I have the honor to acknowledge the receipt
of your endorsement dated 15th instant, forwarding
a further representation from the Examiner of Public
Works Accounts respecting the failure of the Executive
Engineer, Presidency Division, to apply in time for a
letter of credit.

2 The Examiner demurs to my interpretation of rule 2, Chapter 24 of the Civil Account Code, and argues that it can only be applied to a case of "delay or miscarriage of a letter of credit actually issued". I am not able to concur in this view, and I still maintain that the rule may be used in such a case as the one under consideration.

3. The Examiner admits in his sixth para that no change of procedure is required, and this is the main point of the controversy. The interpretation of the Code rule, respecting which I am sorry to differ from the Examiner, is a departmental affair and can be settled departmentally, if necessary. I do not think the Government need be troubled any further about this matter.
