FROM

W. HUGHES Esq.,

EXECUTIVE ENGINEER,

MADURA DIVISION.

TO

THE

Superintending Engineer
VI Circle
Trichinopoly

Sir,

Enclosed!

I have the honor to submit an estimate amounting to Rs 75 for copying 200 Tank Restoration Estimates, 164 of which received in June and July are now in my office. Unless I keep the estimates in my office I cannot check the bills and though every effort has been made to make working copies for the Sub Division officers, I have fallen 2 months into arrears— It was at one time the practice to send the sanctioned estimates to Sub Division officers with orders to

to return them after making copies,
but as it was found that they never
succeeded in getting the copies made,
I had to undertake to make them in my
own office. The delay which has accrued
is prejudicial to work but I cannot get
the draughtsman to do the copying now
estimated for without entirely setting
aside other work which is also much
in arrears. My clerks are fully occupied
with their ordinary work.

I have the honor to be,
Sir,
Yours Most Obedt Servt
W. Hughes
Executive Engineer
Madras Division.

N^o 609 MD

Enclos
Estimate

Submitted to the Chief
Eng^r for Enquiry for favor
of orders, with a request that
the Encl^{re} may be authorised
to have the copies made &
debit the cost against the
Sanku Restoration Scheme.

2 It is essential that the
Encl^{re} should have copies
of the Estimate to enable him
to check bills when received in
his office. It is also advisable
not to send the original plans
& Estimate to the Sub Eng^r

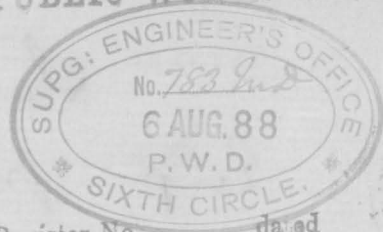

3 Perhaps it might be ar-
ranged in future to send duplicate
copies of plans & Est^s
from the Sanku Restoration Of-
fice, but as regards Est^s al-
ready received, they have better
be copied in the Encl^{re} Office.

Endorsement by Chief Engineer
for Irrigation
No. 19827

18th August 1888.

Forwarded to the Chief
Engineer P.W. Department.
The Chief Engineer for Irrigation
does not consider it advisable
to sanction the Estimate
submitted by the Superintend-
ing Engineer VI Circle, as
the flow of estimates from
the Tank Restoration
Office is continuous, and
by the time that the 200
estimates referred to
have been copied, it will
be necessary to have a
fresh estimate for copying
a further number of
estimates that will mean-
while have been sent to
the

The Executive Engineer
Madura Division.

For the reasons given
in this office note No 1101
dated 23rd May 1888,
the undersigned does not
consider it advisable to have
duplicate plans and
Estimates prepared in the
Central Tank Restoration
Office, and he would recommend
that the sanction of Government
should be applied for, for
an extra Draughtsman on
Rs 20-30 per mensem, to work
in the Office of the Executive
Engineer Madura, Coimbatore
and Chingleput Divisions,
upto 31st March 1889,
after which if the extra
Draughtsman's services are
still considered necessary,

fresh sanction can be applied
for when sanction for the
rest of the Tank Restoration
establishment is being renewed.

S. D. Peas
for Chief Engineer
