GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

Office Note from the Examiner of Public Works Accounts, dated Madras, 27th July 1888, No. 1977.

In continuation of my Office Note No. 900, dated 20th December 1887, and with reference to G.O. No. 126 W., dated 12th January 1888, I beg to state that the Executive Engineer, Kurnool Division, preferred a claim, amounting to Rs. 284-5-9, on account of medical stores supplied to the Public Works Department hospital. The charge has been admitted in accordance with previous practice, but as there is no rule in the Public Works Department Code fixing the limit up to which such charges can be sanctioned by the Superintending Engineer, it seems desirable that some limit should be laid down by Government within which such charges can be admitted by this office without objection.

2. In para. 6 of my Office Note above quoted, I overlooked the fact that there are Public Works Department hospitals not connected with any particular work or system of works, and I would suggest that in such cases the charge for medical stores should be debited to "Establishment Contingencies;" but it is, I think, for Government to consider, from time to time, whether with reference to the existing provision of municipal and local fund hospitals, it is really necessary to continue the maintenance of separate Public Works Department hospitals at such places as Cuddapah, Kurnool, Dowlaiswaram and Duggirala.

3. Charges for medical stores, if debited to works, must be debited to some individual sub-head of the estimate on account of the work or system. In the case of ordinary works this would be a distinct sub-head, and in the case of systems of irrigation works, it might be the sub-head which is usually largest, i.e., "earth-work."

4. When such charges are debited to "Establishment Contingencies," they should be disregarded for the purpose of applying the rule as to the maximum charge of Rs. 500 in any one month under Public Works Department Code para. 352 B. This will obviate the necessity for frequent references to Government.

ORDER—dated 20th August 1888, No. 2565 W., Public Works.

With respect to the limit up to which Superintending Engineers may sanction charges on account of medical stores supplied to Public Works hospitals, the Government consider that it will be sufficient if the countersignature of the District Surgeon be obtained to the indents for such supplies.

2. The Examiner's proposals with respect to the adjustment of charges on account of medicines are approved.

3. The Superintending Engineer, III Circle, will report his opinion as to the necessity for the continued maintenance of the Public Works hospitals at Cuddapah and Kurnool.
