

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers :—

From the Superintendent, Government Press, dated 13th September 1888.

From the Accountant-General, dated 20th October 1888.

ORDER—dated 22nd November 1888, No. 868, Financial.

There are differences in the methods adopted by the Superintendent, Government Press, and the Accountant-General in calculating Press receipts. The actuals of subscriptions for Indian Law Reports in 1887-88 amounted to Rs. 10,753 according to the former: to Rs. 10,236 according to the latter; the other receipts of the Press are entered by the Superintendent at Rs. 18,830, against Rs. 17,857 given by the Accountant-General, who explains that these figures are “exclusive of the receipts in the Mufassal Treasuries.” Again, in the annual report of the working of the Press for that year, the total receipts are shown as Rs. 41,043. It is of importance to know the real profit and loss of the working of the Press as a separate department, and the Accountant-General will be requested to put himself into communication with the Superintendent with a view to classifying the receipts in some uniform way by which the financial results may be more correctly exhibited. Recoveries in Districts should be credited to the Press under the proper head, and the receipts from District Presses kept apart.

2. The estimate of receipts for 1889-90, taken at Rs. 15,210 by the Superintendent, will be raised to Rs. 35,000 to include recoveries from Municipal and Local Funds of the cost of printing work executed for them, as well as receipts on account of subscriptions for Law Reports now shown under *Stationery and Printing*.

3. The estimate of charges allows for an increase of Rs. 11,120 under piece-hand establishments over the grant for the current year. The Government, however, consider that any change should be in the direction of economy. Almost daily instances of extravagance and needless printing come before them. Especially in the offices of the Revenue Board and Director of Public Instruction large savings are possible, and His Excellency the Governor in Council must require the head of every office to give personal attention to this matter. The grant for the current year was fixed at Rs. 1,90,000; the budget estimate amounts to Rs. 2,01,732. Government are not prepared to assign more than Rs. 1,85,000 for next year, to be distributed as shown below :—

	Grant, 1888-89. RS.	Budget for 1889-90. RS.	Grant, 1889-90. RS.
Salaries	16,583	16,583	16,583
