-dation as store rooms in

2. The existing building
for the General Stores being
quite insufficient, an
estimate for the extension
of the same between the
existing building and
the drain at the South
to a width of 23 ft. was
called for by the Superin-
-tendent Gun Carriage Factory.

6. All wood work such as beams, joists, brissummers & wall plates are to be of teak & the scantlings are little in excess of the rules laid down in the standard specification, but this perhaps

perhaps is necessary to provide for heavy loads being placed on the 2nd floor. Beams over iron columns, joists in the lower & upper stories are to be stained with 3 coats of wood oil. Brissummers over brick columns in the lower & upper stories & fixed Venetian screens between veranda columns are to be painted with 3 coats of Carsons white paint.
