least will be required.

3. For the Honorary Assistant Engineer, a clerk, one messenger and one lascar, and for each of the Overseer, a lascar, and for Executive Engineer, two messengers and two lascars will be required. A storekeeper will also be necessary, as there will be a considerable quantity of tools and plant. I enclose a statement of the proposed establishment which I consider really necessary, and which I request may not be reduced.

MADRAS,
4th August 1888.

(Signed) C. H. P. CHRISTIE, Major, R.E.,
Examiner, Public Works Accounts.

238/2

From the Examiner, Public Works Accounts, dated 24th July 1888, No. 1951.

ORDER—dated 6th August 1888, No. 2386 W., Public Works.

The Government consider that the statement of temporary establishment proposed by the Superintending Engineer, V Circle, for the Cuddalore bridge works is in excess of requirements, and accordingly sanction* the reduced scale shown in the statement printed with these Proceedings.

2. For account purposes, the bridge works will be treated as a subdivision of the South Arcot Division, but the head clerk of the subdivisional office will assist the divisional accountant in the preparation of the accounts of the bridge works. In all matters relating to construction, the Executive Engineer will be in direct communication with the Superintending Engineer.

3. The Chief Engineer will arrange to post the requisite upper and lower subordinate staff to the works, and the office and petty establishment may at once be appointed locally.

AUGUST.

Cuddalore Bridge Works

Orders sanctioning, with modifications, the proposed temporary establishment for the — and the treatment of the bridge works as a subdivision of the South Arcot Division for account purposes.

---

1 Cir. 7294.

(6) 2386/3

To W

The S. E. V Circle submits a statement of establt. costing Rs 445 per mensem, to work under Mr Peters on the Cuddalore bridges.

The S. E. further recommends that the work be formed into a separate accounting division, instead of treating it as a sub division of S. Arcot for Acct. purposes. The S. E. says that the S. Arcot division Office has as much work already as it can do, & that extra hands would be ex-

W/13

required if the accounts of the bridges were 2386/4 sent to it.

This proposal was referred to C for remarks, but the C now merely says that "the division might "probably for account "purposes be treated "as a subdivision "of the S. Arcot division", & gives no reasons whatever for thinking so.

The C further remarks that the estabt. proposed as compared with that employed on the Vaigai Bridge seems large.

For orders whether the S. E's proposals shall be sanctioned.

J–

3

It would apparently be more economical 2306/6 to give S. Arcot one or two extra hands, if needed, & to treat the bridge works as a sub division, ~~[illegible]~~ than to form them into a separate accounting division, but the point is an administrative rather than a financial one.

If approved, Hony Asst Engr T. Subrahmanya Pillai & Sergt. Rule will at once be transferred to the bridge works. Two temp. overseers on Rs 50 & 60 might be sanctioned for the

4

SUPERINTENDING ENGINEER'S OFFICE,
V Circle, Madras,

No. 1630

~~Chepauk,~~ Bangalore 16 july 1888.

From

Col.. H. M. Vibart R.E. 2388/19

SUPERINTENDING ENGINEER, V CIRCLE,

To

THE Chief Engineer
P.W. Department.

SIR,

Enclosures. 1

With reference to your Memorandum No. 2424 C dated 27. June 188 I have the honor to State that I consider the proposal of having the Accounts of the bridge works made up in the South Arcot Devision Office may not be foun to answer. A great part of the work will have to be done by Departmental labour and the Accounts work will be very considerable. The work in the South Arcot Division Office is as much as it can well be, and the Executive Engineer will probably wan extra hands if the bridge Accounts are to be given to him. I think therefore it would be advisable to treat the Bridge works as a separate Division and to have a complete Divisional Office Establishment

Establishment for the works on a reduced Scale, the Accountant doing the duties of Head Clerk in addition to his own. An extra Division will perhaps give some little more work to the Examiner's Office, but that should not I think be considered an objection.

2. When the work is in full swing, it will be necessary to have not less than two Overseers one for each bridge as they will have to be out on the work nearly the whole of the day and Honorary Assistant Engineer Mr Subramania Pilley cannot I presume be expected to do Overseer's work. If materials have to be manufactured departmentally another Overseer or a good Sub Overseer at least will be required.

3. For the Honorary Assistant Engineer, a Clerk, 1 Messenger, and 1 Lascar and for each of the Overseers a Lascar and for

Executive

Executive Engineer 2 Messengers and 2 Lascars will be required. A Storekeeper will also be necessary as there will be a considerable quantity of tools and plant.
