Sir,

As desired in your memorandum No. 44 M.D. dated 9th May 1888, I have the honor to explain that when the head quarters of the Perrayar Division was moved to Madura, the Civil Apothecary accompanied it, as his services could not be dispensed with for the three months the establishment were in the plains.

2. He brought with him a small supply of medicines, and a few articles of the furniture of the hospital.

hospital.

3. There is no Government hospital in Madras, and it was reported to me that there was no room in the Municipal Hospital. I have since personally ascertained from the Civil Surgeon that they have absolutely insufficient space for their own requirements.

4. The Civil Apothecary was therefore authorised to rent a building, a portion of which could be used as his hospital and the rest for his own quarters. This has been done, and it is sanction to the payment of part of the rent of the house which is now asked for.

I have the honor to be

2. The Chief Engineer for Irrigation cannot see that there was any necessity whatever to have established a Hospital at Madura for the Periar Project Establishment although it was quite right for the Civil Apothecary to be brought to Madura.

3. The total area of the house taken for Hospital and quarters for the Apothecary is 675 sq. feet at a rent of Rs 10 a month.

4. As a special case it is considered that a monthly rent of Rs 5 may be allowed for 3 months for the portion of the house used as a Hospital.
