ENCLOSURE.

I have the honor to forward
for your orders an original letter
from the Executive Engineer, Pan-

2. There is at present a great
scarcity of houses in Panjore, &
should Mr. Garrett be called on
to vacate the house he now occu-

much inconvenience -

3. As Panjore must always be
the Head quarters of an Executive
Engineer, a house would always
be in permanent occupation.

would build a house
for the Executive Engineer.
4. All the houses in
Panjore which are oc-
-cupied by Europeans
are in the midst of
the native population
and I am sure that
if a house were built
about a mile out on
the Dullum Road, every
Officer coming here in
charge of the Division
would be only too glad
to occupy it in preference
to the other houses, even
supposing any of them
were to let -

Enclosure.

SIR,

I have the honor to inform you that there is every probability of the house I now occupy being sold to a native gentleman who intends living in it himself.

2. There is not another house in Tanjore which I could take, and if asked to vacate the one I am now in, I shall be in a very awkward predicament.

3. I request under these circumstances that you will be good enough to ascertain whether Government would

Why?
I have to
leave the house
in a few days
and I am
not comfortable
in it.
