Enclosures.

SIR,

Referring to G.O. No. 3091 W dated 3rd October/88 on the subject of special salary allowances granted to Officers of the P.W.D employed on the Ootinghi Ghat and in Wynaad, I have the honor to draw attention to the case of the "Fever Zone" in the Kurnool Division which comprises all the tract East of Nandyal. The Bellary Kistna State Railway have recognized the unhealthiness of this part of the country through which their line passes by granting their staff employed there 30 % additional

P.W. DEPARTMENT, MADRAS

No. 1691

Special salary allowances

Recommending the grant of ⌴ to officer and his establishment of the P.W.D employed in the "fever zone" of Kurnool Division and proposing the fixing at Nandyal of the Hd. Quarters of the Cumbum Sub Dn. officer instead of at Cumbum.

Referred

on their salaries and double travelling allowance. I propose that the Head Quarters of the Cumbum Sub Divisional officer shall in future be fixed at Nandyal, and not at Cumbum; but we shall not be able to do without a permanent upper subordinate at Cumbum and I do not think it is asking much for him and his establishment to be treated as well as those employed on Railway service in the same parts.

I have the honor to be

Recommendation of the Supdg Engr III Circle for the grant of special salary allowances to the officer & his Establt. employed in Kurnool division not entertained

---

6th November 1888, No. 3537 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers :—

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Chepâk, 19th June 1888, No. 1164.

I have the honor to state that 36 tons of teakwood and 1½ tons of cedarwood side-cuttings of the book-value of Rs. 1,042-8-0 were sold by public auction at the Public Works Workshops and a sum of Rs. 516-8-0 was realized by the sale. I request that sanction may be given to the necessary adjustment being made in the accounts of the loss by sale which amounts to Rs. 526.

From the Examiner, Public Works Accounts, dated 9th July 1888, No. 167 W.

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 18th August 1888, No. 2136.

With reference to your memorandum No. 428 D., dated 17th July 1888, I have the honor to forward copy of a report from the General Superintendent, Public Works Stores and Workshops, regarding the manner in which side-cuttings from teakwood have hitherto been valued and disposed of, without reference to the allowance made for wastage in the rates charged for timber cut and sawn.

2. This practice was objected to in the Examiner's notes of inspection, printed in G.O., No. 3474 W., dated 20th December 1887 (see item 8 of summary), and in para. 2 of the Examiner's note in G.O., No. 1998 W., of 4th July 1888, further report was called for. A full report was submitted with my letter No. 1989, dated 6th August 1888, reporting the result of the stock-taking of stores in the Public Works Stores and Workshops. It was shown therein that there is the large quantity of unserviceable scantlings amounting to 4,725 cubic feet in hand which, if sold by public auction, will fetch probably not more than a rupee per cubic foot.

Enclosure.

From Lieutenant-Colonel S. C. CLARKE, R.E., General Superintendent, Public Works Workshops, to the Superintending Engineer, V Circle, dated Madras, 9th August 1888, No. 1246 W.

With reference to your endorsement No. 1911, dated 1st August 1888, calling for some further explanation about the method of dealing with the timber wastage, &c., I have the honor to inform you that it would appear to have been the custom in this office to value the side-cuttings and odds and ends cut off from the logs at one-fourth of the full (book) value, but at the last auction the price realized was only about one-eighth.

2. The rate charged for wood is Rs. 3 per cubic foot, which is made up as follows:—

	RS.	A.	F.	
Log price	2	4	0	per c. ft.
Sawing charges	0	8	0	
To meet loss by wastage, &c.	0	4	0	
Total ...	3	0	0	

which would appear to be just enough to meet the actual loss by wastage in most cases.

3. The side-cuttings and other more or less useless pieces or scantling have always apparently been included in the bulk of serviceable wood and thus given a fictitious value.

4. When a certain quantity of this serviceable wood was selected out of the stock and sold as useless, its value was altered to one-fourth as stated in para. 1, and the one-fourth amount thus deduced was deducted from the stock balance, when a fresh rate was given for the remaining portion of timber stock entered as serviceable.

From the Examiner, Public Works Accounts, dated 26th August 1888, No. 2485.

Order—dated 6th November 1888, No. 3537 W., Public Works.

The loss, Rs. 526, by the sale of the side-cuttings, &c., in question should be credited to "Materials in hand" in the Workshop manufacture suspense account and debited to Tools and Plant under the sub-head "Loss."

2. It appears from the General Superintendent's letter that the rate charged for wrought wood is Rs. 3 per cubic foot, this with the wood in log costing Rs. 2–4–0 per cubic foot is not sufficient, the wastage allowed being only one-ninth. The usual allowance is from one-fourth to half according to the size of the scantlings turned out and the nature of the logs, &c.

3. Attention is called to volume IV, Government of India Code, appendix C, in regard to the method of pricing and classifying timber, but it is considered that it will be sufficient if special rates are charged for small scantlings, ordinary scantlings and for special beams.

4. The Superintending Engineer's letter No. 1989 of 6th August 1888, referred to above, has been disposed of in separate Proceedings.

(True Extract.)
