10TH SEPTEMBER 1888, No. 2806 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From the Consulting Architect to Government, No. 711, dated 10th August 1888.
Note by the Chief Engineer, Public Works Department, dated 6th September 1888.

ORDER—dated 10th September 1888, No. 2806 W., Public Works.

The Government accept the rough estimate, amounting to Rs. 9,45,000, of cost of construction of new High Court buildings; and generally approve of the designs submitted by the Consulting Architect.

2. The detailed plans and estimates should be submitted with as little delay as possible. Meanwhile the Consulting Architect is authorised to commence the construction of the buildings.

Colonel Hartshorn's note should not be printed - The order is sufficient by itself.

W.M.

10.9.88

Principal Comb. floor space req. 59' x 55' 3"

Small area built on top of 22' x 20'
 2' x 2' x 2' x 2' x 2' x 2'

Height of main building 26' 3"
 26' 7"

Height of front porch 12' 5"
 11' 2"

That the height between floor in
 second floor 16' 10" in the lower story
 is in fact of the story floor
 is 16' 10"

It is also stated that the area
 between second and third
 story is added by the addition
 of some of the lower which is
 not to be separated, also of some
 is a slight enlargement of some of
 the space above for stairs, and
 that in some instances walls do
 extend to rest on of some in
 the story, and some

is found in view of the front view.

The height of the front of the
 front view is Rs 29,757. say Rs 30,000

Rs 30,000 deducted from Rs 30,000
 Rs 0.00

There should be a
 sufficient margin at it and
 the estimate for the

Should necessarily arise, any further
 estimate could be made after the
 design arrived at and that it
 could only be obtained by a complete
 of some of the architect's work
 of the buildings, and that the
 only portion of the buildings that
 could be cut off would be the
 ceiling, porch & central tower
 since 3rd story. It being that the
 foundation was built to as shown
 that portion the actual estimate
 it was found that omitting the
 ceiling, porch and tower Rs
 28,235 & the central tower
 a further sum of Rs 13,373.
 It is however held that the
 front view is correct, and should
 not be taken into account unless it
 was not unavoidable.

It is suggested therefore that
 the estimate with the omission
 of the last portion of the upper
 story, amounting to Rs 9,65,000
 should be accepted, and that
 the estimate should be counted to
 the architect's estimate.

of the most beautiful the
 detailed estimate should be
 added not to go into the details
 they said is left, which is
 left in detail, the position
 of the omission of the paper
 character of the books should
 be considered
