17TH JANUARY 1888, No. 89, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following papers:—

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Bangalore, 15th October 1887, No. 2855.

With reference to paragraph 2 of the G.O., Judicial Department, No. 1646, dated 27th July 1887, communicated in Public Works Department No. 2193 W., of 17th August 1887, I have the honor to state that the Executive Engineer, Presidency Division, brings to notice that the objectionable character of the present latrines at the High and Small Cause Courts is attributable to their being used as public latrines, as there is no public latrine provided by the municipality between Clive's Battery and the Fort.

2. If public latrines were provided by the municipality at suitable intervals along the beach, the sanitary condition of the court latrines would be, perhaps, ameliorated.

No. 3619 C.

Transferred to the Judicial Department, with reference to the orders in that Department, No. 1646, dated 27th July 1887.

(Signed) W. L. C. BADDELEY, Captain, R.E.,
Under Secy. to Govt., P.W.D.

21st October 1887.

To the Judicial Department.

From Lieutenant-Colonel G. M. J. MOORE, President, Municipal Commission, to the Chief Secretary to Government, dated Madras, 19th December 1887, H No. 1234.

With reference to your C. No. 4513 of 1887, I have the honor to state that it seems doubtful whether latrines along the beach would improve that of the High Court. It may be assumed that the High Court latrine is used by the employes and the frequenters of the court; it is not likely that they would go outside when they have the convenience inside. The best way would be to improve the High Court latrine itself. There is difficulty in getting a site for a public latrine, but I am endeavouring to procure one close to and behind the High Court, but I am very doubtful as to the erection of any public latrine ameliorating the condition of the High Court latrine.

ORDER—dated 17th January 1888, No. 89, Judicial.

Communicated to the Honorable the Judges of the High Court and to the Public Works Department.

JULY.

High Court Buildings.

Passing orders in connection with the site pro-
posed for the latrines attached to the —.

With order

27TH JULY 1887, No. 1646, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following paper:—

From H. T. ROSS, Esq., Registrar of the High Court of Judicature, Appellate Side, to the Chief Secretary to Government, dated Madras, 14th July 1887, No. 1810.

With reference to G.O., dated 20th April 1887, No. 857, Judicial, I am directed to state that the site to which it is proposed to remove the latrines is, in the opinion of the Court, most objectionable. The prevailing wind is southerly, and the site proposed is just twenty yards due south of the Appellate Court and the Appellate Side offices. I am to request that a more suitable site be selected.

ORDER—dated 27th July 1887, No. 1646, Judicial.

The Government observe that the Sanitary Commissioner in his letter of 30th March, read in G.O., dated 20th April 1887, No. 857, reported that the site in question is the best and indeed the only available one he could find. If the latrine is properly constructed and constantly attended to, it should not become offensive.

2. The proposal to build a new High Court elsewhere has recently been revived, and meanwhile the Sanitary Commissioner will give such instructions as he may think proper to minimise the objectionable character of the present latrine. If after all it should be determined to retain the courts where they are, the Honorable the Chief Justice will be requested to nominate a committee to decide where the latrines should be built.

20TH APRIL 1887, No. 857, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following paper :—

From Surgeon-Major J. A. LAING, Officiating Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Madras, 30th March 1887, No. 326.

With reference to G.O., No. 2661, dated 5th October 1886, Judicial, I have the honor to report that I have, along with the Executive Engineer and the Chief Judge, Small Cause Court, Madras, inspected the latrines of both the High and Small Cause Courts and have come to the following conclusion.

2. The latrines are of most faulty construction especially those of the Small Cause Court, and so offensive that it is a wonder they are used at all. We visited them in the early morning before they had been used, and even then the smell was overwhelming. The site of the latrines is very objectionable, and they are situated in very close proximity to the Small Cause Court. See map.

3. The recommendations we could make are :—

- (1) The abolition of the present faulty latrines, and the substitution of others on an approved plan. The form we would propose should be either like the latrine at Chepāk (with slight alterations), or one of Crawford's patent privies.
- (2) The present site being objectionable, we would propose that the new latrines be placed outside the court-yard altogether and erected at a place south of the High Court buildings and which is marked A on the map. This site is suitable in every way, and is the best and only available one we could find.
- (3) The removal of all the hedges, shrubs, &c., with the exception of the larger trees from the court-yard of the High Court, and substituting instead a plain gravelled court-yard. The shrubs and hedges afford shelter for the committing of nuisances as well as for throwing rubbish, and the court-yard on the days of our inspection was very far from being clean.

ORDER—dated 20th April 1887, No. 857, Judicial.

The removal of the latrines to the site proposed is approved, provided the new latrine will suit the plan for the new buildings. An estimate of the cost should be prepared by the Executive Engineer, in communication with the Government Architect, and submitted to the Government through the High Court at an early date.

2. The Sanitary Commissioner's suggestions regarding the court-yard of the High Court will be communicated to the Honorable the Chief Justice.

5TH OCTOBER 1886, No. 2661, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following paper:—

From J. W. HANDLEY, Esq., Chief Judge, Small Cause Court, Madras, to the Chief Secretary to Government, dated Madras, 24th September 1886, No. 686.

I have the honor to request sanction for the following works in connection with the buildings of this court which are urgently required.

2. A roof over the terrace above the recently erected auction room will be a very great convenience to suitors and others frequenting the court. If this terrace were covered in, persons passing to the Registrar's court would go by the terrace instead of, as at present, through the verandah in front of the Second Judge's court which causes much noise and confusion and consequent inconvenience to those engaged in that court. A light roof with iron or wooden pillars will easily be erected, and by opening doors on to the terrace from the Second Judge's court, that court will be made less dark. The covered-in terrace will also afford a place for suitors and others attending the court to wait in. At present they crowd the verandahs close to the courts and it is difficult to keep a passage clear for persons passing to and from this court, and the inevitable noise close to the court is very trying to those engaged in the courts. It would be desirable, if possible, that this work should be carried out before the north-east monsoon sets in.

3. The latrine accommodation connected with this court is wholly insufficient and in a very unsatisfactory condition. The latrines of the High Court and this court are in the same line of buildings, but the High Court has three times as much accommodation as this court though the number of persons attending this court is infinitely greater than that attending the High Court. Both buildings are in very close proximity to our court and offices and the stench from them is frequently very great and must be prejudicial to health. If the buildings are to be left in their present position, it is absolutely necessary that they should be thoroughly repaired and asphalted and the whole of their internal arrangements reorganized in accordance with sanitary principles, or the consequences to the health of the establishment and the public may be most serious. I would suggest that some person conversant with such matters be deputed to inspect and report upon the present state of the latrines of both courts and to suggest the necessary alterations and improvements.

ORDER—dated 5th October 1886, No. 2661, Judicial.

Approved and communicated to the Public Works Department.

2. The Sanitary Commissioner will, with reference to the suggestion made at the close of the foregoing letter, make the desired inspection and report in communication with the Executive Engineer and the Chief Judge of the Small Cause Court.
