TO,

THE CHIEF ENGINEER

D. S. W.

FOR IRRIGATION.

DOWLAISHWARAM, 10 November 1888.

SIR,

In forwarding herewith copies of correspondence as per margin, I have the honor to request that under the circumstances therein stated, you will be good enough to obtain the sanction of Government to the demolition of the

1 Copy of letter from Post Conservator

& Supt of Sea Customs No. 1506

of 12-6-88 to the address of Collector with Collector's endorsement thereon.

1 Do - Executive Engineer's letter No. 1320

of 22-7-88 to the Collector.

1 Do - Collector's reply No. 3662

of 10/8/88.

3

goods shed on the beach at Caluiga-patam in the Ganjam Division. Vide para 1033 of the P.W. Code.

2. The probable cost of demolishing building will be Rs. 110.

I have the honor to be
Sir!

Your most Obedt Servant

Frederick Buchanan Lt Col R

Superintending Engineer
1st Circle.

From.

Gajaim Collector's Office.

Chatrapur.

10th August 1888.

The Collector of
Gajaim.

To

The Superintending Engineer
1st Circle.
Dowlaiswaram

Sir,

In continuation of my
footnote, dated 30th June last No. 2939
I have the honor to inform you that
I have accepted the recommendation
made by the Executive Engineer, after
personal inspection, that the goods
shed which is the subject of correspondence
should be demolished as its repairs
would be very expensive without the
possibility, much less certainly of its
immunity from the erosive effects of
the surface drainage &c.

I have &c
(S) J. D. Lever
D. or Collector

Port officer. It should be at once
demolished and materials thereof sold
3. We cannot think of restoring
the structure unless the ground
there is first reclaimed and protected
against the encroachment of the sea,
backwater and drainage which idea
I am given to understand has
been given up.

I have &c &c
(S) S. Subrayachariar.
Executive Engineer
Gajaim D.

Port Conservator
Calingapatam

To,

J. G. Horsfall Esq^r
Collector of Ganjam -

Dated Calingapatam 12-6-88

Sir,

With reference to your letter No. 2474 dated 9th June 1888, I have the honor to state that if the goods shed on the beach is not repaired and protected which would be very expensive still it would be advisable at a small cost to pull the two pieces of wall at the south end down as they are nearly down already and look very unsightly and use the material for closing up the gap the sea has made under the floor to prevent it getting undermined further and also to bank sand round the shed fill up rents in the walls and holes in the floor. The roof of the shed looks in good order it is partly attached and galvanized roof - The shed is seldom used at present, the merchants prefer bringing the

grain from their own godowns to be shipped.

I have seen H. F. Greuter
Sup^d Sea Customs.

No. 2747.

Forwarded to the District Engineer with the request that the repairs suggested by the Superintendent Sea Customs may be carried out if possible.

The Executive Engineer
Gajam Division

To

The Collector of Gajam.

22nd / 27th } July 1888.

Sir,

In returning the accompanying letter from the Port Conservator Calcuttapatam bearing your endorsement No. 2747 dated the 22nd ultimo I have the honor to inform you that I inspected the goods shed at Calcuttapatam in company with Mr. Greuter on the 18th instant.

2. The shed is cracked in the northern end and ruined in the southern end and has its foundations mostly exposed to action of wind and water and therefore in my opinion cannot be repaired at a small cost as suggested by your
