J. F. PRICE,
Chief Secretary.

To the Superintendent, Government Press.
„ the Accountant-General.
„ the Departments of the Secretariat.
„ all Heads of Departments.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following papers :—

G.O., dated 20th October 1887, No. 1118, Financial.

From R. HILL, Esq., Superintendent, Government Press, to the Chief Secretary to Government, dated Fort St. George, 27th June 1887.

I have the honor to submit the annual report on the working of the Government Press, including the Branch at the Penitentiary, for the year 1886-87.

2. *Superintendence.*—On the 25th March 1886 Mr. E. Keys obtained six months' leave on private affairs, and at the expiration of his leave he retired from the service. On the 31st January 1887 Mr. W. P. Brown took up his appointment as Deputy Superintendent.

3. *Value of Work and Expenditure.*—In 1876-77 a scale of charges was framed for the first time for valuing the work done for each department, and it remained in force up to the end of 1885-86. In 1876-77 the work was valued at Rupees 2,61,739-15-3, and the cost was Rupees 2,17,284-0-8, showing a profit of Rupees 44,455-14-7. The increase of work year by year brought the valuation in 1885-86 up to Rupees 3,27,925-1-9, and the cost to Rupees 2,44,003-7-0, yielding a profit of Rs. 83,921-10-9.

When closing the 1885-86 accounts, it was apparent that, with such a large profit, the scale could be reduced to bring the valuation nearer the actual cost, and accordingly for this year's report the composition rate has been reduced by 25 per cent. for book work; the press work scale reduced by 25 per cent. for impressions between 25,000 and 50,000, and 50 per cent. for impressions over 50,000; the binding scale reduced by 42 per cent.; the type-casting scale has been reduced by nearly 33 per cent.; and the roller-casting scale by 62½ per cent. The further revision of the job work, binding and type-casting scales will be completed this year. With such changes, no comparison can be made with the figures of last year, but they are shown for information.

4. Under the revised scale, the total value of the work done during the year amounted to Rs. 2,69,056-10-1, with an actual expenditure of Rs. 1,98,787-4-3, of which the following are the details :—

	1886-87.			1885-86.		
	RS.	A.	P.	RS.	A.	P.
Salaries	1,56,308	1	5	1,55,971	10	4
Contingent charges	2,825	6	4	2,817	13	9
Service postage	8,135	6	0	8,537	8	6
Purchase of stores	4,212	10	11	3,272	14	8
Do. plant	7,227	2	4	1,967	9	4
Cost of materials received from Secretary of State	19,515	12	10	2,688	5	5
Cost of repairs, &c., executed at the Public Works Workshops and Penitentiary	562	12	5	144	9	0
Total ..	1,98,787	4	3	1,75,400	7	0

The increase against materials purchased through the Secretary of State is caused by a portion of their cost being received too late to be included in the 1885-86 accounts.

5. There was a decrease in expenditure of Rs. 2,866-5-5, and a greatly reduced profit caused by the revised scale of valuation.

	1886-87.			1885-86.		
	RS.	A.	P.	RS.	A.	P.
Total value of work	2,69,056	10	1	3,27,925	1	9
EXPENDITURE—						
Salaries	1,53,124	6	2	1,53,967	9	11
Overtime	3,183	11	3	2,004	0	5
Service postage	8,135	6	0	8,537	8	6
Value of paper issued from Press stores	23,892	10	5	25,443	11	0
Depreciation of Stock	23,824	4	4	26,119	1	9
Other items (as in Statement A) ..	28,976	11	5	27,931	7	5
Total	2,41,137	1	7	2,44,003	7	0
Profit to Government	27,919	8	6	83,921	10	9

6. *Printing*.—The expenditure in the composing and press and machine branches was slightly in excess of the preceding year:—

	1886-87.			1885-86.		
	RS.	A.	P.	RS.	A.	P.
Value of work printed	2,00,304	3	6	2,36,679	1	0
EXPENDITURE—						
Establishment	1,43,360	0	4	1,43,293	13	5
Contingencies	2,408	2	8	2,333	4	11
Cost of Printing Ink	1,253	11	8	1,161	2	4
Depreciation of Stock, &c.	32,995	10	4	30,079	1	9
Total	1,80,017	9	0	1,76,867	6	5

7. The value of the printing work is classified under the following main heads:—

	RS.	A.	P.
Proceedings of Government, Board of Revenue, and Director of Public Instruction	74,638	2	1
Annual Reports	5,738	3	3
Book Work	26,367	14	1
Job Work	63,019	4	0
Confidential Work	9,313	3	0
Gazette and Supplements	16,776	12	3
Vernacular Acts and Bills	1,798	10	10
District Gazette Supplements	2,652	2	0
Total	2,00,304	3	6

8. There was an increase of 4,267 pages of original matter set up, and a decrease of 258 pages of remade-up matter; the number of impressions was less by 581,280:—

	Original matter.	Remade-up matter.	Total.
Pages equal to foolscap in 1886-87 ..	154,119	15,663	169,782
Do. do. in 1885-86 ..	149,852	15,921	165,773
Increase			4,009
Number of impressions struck off in 1886-87 ..			49,288,357
Do. do. do. in 1885-86 ..			49,869,637
Decrease			581,280

The cost per page of the matter converted as usual into pica foolscap folio, including the striking off, was Rs. 1-2-3, being two pies less per page than in the preceding year.

9. As the valuation statement cannot be used for comparison of increases in printing work done for the various departments, it will be seen from the following comparative table that there was an increase of printing for the Board of Revenue, an increase of 1,066 pages set up in the vernacular department, and an increase in the confidential department; the *Fort St. George Gazette* increases in pages and impressions every year:—

Press Departments.	WORK DONE.				COST.			
	1886-87.	1885-86.	Increase.	Decrease.	1886-87.	1885-86.	Increase.	Decrease.

10. The changes in the description of work to be printed necessitates from time to time a partial revision of the piece-work scale for the compositors; the scale was under revision at the close of the year, and has since been completed. The changes made tended to an economy in expenditure, and a revised ready reckoner has been printed for the use of the compositors.

11. *Binding*.—This department has been kept very busily employed throughout the year. The increased space obtained by the removal of the account department, and the addition of shelves in the large room, have been of considerable advantage. The expenditure was slightly in excess of last year.

	1886-87.			1885-86.		
	RS.	A.	P.	RS.	A.	P.
Value of Binding work	38,788	12	6	57,970	6	6

Depreciation of Stock	900	0	0	900	0	0
Total	24,681	1	1	24,051	4	8

12. *Type-casting and Stereotyping.*—The outturn was 3,298 lb. in excess of that of 1885-86, and the expenditure was in excess in consequence. The demands made upon this department during the year were heavy, and will be still greater in the future; more accommodation is needed, and a proposal will be put before Government shortly for its removal and extension.

13. *PENITENTIARY BRANCH.*—The usual statement is submitted showing the working of this branch as a separate establishment, although the items are included in the preceding paragraphs. There was a decrease in number of pages set up and of impressions struck off, and a decrease in expenditure. This branch gave considerable assistance in striking off the extra copies required for the District Gazette Supplements and Vernacular Acts and Bills. The daily average attendance of prisoners was 129 adults and 17 juveniles.

16. In conclusion, I have to bring to the notice of Government that bills for printing at private presses for Military departments were not checked by the Superintendent as bills are checked for Civil departments, and the attention of the Controller of Military Accounts was drawn to it; the bills are now submitted, and a considerable saving has already been effected.

STATEMENT A.—Value of Work done for Departments during the official year 1886-87, with Total Expenditure (inclusive of value of paper issued from press stores, depreciation of stock, &c.).

ORDER—dated 9th December 1887, No. 1636, Public.

The Superintendent, Government Press, submits the report of the working of the Secretariat press for 1886-87 in the usual form, but he has completely altered the scales of valuation which have been in use from 1876-77. On this subject the

Finance Committee* remarked:—"The annual report shows, as in other similar cases, a large 'profit' in working, but that merely indicates that the work is valued at

very much more than it costs." The reduced scales of valuation now adopted, though they compare somewhat favorably with the rates charged by some of the leading private presses, may still be open to criticism if viewed from a purely economical stand-point. The profit shown for the past year—Rs. 27,920—more than 11½ per cent. on the expenditure—does not take into account liabilities for pension, absentee allowances in England, interest on capital outlay, taxes or licenses, cash receipts by the sale of Gazettes, Acts, and other press publications, and possibly other items which would be included in the profit and loss statement of a private firm. The Superintendent will now report what additions should be made on both sides of the accounts, for the items just mentioned. It seems also desirable that he should ascertain the practice in other Presidencies, in view to a more satisfactory and reliable basis of valuation being arrived at for incorporation in future reports. Foot-notes should be added showing how depreciation of stock, house-rent, value of materials used, and the valuation of work in the different departments of the press are calculated.

2. The revaluation now adopted renders comparison with the financial results of previous years impracticable. The quantity of work turned out for each department during the last seven years is shown in the statement printed overleaf and gives some idea as to the growth of the expenditure in printing which has recently been called in question by the Government of India.

3. The classification of work done adopted in the report relates more to the sub-divisions of the press in which it is executed than to the departments and services benefited thereby. It would be more satisfactory if the information given in statement A appended to the report showed the quantity of work done, as well as the money-value which must always be more or less arbitrary. The arrangement in the first column of statement A headed "Offices, &c." would be clearer if the departments were classified according to the finance accounts, e.g., Land Revenue, Salt, Excise, Customs, &c., the Military and Public Works Departments being shown last, and separate totals being given for each sub-division. All special work, such as the Manual of Administration, Census Reports, &c., should be shown separately, so that its cost may be readily ascertainable when required. The above remarks apply also to statements C and D, where the alphabetical arrangement is inconvenient for reference and the individual offices for which work is done are given in unnecessary detail. In fact the information now spread over statements A, B, C and D should be concentrated in one well-arranged statement, showing at a glance the work done for each department, and its cost under all heads. The minor details relating to the various sizes of types, the several processes in binding, &c., need not then be separately shown in the annual report.

4. (1) The foregoing statement shows considerable fluctuations in the number of pages printed—due, no doubt, to the special work undertaken in connection with the Census, Manual of Administration, and other heavy publications. The net result is, however, an increase in 1886-87 of 10,000 pages and nearly 5 million impressions, as compared with the work done in 1880-81.

(2) The number of pages was considerably larger in the four years ending with 1884-85, but the number of impressions has reached its highest point during the last two years, notwithstanding a reduction in 1886-87, as compared with 1880-81, of nearly 7½ millions in the quantity of work done for the census, and of over six millions in that done for Collectors and Judges, as compared with 1880-81.

(3) The increase in the number of impressions under Stamps and Stationery is quite exceptional, and the cause should have been explained.

(4) In the departments of the Secretariat, there has been a steady and most satisfactory decrease in the number of pages printed.

(5) The Board of Revenue shows an increase as compared with 1880-81 and 1885-86, but a considerable decrease in comparison with the four intervening years—the result, no doubt, of the orders communicated in G.Os., dated 3rd February 1885, No. 133, Revenue, and 15th April 1885, No. 900, Public. But since its reorganization at the commencement of the current year there has been a very large increase in its printing—a matter on which special report has lately been called for.

(6) The Salt and Abkari Department shows a large and continued increase in printing work, for which some explanation in addition to the development of the department seems required.

(7) The figures opposite the Commissary-General's Office are also very high as compared with earlier years, possibly in consequence of extra work in connection with Burma.

5. (1) Printing of original matter has advanced considerably since 1880-81, but it is satisfactory to note that the quantity of remade-up matter has declined rapidly and is less than half of what it was six years previously.

(2) The number of marginal lines has also been reduced greatly during the last five years, though there is an increase as compared with 1885-86.

(3) The quantity of work turned out by the type-casting and stereotyping departments shows a considerable increase as compared with the previous year.

(4) The cost per page of printed matter was a little less than in 1885-86 (Rs. 1-2-3 against Rs. 1-2-5), but higher than in the three previous years.

(5) The value of binding work has risen from Rs. 24,900 in 1880-81 to Rs. 66,878 in 1886-87 according to the old scale of valuation, though the reduced rates now adopted reduce it to Rs. 38,789.

6. *Financial.*—It is observed that the administration reports of the Government Press have never furnished any information regarding the actual amounts earned by the press and credited to Government, viz., sales of Gazettes and other publications, recoveries from private bodies or persons of the cost of work executed for them, and other miscellaneous press receipts. A paragraph should be added to future reports showing the actual cash transactions of the press (including the Penitentiary branch) as exhibited in the financial accounts of Government. It is further observed that the statement of expenditure as given in paragraph 4 of the administration report does not tally with the figures furnished by the Accountant-General in his yearly financial statement. Explanations should be given of such discrepancies, as well as of all large variations in receipts and charges, from year to year, as is now done in the reports of district presses.

7. The following is a comparative statement of the actual expenditure in the Secretariat press during the last seven years :—

Note.—In the years prior to 1880-81, the charges were abnormally swelled by special work in connection with the famine.

Expenditure.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.

Grand Total as in Acct.-Genl.'s books.	1,57,067	1,63,370	2,20,221	2,18,660	2,00,281	1,80,374	2,04,513
Receipts* as in do. do.	17,524	19,898	24,439	25,803	29,363	51,170	77,910

* Total Press receipts including contribution from Local Funds, but excluding District Press transactions.

8. The increase under *Salaries* in the three years commencing with 1883-84 is due to the appointment † of an Assistant Superintendent in 1882-83, and the decrease in 1886-87 to the absence of the Superintendent on six months' leave (from 24th March 1886) prior to his retirement, and the reduction of the pay of the Deputy Superintendent from Rs. 500 to 333 $\frac{1}{3}$ rising in three years to 416 $\frac{2}{3}$. The cost of printing and binding is now Rs. 33,000 in excess of what it was in 1880-81, while the total expenditure is Rs. 43,000 more. Much of this increase is, however, counterbalanced by enhanced receipts, mainly, owing to the recovery, under G.O., No. 1453, Public, dated 30th September 1879, and subsequent orders, of the cost of printing work done for Municipalities, Local Funds, &c. Special work undertaken in connection with the Census, the Education Commission, the Manual of Administration, the reorganization of the Forest, Salt and Abkari Departments, and so forth, accounts also for a good portion of the increase, and since 1882-83, even excluding the recoveries from local bodies, the net cost of the Press has decreased.

9. The accounts of the Penitentiary branch should not be lumped together with those of the Secretariat press proper in the body of the report, but should be kept distinct.

10. With reference to paragraph 16 of the Superintendent's report, it is observed that the quantity of printing work executed at private presses for Government departments is not reported on in any of the administration reports reviewed by Government. As the Superintendent of the Secretariat press is required to countersign all the bills presented by private presses, such information could be obtained by him without difficulty and should be furnished in his future reports.

1880-81 ..	RS. 979

1884-85 ..	2,247
1885-86 ..	2,004
1886-87 ..	3,184

(True Extract.)

11. Finally, it is remarked that overtime fees have been unusually large in 1886-87. The increase of over 50 per cent., as compared with the previous year, should have been explained.

H. E. STOKES,
Chief Secretary.

Government Press.

Reviewing the annual report on the working of
the — for the year 1886-87.

With order

22ND NOVEMBER 1888, No. 868, FINANCIAL.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers:—

From the Superintendent, Government Press, dated 13th September 1888.

From the Accountant-General, dated 20th October 1888.

ORDER—dated 22nd November 1888, No. 868, Financial.

There are differences in the methods adopted by the Superintendent, Government Press, and the Accountant-General in calculating Press receipts. The actuals of subscriptions for Indian Law Reports in 1887-88 amounted to Rs. 10,753 according to the former: to Rs. 10,236 according to the latter; the other receipts of the Press are entered by the Superintendent at Rs. 18,830, against Rs. 17,857 given by the Accountant-General, who explains that these figures are “exclusive of the receipts in the Mufassal Treasuries.” Again, in the annual report of the working of the Press for that year, the total receipts are shown as Rs. 41,043. It is of importance to know the real profit and loss of the working of the Press as a separate department, and the Accountant-General will be requested to put himself into communication with the Superintendent with a view to classifying the receipts in some uniform way by which the financial results may be more correctly exhibited. Recoveries in Districts should be credited to the Press under the proper head, and the receipts from District Presses kept apart.

2. The estimate of receipts for 1889-90, taken at Rs. 15,210 by the Superintendent, will be raised to Rs. 35,000 to include recoveries from Municipal and Local Funds of the cost of printing work executed for them, as well as receipts on account of subscriptions for Law Reports now shown under *Stationery and Printing*.

3. The estimate of charges allows for an increase of Rs. 11,120 under piece-hand establishments, over the grant for the current year. The Government, however, consider that any change should be in the direction of economy. Almost daily instances of extravagance and needless printing come before them. Especially in the offices of the Revenue Board and Director of Public Instruction large savings are possible, and His Excellency the Governor in Council must require the head of every office to give personal attention to this matter. The grant for the current year was fixed at Rs. 1,90,000; the budget estimate amounts to Rs. 2,01,732. Government are not prepared to assign more than Rs. 1,85,000 for next year, to be distributed as shown below:—

	Grant, 1888-89.	Budget for 1889-90.	Grant, 1889-90.
	RS.	RS.	RS.
Salaries	16,583	16,583	16,583
Establishments	1,40,804	1,50,924	1,35,937
Allowances	480	480	480
Supplies	21,145	21,145	21,000
Contingencies (including telephone charges)	10,988	12,600	11,000
Total	1,90,000	2,01,732	1,85,000

The estimates and grants for 1889-90 will now stand as follows:—

Receipts.

7TH SEPTEMBER 1888, No. 531, EDUCATIONAL.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper:—

From E. TURNER, Esq., Collector of Madura, to the Chief Secretary to Govern-
ment, dated Madura, 28th August 1888, No. 46.

I have the honor to report that the Tamkam bungalow, in which I reside, is very
leaky in certain places, while parts of the building are shaky and threaten to fall
down. It is absolutely necessary to remedy these and other defects at once, to render
the building habitable, especially as we are now on the eve of the rainy season.

2. I therefore request that Government will be pleased to sanction the accom-
panying estimate for the repairs, amounting to Rs. 550, which has been prepared by
the Department of Public Works.

3. The Government are aware that the rent of the bungalow (Rs. 100) minus 10
per cent. and Rs. 6 set apart for sundry repairs and the pay of the gardener, respec-
tively, is remitted every month to the Registrar of the Madras University and the
accumulated balance to the credit of the Tamkam fund is in his hands.

4. The allowance of 10 per cent. for the usual repairs is, as has been actually
found by experience, insufficient even to meet the cost of sundry repairs, and I hope
that the Government will therefore be pleased to sanction the estimate now submitted.

5. To save any danger to the building, I have requested the Executive Engineer
to carry out, in anticipation of sanction, such of the repairs as cannot be delayed,
pending receipt of Government sanction.

ORDER—dated 7th September 1888, No. 531, Educational.

The estimate, amounting to Rs. 550, is approved and will be transferred to the
Public Works Department.

2. The cost will be debited against the Endowment Fund in the hands of the
Registrar of the University; but as the expenditure, now ordered, will, with establish-
ment, tools and plant, amount to nearly a year's rent, the 10 per cent. deduction per
mensem will cease for a year after these repairs are carried out.

(True Extract.)

23RD NOVEMBER 1888, No. 690, EDUCATIONAL.

EDUCATIONAL DEPARTMENT.

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Collector of Madura, dated Kumbakonam, 8th November 1888, No. 1018 M.D.

2. The original estimate approved in G.O., No. 531, of 7th September 1888, Educational Department, amounted to Rs. 550; and the excess over this is Rs. 260 as noted below :—

3. *Item 1.*—When the work was commenced it was found that the substance under the old plaster of the floor was loose rubbish; hence it has been proposed to put a layer of concrete before applying the plaster.

4. I request that you will be good enough to take steps for placing at the disposal of this department the amount of excess over the original estimate.

Submitted to the Chief Secretary to Government, Madras, for favor of early sanction of the revised estimate, in continuation of this office letter No. 46, of the 28th August last.

MADURA,
13th November 1888.

Approving and transferring to the Public Works Department, with remarks, estimate for Rs. 550 for repairs to the Tamkam bungalow, Madura.

From W. HUGHES, Esq., Superintending Engineer, VI Circle, to the Collector
of Madura, dated Kumbakonam, 8th November 1888, No. 1018 M.D.

I have the honor to forward, for your countersignature and return, a revised
estimate of Rs. 810 for repairing the Tamkam bungalow at Madura.

2. The original estimate approved in G.O., No. 531, of 7th September 1888,
Educational Department, amounted to Rs. 550 ; and the excess over this is Rs. 260
as noted below :—

	RS.
1. For reflooring some of the rooms	60
2. Petty repairs	40
3. Public Works Supervision and Tools and Plant	160
Total	260

3. Item 1.—When the work was commenced it was found that the substance
under the old plaster of the floor was loose rubbish ; hence it has been proposed to put
a layer of concrete before applying the plaster.

Items 2 and 3.—Omissions in the original estimate.

4. I request that you will be good enough to take steps for placing at the
disposal of this department the amount of excess over the original estimate.

No 62.

Submitted to the Chief Secretary to Government, Madras, for favor of early
sanction of the revised estimate, in continuation of this office letter No. 46, of the
28th August last.

2. The original estimate for Rs. 550 was approved of by Government in G.O.,
No. 531, dated 7th September last, and the necessity for a revised estimate is explained
in the Engineer's letter.
