22ND OCTOBER 1888, No. 3355 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From J. HANNAN, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Bezvada, 13th September 1888, No. 197 B.C.

I have the honor, with reference to the enclosed correspondence, to request that the submission of a detailed report of mathematical and surveying instruments, form M. 13 A, may be dispensed with in the case of temporary transfers. This report has, under para. 1675, to be forwarded every half-year, and its submission twice in the case of a temporary transfer of a few months seems to be a great waste of time and labor, even if it be, as it probably would be, not a *bona fide* report based on examination, but a copy of the last return.

No. 2405.

Forwarded with the remark that the report is required under present rules (Code paras. 382 and 399). It is for Government to say whether they wish it to be modified in the sense proposed; but the effect of such a change will presumably be that in the case of transfers consequent on privilege leave, the permanent incumbent will remain personally responsible for the instruments.

2. If the Government do not approve of the change, it might be well to make it quite clear that the latter part of Code para. 399 only means that it is for the Superintending Engineer to decide whether (1) the rules preceding para. 399 shall be observed in their entirety, or (2) whether the case is to be treated as a temporary transfer and the relaxation specified in para. 399 allowed, and thus to make it clear that the rule does not authorise Superintending Engineers to allow any relaxation beyond that specified in para. 399. The interpretation of this rule has been questioned once or twice recently.

15th October 1888.

(Signed) C. H. P. CHRISTIE, Major, R.E.,
Examiner, Public Works Accounts.

ORDER—dated 22nd October 1888, No. 3355 W., Public Works.

The Government are of opinion that the Code rule, para. 399, is clear as to discretionary power being vested in the Superintending Engineer on occasions of "temporary transfer of charge," and they see no reason to amend it.

(True Extract.)

Captain, R.E.,
Under-Secy. to Govt., P.W.D.

OCTOBER.

Temporary transfer of charge

Declining to amend Code rule 399 vesting
in the Superintending Engineer discretion-
ary power on occasions of —.

No. 537 $\frac{9.E.}{2}$

From

Major G. H. P. Christie R.E.
Examiner of P.W. Accounts
Madras

To

The Executive Engineer
Buckingham Canal District
Madras

Sir

Madras 31st August 1888.

With reference to your letter
No. 912 of the 19th instant, I have
the honor to point out that para
382 of the Code is not qualified
at all by para 399, according to
which, para 382 is to be followed
in all cases whether of temporary
or permanent transfer. I therefore
request that you will be good
enough to submit the necessary
detailed report on Survey and
mathematical instruments, or obtain
the sanction of Government to dispense
with it.

Yours truly,

/ True copy /

Command

From

C. Vincent Esq
Executive Engineer

B. C. W.

To

The Superintending Engineer,
II Circle.

Bezwada.

Sir,

I have the honor to inform
you that the Examiner Public Works
Accounts has called on me for a
detailed report on the state of Surveying
and mathematical instruments in form
N^o 13A as required by Code paras
382 and 399 with reference to my re-
lief of Mr. N. Rathnasabhapathy
Pillay on June 18th. who had been
holding charge of the Division during
my 6 weeks absence on privilege leave.

2. With regard to this demand,
I have the honor to request your

Opinion as to whether it is necessary to furnish such report in a case like the present, when the absence is merely temporary and when both relieving and relieved officers belong, before and after the leave, to the same Division. In my mind such a report in such a case appears to be an unnecessary formality that might be dispensed with with advantage.

3. The latter part of para 399 appears to rest in the Superintending Engineer the interpretation of the rules, but the Examiners in a second letter I have had from him seems to assume that that the sanction of Government is necessary.

4. I may add that when Mr. N. Rathnasabhapathy Pillay rejoined me in May no such report was prepared or has been called for
