Read—the following papers :—

From Lieutenant-Colonel J. PENNYCUICK, R.E., Superintending Engineer, VI Circle, to the District Magistrate, Tinnevelly, dated Kodaikánal, 24th June 1886, No. 139 T.N.

In forwarding herewith the plan and estimate for adding the subsidiary jail with out-houses to the existing taluk cutcherry at Kulasekharapatnam for your approval and submission to Government for sanction, *vide* paragraph 1168 of Public Works Code, I have the honor to invite your attention to paragraph 4 of my report attached to the estimate and request that any explanation you may think necessary may be given in your covering letter to Government.

No. 727.

Forwarded * to Government with remark that as there is no toti on the establishment, there is no necessity for the latrine asked for by my predecessor.

* With one estimate and two plans.

Tinnevelly,
6th July 1886.

(Signed) S. H. WYNNE,
District Magistrate.

No. 1171 C, Judicial.

Approved and transferred to the Public Works Department with the remark that the latrine is considered unnecessary.

(By Order.)

19th July 1886.

(Signed) A. G. CARDEW,
Acting Assistant Secretary.

Note by the Chief Engineer, Public Works Department.

The estimate is recommended for sanction. The Superintending Engineer will consider whether the covered passage, which is only 6 feet high, should have a tiled roof instead of a terraced one as entered in the estimate.

(Signed) J. SHAW-STEWART, Colonel, R.E.,
Chief Engineer, P.W.D.

Order—dated 5th August 1886, No. 1941 W., Public Works.

The estimate, amounting to Rs. 3,770, for adding a subsidiary jail with out-houses to the tahsildar's office at Kulasekharapatnam in the Tinnevelly district, is reduced by

Rs. 490, the estimated cost of a latrine which is considered unnecessary. Sanction is accorded to the reduced amount Rs. 3,280.

2. Attention is drawn to the note by the Chief Engineer above recorded.

3. This sanction has been registered as Provincial, No. 74 W. of 1886-87, and classified as Civil Buildings, Original Works.

No. 409 T.C.

Report by the Superintending Engineer, VI Circle, on the estimate for adapting the portion of old Nabob's palace adjoining the Town Sub-Magistrate's Cutcherry at Trichinopoly as the Registrar's office, Rs. 4,100.

The estimate is called for in G.O., No. 1431 W., of 7th June 1884.

1 Estimate.
1 Plan.
1 Duplicate abstract estimate.

2. The building is reported to be in tolerable preservation, but requires some repairs and additions before its adaptation as Registrar's office, as will be seen from the Executive Engineer's report.

3. The portion marked R.S., T.V. in the plan is proposed for the Registrar's office, and gives spaces as follows :—

For Registrar and clerks 40 × 22 = 880 square feet against 30 × 20 = 600 square feet in standard plan.

For records 2 (40 × 16) = 1,280 square feet against 20 × 30 = 600 in the standard plan ;

but its cost is a little more than that of a new building on the standard plan, and this extra cost is due to the repair of the yard in front of the proposed Registrar's office which cannot be left in its present dismantled state.

4. The rates are fair and the estimate is recommended for sanction.

5. The building altered as proposed will make fair offices.

Trichinopoly,

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 29th February 1888, Mis. No. 1386.

H. S. Thomas, Esq., F.L.S., F.Z.S.

Read—the following letter from E. TURNER, Esq., Collector of Madura, to the Acting Secretary to the Commissioners of Land Revenue, dated Madura, 10th February 1888, No. 62:—

1. Estimate for the construction of a Sub-Magistrate's cutcherry for Rs. 12,570.
2. Plan.
3. Duplicate abstract.

In enclosing herein marginally noted papers for constructing a Sub-Magistrate's cutcherry with sub-jail and out-houses at Sivaganga, I have the honor to request you to be so good as to obtain the sanction of the Government for carrying out the work in question.

2. I think that the construction of a new building is highly desirable as the present building is in bad order and unsuitable for the purpose (*vide* paragraph 2 of the Superintending Engineer's report herein enclosed).

3. I further beg to state that the Government have in their Proceedings, dated 27th September 1887, No. 1818 L. (Mis.), approved the Taluk Board's proposal regarding the sale of the piece of land for the construction of the said cutcherry, and ordered that the sale should not take place before the estimate for the work is sanctioned.

Resolution—dated 29th February 1888, Mis. No. 1386.

The plan and estimate for Rs. 12,570, for constructing an office for the Sub-Magistrate at Sivaganga, are submitted for the sanction of Government and for the provision of funds in the budget of the Public Works Department.

2. The necessity for the building is explained by the Collector in paragraph 2 of his letter.

(True Extract.)

(Signed) R. S. BENSON,
Ag. Secretary.

To the Secretary to Government, Revenue Department, with letter and enclosures in original to be returned.

Copy to the Collector of Madura.

No. 1993, Revenue.

The estimate is approved and transferred to the Public Works Department.

2. The Board will report how the value of the site for the proposed building has been fixed and whether it was acquired by the Local Fund Board by purchase.

Read—again the following paper :—

G.O., dated 19th July 1887, Mis. No. 4190, Revenue.

Read—also the following papers :—

G.O., dated 21st June 1888, No. 3605, Revenue.

Read—the following letter from J. W. RUNDALL, Esq., M.I.C.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Tanjore, 4th May 1888, No. 148 M.D.

I have the honor, with reference to G.O., No. 578 W. of the 25th February 1887, to forward, herewith, a report by the Executive Engineer, Madura District, regarding the proposed roads in Kodaikánal, together with an estimate of Rs. 15,790 for constructing the same, together with the surveys and other papers connected therewith.

2. As I have not been at Kodaikánal for several years, I am not able to speak from personal knowledge as to whether the proposals are the best which can be made, but there can be no doubt that a general scheme of roads, as now laid out, is essential in the case of a station which is rapidly extending and growing in importance.

3. The Executive Engineer's report, as to the considerations which have guided him in laying out the roads and fixing the site of the bridge, is clear.

4. The Executive Engineer advises the abandonment of any idea to construct the lake on the Parappar, and in my opinion his arguments are conclusive against its formation.

5. Mr. Hughes states that if the construction of the lake be abandoned considerable improvement can be effected in laying out the roads now estimated for.

6. I beg to send on the papers as received for orders: (1) regarding the lake and (2) the general question of the construction of the roads and the amount which the Government are willing to spend for this service.

7. Considering that all properties on these hills will be improved by the construction of a general system of roads, but more particularly those through which the roads will be carried, it is to be hoped that the extravagant demands for compensation will not be made.

Enclosure.

Report to accompany estimate for roads at Kodaikánal—amount of estimate Rs. 15,790.

In G.O., No. 578 W., dated 25th February 1887, orders have been given to submit an estimate for carrying out the Collector's proposals for the construction of a lake and for roads following generally the directions laid down on the map.

If a lake is to be made, no more suitable level could be selected than that chosen by Mr. Turner. If the level were lowered, the greater part of the land between the head of the lake and the Vilputty road would be turned into a mere swamp. Taking, therefore, the foot of the forest reserve post at B as the full supply level of the lake, and allowing a margin of 6 feet, an estimate has been made for the roads and dam. The practicability of constructing the dam and it probable cost are discussed in a separate note, from which it will be seen that the cost would be out of all proportion to the benefits which the strongest advocates for the lake could expect from its construction. The objections to making a lake are—

1st.—That the site of it would occupy some 60 acres of land, much of which is capable of profitable cultivation and scarcely any of which could be obtained without the payment of heavy compensation.

2nd.—The excessive cost of the dam.

3rd.—That the formation of the lake would destroy the only supply of good water within any reasonable distance of the hills surrounding the basin of the lake.

4th.—That persons living on the hills to the north of the lake might fairly expect Government to pay the cost of leading a supply of good water along the hill side from the upper part of the Parappar.

It is strongly recommended that the idea of forming a lake be definitely abandoned. If this be done the provisions of the present estimate can be considerably improved and whatever money is available for the improvement of the settlement laid out to more advantage.

For convenience of reference the roads surveyed are indicated by the same letters as the approximate lines shown on the map originally submitted to Government.

The surface width allowed is everywhere 15 feet (including side drains), this being considered the smallest space in which carriages can safely pass one another.

The objections to making a road from B to D and bridging the river at the latter place are stronger than anticipated by the Chief Engineer for Irrigation (*vide* his note published with G.O., No. 578 W., dated 25th February 1887), as between B and D there would be heavy cutting and on the other side of the river the road for a considerable distance would have to be carried over steep sheet rock to blast, which would involve considerable expense. The line has therefore been abandoned in favor of the alternative line from B to X suggested by Colonel Pennycuick.

The position of the proposed bridge at B has been shifted about 200 feet further down stream, as a bridge at B would have to be much longer and more expensive. The site would be also inconvenient in other respects.

The change of site has the advantage also of saving a good deal of rock-cutting for the roads.

In the expectation that Government will decide against making the lake, a bridge over the Parappar on the Vilputty road has been allowed for in the estimate. It is intended, if suitable stone is obtained from the road cutting, to make this bridge and that at point M on Law's ghât of dry stone and of a similar description to the bridge over the same river about a mile below Shembaganoor.

If there is to be no lake, there seems no object in making the southern road B A, as from B to the Vilputty road the proposed line B E and the Vilputty road which can be widened at a slight cost will afford all the accommodation required in the neighbourhood; and from the Vilputty road to A, the hill sides are too steep to build on; and unless the Parappar is bridged at A, the road would be of no use to the general public. Even with a bridge it would be of but little use.

The northern road B A has been taken across the end of, and not round, plot No. 54. This saves 1,800 feet in length.

The quantities are given separately for the different roads so that any not approved may be readily struck out of the estimate.

It is recommended that a large discretion may be allowed in laying out the roads, so that building sites may be injured as little as possible. It will be seen from the map that some of the roads go almost through the middle of properties. By slight alterations of level this may to some extent be avoided and the roads taken higher or lower as is found most convenient to the owners of the properties.

Compensation has been allowed for the full width of the roads where they pass through private property at the highest prevailing rates, but there is reason to expect that many of the owners will give the whole or part of the land required gratis.

26th March 1883.

(Signed) W. HUGHES,
Executive Engineer, Madura Division.

No. 178 D.

MEMORANDUM.

Public Works Department G.O. No. 578 W., dated 25th February 1887.
Revenue Board's Proceedings, No. 664, dated 31st March 1887.

Forwarded to the Revenue Department with reference to the correspondence marginally noted and with an expression of opinion in the Public Works Department that the proposal to construct a lake should be abandoned.

2. The general scheme of the roads is approved in the Public Works Department; but if the opinion in para. 1 is accepted, steps will be taken to have the estimates revised in consultation with the Collector, as the Executive Engineer, Madura Division, considers that the alignment of the roads can then be materially improved.

3. The estimate does not provide for land compensation.

Ootacamund,
15th May 1888.

(Signed) J. O. HASTED, Colonel, R.E.,
Secy. to Govt., P.W.D.

Order—dated 21st June 1888, No. 3605, Revenue.

The Government consider that the proposal to construct a lake should be abandoned.

2. With reference to para. 2 of the memorandum read above, the papers will be retransmitted to the Public Works Department in view to the requisite action being taken.

(True Extract.)

(Signed) J. F. PRICE,
Secretary to Government.

Order—dated 13th July 1888, No. 2122 W., Public Works.

Communicated to the Superintending Engineer, VI Circle, who will, in communication with the Collector, have the scheme of roads revised and estimated for on an improved alignment as suggested by the Executive Engineer.

Account.

Read—the following paper :—

From J. W. RUNDALL, Esq., M.I.C.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 4th September 1888, No. 1297 T.J.

I have the honor to request sanction to the following modification of allotment under Provincial, Civil Buildings, Original Works :—

From	RS.	To	RS.
Tanjore Division.		*Tanjore Division.*	
(1) Tahsildar's office at Kumbakónam, item No. 19, class A works, part I of the budget, 1888-89, out of the grant of Rs. 14,991	9,991	(4) Improving Tahsildar's office at Máyavaram, item No. 18, class A works, budget of 1888-89, in addition to grant Rs. 4,680 ...	2,093
Madura Division.		*Negapatam Division.*	
(2) Improving Tahsildar's office at Usilampatti, item No. 20, class A works, part I, budget of 1888-89, out of grant Rs. 2,700	280	(5) Alterations and improvements to St. Joseph's College buildings to fit them for use of public offices, item No. 77, class A works, budget of 1888-89, in addition to grant of Rs. 12,360	3,121
(3) Providing wire-netting to the roof ventilators of blocks and renewing the existing wooden palisades in the District Jail, item No. 39, class A works, budget of 1888-89, from grant Rs. 4,482	369	*Madura Division.*	
		(6) Preservation of Tirumal Naick's palace at Madura and adaptation for public offices, item No 78, class A works, budget of 1888-89, and G.O., No. 1968 W., of 2nd July 1888, in addition to grant of Rs. 1,449.	900
		Trichinopoly Division.	
		(7) District Jail at Trichinopoly, item No. 38, class A works, budget of 1888-89, in addition to grant Rs. 10,000	3,526
		Tanjore Division.	
		(8) Second-class Police station at Vallam, estimate Rs. 2,260, sanctioned in G.O., No. 943 W., of 28th March 1887, item No. 43, in class B works of budget of 1888-89	1,000
Total ...	10,640	Total ...	10,640

2. *Item No.* 1.—The revised estimate for the work submitted through the Collector with this office No. 1656 T.J., dated 7th December 1887, has not yet been sanctioned, nor has the site originally selected been vacated. Hence there is no prospect of the budget grant being fully utilised. The Collector has, moreover, written to the Executive Engineer about altering the proposed site, so probably further delay will arise. Should this be the case, the balance of the grant will have to be given up.

3. *Items Nos.* 2 *and* 3.—The sums surrendered have been granted in excess of the estimate for No. 2 and of balance of the estimate for No. 3.

4. *Items Nos.* 4 *and* 5.—The sums now applied for are the balances of the estimates required for the completion of the works. These were included in my statement of demands for incomplete works, but funds were ordered to be applied for later in the year (*vide* G.O., No. 1968 W., of 2nd July 1888).

5. *Item No.* 6.—For this work Rs. 3,868 were applied for in the statement of demands for incomplete works, but only Rs. 864—the balance of the estimate for the whole project—were granted, promising further allotment on receipt of the revised estimate. The only sub-works that remained incomplete at the end of March last were (1) accommodating Collector's office; (2) providing lightning conductor to dome G; and (3) record racks to the District Court. All these have since been completed and the amount now applied for is to cover the outlay already incurred in excess of the existing grant and to settle some claim remaining.

6. In the statement of demands for incomplete works, the balance of the estimate for locating Collector's office in the palace was applied for as it was not known what savings there would be. As, however, the whole work has been already completed, it is not now necessary to send in any revised estimate. The causes of savings and excesses will be explained in the completion reports.

7. *Item No.* 7.—In this case also the balance Rs. 4,839 of the estimate was applied for in the statement for incomplete works, but in G.O., No. 1968 W., of 2nd July 1888, its allotment was ordered to be applied for later in the year. Rs. 3,526 now available from the amount surrendered is applied for; the remainder will be included in the application to be sent hereafter.

8. *Item No.* 8.—The Superintendent of Police appears to be anxious to have the new station-house built soon. In a letter dated 20th February 1888, No. 56, to the address of the Executive Engineer, the above officer states that the present building is in a bad state of repair, and that he cannot throw away any money on it, if it is proposed to take the new work in hand. Rs. 1,000 are therefore applied for to enable the new station-house to be put in hand.

Order—dated 19th September 1888, No. 2940 W., Public Works.

The following reappropriations of funds are sanctioned:—

From	RS.	*To*	RS.
1. Tahsildar's office, Kumbakónam	9,991	1. Improving Tahsildar's office at Máyavaram	2,093
2. Improving Tahsildar's office at Usilampatti, Madura district	280	2. Alterations and improvements to St. Joseph's College buildings to fit them for public offices	3,121
3. Providing wire-netting to roof ventilators of blocks and renewing the existing wooden palisades in the District Jail, Madura ...	369	3. Preservation of Tirumal Naick's palace and adapting it for public offices	900
		4. District Jail at Trichinopoly ...	3,526
		5. Second-class Police station at Vallam, Tanjore district ...	1,000
Total ...	10,640	Total ...	10,640

Read—the following paper :—

From W. HUGHES, Esq., Executive Engineer, in charge of VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 27th October 1888, No. 1669 T.J.

With reference to your No. 4033 C., dated 22nd instant, ordering surrender of such portions of grants as cannot be utilized within the current official year, I have the honor to state that, as matters stand at present, I cannot surrender any portion of the grants, except the balance Rs. 3,457 of the grant for the Taluk Cutcherry at Kumbakónam, and a sum of Rs. 500 from the grant for tools and plant, under Provincial, in the Tinnevelly division, but these sums are required for other works in hand in the circle. Executive Engineers hope to utilize fully the grants now at their disposal. I have, however, pointed out to them the works which are considered to make slow progress, and asked them to give up at once any portions of grants for those works that cannot be spent.

2. I request sanction to the undermentioned transfers under Provincial for the present :—

From	RS.	*To*	
Provincial—Civil Buildings. Original Works. Tanjore division.		Provincial—Civil Buildings. Original Works. Tinnevelly division.	
(1) Tahsildar's office at Kumbakónam, item No. 19, budget of 1888-89, balance of grant	3,457	(3) Reconstructing Printing office at Kokarakulam, estimate Rs. 8,960, sanctioned in G.O., No. 666 W., dated 27th February 1888, to supplement grant of Rs. 5,000 sanctioned in G.O., No. 1968 W., dated 2nd July 1888	3,485
Tinnevelly division. (2) Tools and plant	500	(4) Repairs—Lump sum grant ...	472
Total ...	3,957	Total ...	3,957
Trichinopoly division. (5) *Repairs*—From lump sum grant of Rs. 4,000	125	Trichinopoly division. (6) *Minor Original Works*—Lump sum grant	125

3. *Item* (1).—The revised estimate has not yet been sanctioned, nor has the site been yet finally settled.

Item (2).—The full amount of Rs. 1,000 granted for the current year is not required, hence Rs. 500 are given up.

Item (3).—The work is in steady progress, the additional sum is required to complete it during the current year.

Item (4).—The original grant of Rs. 600 has been found inadequate. Repairs to the Sub-division officer's bungalow at Shermádevi and to Sub-Collector's quarters at Tuticorin are considered urgent; payment of municipal tax on public buildings is also to be met from the sum applied for.

Items (5) *and* (6).—The transfer proposed is to meet the excess outlay incurred on minor works.

Order—dated 5th November 1888, No. 3518 W., Public Works.

The following transfers of funds are sanctioned :—

(15) Lump sum grant – – – Rs 60

Negapatam Do

(16). Lump sum grant. . . . „ 45

Total reduction Rs 105

2. Item No (1). When the grant was applied for, it was intended to carry out repairs to the sub-magistrate's office at Tiruvalur by this Department, but subsequently it was found that the work can be carried out by the Revenue Department under Petty Construction and Repair; hence the surrender.

Item No (2). Not required.

Item No (3). Owing to a difficulty in getting a trustworthy contractor, the work could not be started soon enough before the rains set in; there was also some delay in executing the necessary bonds; hence it is not anticipated that more than Rs 8000 can be spent in the current year from the grant of Rs 12,000.

3229/16

Item No (3a). A saving of about Rs 4,900 is anticipated on the estimate for the District Jail. The sum now surrendered is in excess of the grant required for completing the works.

Item No (4). As all ordinary repairs of Provincial Buildings are to be carried out by the Departments occupying them, and as no demands for any special repairs have been received, the amount is available for surrender.

Item No (5). The sum, being in excess of demands, is available for surrender.

Item No (6). The amount is in excess of the sanctioned estimate.

Item No (7) Repairs to the

Tahsildar's Cutchery at Kumbakonam not having been yet decided, a portion of the grant is available for surrender.

Item No (8). The sum is in excess of demands.

Item No (9). The sum now applied for is the balance of the estimate, and is required for completing the building.

Item No (10). The estimate, originally sanctioned in G.O. No 1941 W of 5' August/86, amounted to Rs 3280; owing to the inadequacy of the rates allowed in that estimate, a revised estimate of Rs 3900 was sanctioned by the Supdg Engineer on the 11' August/88. The amount of the original estimate was granted in the current year's Budget, Item No 21; the difference between this and the revised estimate is now applied for to complete the work this year.

Item No (11). Since the surrender of the balance of the grant in my letter No 1669 T.J of 27 Oct/88,

it

it has been observed that an outlay of Rs 13 was incurred. The small sum now applied for is intended to meet this and any further outlay that may be found necessary.

3229/17

Item No (12). Required for alterations to a portion of the old District Jail at Trichinopoly to convert it into a Police hospital according to the suggestion of the District Surgeon.

Item No (12a). For the Registrar's office at Trichinopoly an estimate of Rs 4100 was sanctioned in G.O No 3000 W of 6' December 1884 and the amount was allotted in the current year's Budget. A supplemental estimate of Rs 900 was sanctioned by the Supdg Engineer on the 8' August/88 to supply several omissions in the original estimate, and moreover the old building having become further delapidated since 1884. The amount of the supplemental estimate is now applied for to complete the work.

Item No (13). Required for repairing the present Police office at Madura to fit it for Public works office. The building is in a very bad state and the repairs are much needed. Only a small portion of the estimate is for making a storeroom. The remainder is for repairing the lower story which is getting into a dangerous state.

Item No (14). The sum of Rs 172 is intended to meet the cost of labor &c employed in surveying, levelling & lockspitting certain roads at Kodai Kanal in order to submit the revised scheme called for in G.O No 2112 W of 13' July 1888.

Items Nos (15 & 16) Are in excess demands for compensation for house rent.

3. On the work of Converting Royal Artillery Barracks at Trichinopoly only Rs 845 were spent up to the end of last month against a grant of Rs 5,300- Alterations to the gun shed and Magazine, are being proceeded with, but as it is not known when all the work can be put in hand; it cannot be now ascertained what the expenditure is likely to be. If any portion of the grant cannot be spent, it will be surrendered later on in the year.

3779/18

4. The small grants under Imperial Postal and Telegraph minor works, Rs 427 & 236 respectively, in the Trichinopoly Dt are intended for alterations to the Collector's cutchery to adapt it for use of the Postal and Telegraph Departments at Trichinopoly; but these alterations cannot be put in hand until the Cutchery is vacated.

5. The grants under Imperial Postal and Telegraph, Repairs for the several Divisions, remain for the most part unutilised as no demands have

have been received from the departments. Portions of these grants that cannot be spent will also be given up later on in the year.

I have the honor to be
Sir
Your most obedient servant.

To

The Chief Engineer
P. W. D.

Sir,

ENCLOSURES.

With reference to G. O. No. 1243 W dated 27th April 88, sanctioning estimate of Rs 12,570 for constructing a Sub-Magistrate's office at Sivaganga in the Madura District, I have the honor to state that the Collector, in a letter dated 19th October 88 No. 1977 applied to me to have the sum of Rs 1800 — the cost of the land to be purchased for the building — placed at his disposal.

2. The Collector was in reply informed that the work was sanctioned for execution only when funds are available, and that no funds have been granted for it for the current year. Mr. Turner has now again

in his No 2063 dated 2d Instant, asked me to make a special application to Government for the amount in question, saying that it is necessary to pay down the cost of the land so that the necessary arrangements might be made regarding the execution of the sale deed of the land.

3. In G.O. No 2940 W dated 19th September /88 an additional grant of Rs 3526 was sanctioned for the District Jail at Trichinopoly; from a report lately received from the Exec: Engineer it is observed that a large saving, to the extent of about this additional grant, is anticipated on this work. I request therefore sanction to a transfer of Rs 1800 to the Sub. Magistrate's office at Sivagunga.

4. Further report of the actual surrender from the grant for the above Jail, and modifications of allotments for other works will be submitted shortly on receipt of information called for from Executive Engineers
