TO
THE SUPERINTENDING ENGINEER,
FOURTH CIRCLE,
COIMBATORE.

SIR,

In reply to your Endorsement No. 499/N.I. of 19th instant, I have the honor to report as follows:—

2. Para 2 of G.O. No. 3275 W. d/15th October 1888, is not understood. If it refers to my application for sanction to purchase locally stores manufactured in Europe No. 2590 d/ 2d October 1888, I beg to point out that I made no reference to Clause 2. The piping was never indented for through the India Office, but was ordered from Messrs. Richardson and Cruddas of Bombay and has since been received and laid.

3. The frequency of these applications from this Division is due to 3 causes:—

1st and mainly to the Estimate for Ooty water

Water Supply which requires a number of articles to complete it, not foreseen either when the Estimate was framed or when the Original Contract for supplying pipes &c. was given to Mess^rs Richardson & Cruddas. The latter firm has supplied all the materials required for the work up to date, with the sanction of Government, and there does not therefore appear to be any objections to them continuing to do so. But whenever it is necessary to order from them any article whose price exceeds R.50/ I have to obtain Government sanctions, and hence the frequency of these applications complained of, and the apparent ~~or~~ constant infringement of the rules, regarding the local purchase of Europe articles. The water supply system is now almost completed and these applications will henceforward be very rare.

It would delay the work for many months if I had to indent on the India Office for all articles required in connection with this water supply.

2nd To the very occasional necessity for the purchase of Tools and Plant, which are not available in the D.W. Stores.

3rd To the local purchase of Corrugated iron for various works — which purchase will now cease because the supply from the India Office indented for last year is on its way up from Madras.

I have the honor to be
Sir
Your most obed^t Servant.

Executive Engineer N.D.

No. 502/M.W.

Submitted to the Chief Engineer P.W.D. for information with reference to G.O. dated 15th October 1888 No. 3275. I think the Executive Engineer's explanation is satisfactory.
