Civil Works.

READ—the following paper :—

Office note from the Examiner, Public Works Accounts, dated Madras, 23rd November 1888, No. 2648.

In G.O., No. 1869 W., dated 23rd June 1888, conveying sanction to an estimate of Rs. 16,300 for constructing the Executive Engineer's quarters at Dowlaishweram, a provision of Rs. 215 is made for "dismantling the old bungalow" and a deduction of Rs. 712 on account of the value of old materials received from the dismantlement.

2. Being in doubt as to the correctness of this procedure, I referred the question to the Accountant-General, Public Works Department, whose reply (No. 1167 G., dated 26th October 1888) I attach in original (to be returned) for your perusal. You will see that, according to the instructions of the Accountant-General, the net value of the materials received from the dismantled building (*i.e.*, value of materials less cost of dismantlement) should be credited to Revenue and not taken in reduction of the cost of the new building, the estimate for which should accordingly be increased by this amount.

3. Moreover the capital cost of the new residence for the purpose of assessing rent should be obtained by adding to the amount of the estimate thus revised (1) the value of the site, which should be ascertained and reported, (2) a percentage (not less than 20 per cent.) on account of establishment and tools and plant.

4. I would therefore suggest that the Superintending Engineer, I Circle, may be instructed to modify the abstract of estimate which is herewith returned for the purpose in accordance with these instructions and to report the value of the site of the building.

ENCLOSURE.

From Major A. G. BEGBIE, R.E., Officiating Accountant-General, Public Works Department (General), to the Examiner, Public Works Accounts, Madras, dated Simla, 26th October 1888, No. 1167 G.

I have the honor to acknowledge the receipt of your letter No. 314 A of the 2nd instant, and in reply to state that, in accordance with Public Works Department Resolution No. 479 B of the 7th ultimo, the cost of the new residence for the Executive Engineer, Dowlaishweram, should be taken inclusive of the value of the site. It should not, however, include the original cost of the dismantled building, nor should credits for the value of materials received therefrom be allowed; the net value of these materials should, as suggested by you, be credited to Revenue.

ORDER—dated 1st December 1888, No. 3794 W., Public Works.

The estimate of Rs. 16,300 sanctioned in G.O., No. 1869 W., dated 23rd June 1888, will be increased to Rs. 17,012 by the omission of the deduction * on account of value of old materials.

* Rs. 712.

2. The rent of the building* will be assessed in accordance with G.O., No. 2981 W., dated 22nd September 1888, under which it will be limited to 10 per cent. of the Executive Engineer's salary, but the Superintending Engineer will report the value of the site for record in the Examiner's office.

3. The instructions in the Accountant-General's letter will be embodied in the Public Works Code.

(True Extract.)
