2. In accordance with the practice obtaining in this office the date of receipt given in the progress report was the date of opening and registering the accounts, viz Monday the 24th. September 1888. The accounts were due on the 23rd. which was a Sunday and it is possible they might have been received on that day. The cover having been destroyed, the date cannot be verified by the post-mark.

3. Instructions have been given to the effect that in future in the case of accounts received after one or more close days, the actual date shall be ascertained from the post-mark, when possible,

From,
The Suptg. Engineer,

From D. C. GORDON, Esq., Examiner, Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 13th March 1885, No. 134 W.

The reports called for in G.O., No. 18 W., dated 6th January 1885, having been received from all Superintending Engineers, I have the honor to submit them in original with a statement giving in tabular form the number of works accounted for under each agency in the accounts of the several divisions for the month of December 1884, and the dates proposed by Superintending Engineers for despatch of accounts from Executive Engineers' offices, as well as the probable date of their arrival in Examiner's office, and to offer the following remarks thereon:—

2. *I Circle*.—Of the first three divisions, the amount of accounting in each of which has been pretty nearly the same, the average dates on which accounts have been received in this office from April to December compared with the proposed dates are as follows:—

						Actual average.	Proposed.
1. Ganjam	...	...	...	...	...	23rd	24th
2. Rushikuliya	...	...	...	...	...	20th	24th
3. Vizagapatam	...	...	...	...	...	19th	23rd

So that there will be a distinct loss of time in each case. I do not think it advisable, therefore, to concede any extension in these cases. In the next three divisions, the work is heavy and the distance is great; the time asked for may be allowed for the present. But I think when the normal cost system has been introduced, the increased establishment required for the Godávári eastern division sanctioned, the relief to Executive Engineers proposed in G.O., No. 3151 W., dated 23rd December 1884, afforded, and the plan of closing sub-divisional accounts when the sub-treasury closes, viz., the 24th or 26th, adopted, earlier dates may fairly be fixed for these divisions.

3. *II Circle*.—The time asked for may be allowed on the same understanding as above, except in the case of the Buckingham canal. The work of this division is chiefly done by contract. It appears to me that the accounts of this division may fairly be required to reach this office by the 18th of the month (see report by the Superintending Engineer, V Circle).

4. *III Circle*.—Kurnool and Cuddapah are light divisions. The accounts should reach this office on the 16th. The other dates may stand.

5. *IV Circle*.—Barur and B. Project divisional accounts should reach this office by the 16th. The other dates may stand for the present, but improvement will be expected hereafter as suggested in paragraph 2.

6. *V Circle*.—The dates proposed by the Superintending Engineer may be allowed.

7. *VI Circle, Consulting Architect and Madras Harbour*.—The proposed dates may be allowed, but Tanjore should improve hereafter.

8. It is of course to be distinctly understood that by the dates named *complete* accounts must be received, all vouchers accompanying.

ORDER—dated 23rd March 1885, No. 721 W., Public Works.

In their letter recorded in proceedings of Government, No. 18 W., dated 6th January 1885, the Government of India declined to sanction any general relaxation in the prescribed date for the submission of divisional accounts, but suggested that the dates should be settled from time to time by Superintending Engineers and the Examiner, so as to suit the circumstances of each division.

2. With their letters above recorded, Superintending Engineers have submitted their views on this point, and the Examiner, Public Works Accounts, has tabulated their recommendations, and submitted them with his own opinion and suggestions.

3. On full consideration of the subject, the Government accept the recommendations of Superintending Engineers as modified by the Examiner's suggestions. In the last column of the statement attached to these proceedings is given the date by which the complete accounts of each division should reach the Examiner's office, and the Government trust that, with the relaxation allowed in the case of the more heavily worked divisions, Executive officers will strive to render their accounts with punctuality.

4. It must be understood that the dates now fixed are tentative, and will be subject to consideration after the lapse of a year, when the subject will again be reported on generally by the Examiner, Public Works Accounts.
