READ—the following paper:—

From the Secretary to the Government of India, Military Department, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 8th October 1888, No. 1910 M.W.

I am directed to acknowledge the receipt of your letter No. 2140 W., dated 14th July 1888, forwarding copies of certain Proceedings of the Government of Madras relating to the Lawrence Asylum at Ootacamund, and requesting the sanction of the Government of India to carry out, from Military funds, a new scheme of water-supply for the asylum at a cost of Rs. 12,350.

2. The Government of India concur in the advisability of carrying out this work. But it is observed that a considerable amount is available from the Asylum funds for works, as it is proposed to allot a sum of Rs. 18,200 for the erection of a separate hospital. The Government of India have already definitely intimated that in their opinion this hospital is not required, and have stated that they are not prepared to sanction any further expenditure on the Asylum buildings.

3. There would be no objection to the expenditure of the Asylum funds on a new hospital if this did not involve the necessity of asking the Government of India to provide funds for other necessary works. But until the cost of such desirable works as the improved water-supply and other items mentioned in the order of the Government of Madras, No. 1069 W., dated 9th April 1888, has been met from the available Asylum funds, the Government of India would wish the hospital building to be postponed.

4. Under the circumstances, the Government of India regret that they are unable to accede to the proposal that the cost of the improved water-supply for the asylum should be provided in the Imperial Military Works budget estimate for 1889-90.

ORDER—dated 17th October 1888, No. 3303 W., Public Works.

His Excellency the Governor in Council observes that the construction of a separate hospital was directed after full investigation on the spot. He himself took objections to the scheme, similar to those now raised by the Government of India, and it was only on its being certified by the Surgeon-General that contagious wards costing nearly the same sum were absolutely necessary that he consented to sanction the work. The work has now been given out on contract and cannot be stopped. His Excellency in Council much regrets that the Government of India are unable to

provide funds for the water-supply. The result of the reference will be communicated to the committee.

To orders.

The Govt of India consider that the hospitals should be postponed in favour of the Water Supply Scheme and other works which they regard as more important. Meanwhile it would appear that the Executive Engineer, acting on G.O. 2139 dd 14 July. 88, is about to commence the work, and has already given out a Contract for it. vide C.
