GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

Read—the following letter from Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 20th January 1888, No. 289 A.:—

In submitting, for the sanction of Government and for transfer to the Public Works Department for disposal, the accompanying plan and estimate, with report, amounting to Rs. 1,489, for constructing three platforms for stacking grass for the horses of the S/1st Royal Artillery at Bellary, I am desired to state that, as work on them has already been carried out with the approval of the local authorities, in anticipation of sanction, the Commander-in-Chief finds it necessary to submit the same for the sanction of Government; but otherwise the execution of such work would have been disapproved of, considering the fact that the 2nd Battery of Royal Artillery is only temporarily located at Bellary and will not be there after the end of the current year.

No. 503, Military.

Approved and transferred to the Public Works Department.

(By Order.)

Fort St. George,
24th January 1888.

(Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
Secretary to Government.

Order—dated 6th February 1888, No. 417 W., Public Works.

The estimate, amounting to Rs. 1,489, for constructing three platforms for stacking grass for the horses of the S/1st Royal Artillery at Bellary, is sanctioned.

2. This sanction has been registered as Imperial, Ordinary, No. 62 W. of 1887-88, and classified as Military, Original Works.

FEBRUARY.

S/1st Royal Artillery at Bellary

Estimate for constructing three platforms for stacking grass for the horses of the —, sanctioned.

Copy of letter No 1919 d/ 31st October 188
from A M Jarrett Esqre Executive Engineer
Bellary Division to the Superintending
Engineer 3rd Circle:

I have the honor to reply as follow
to your No 1425 of the 15th instant

On receiving in January and Februar
last requisitions from the Officer Command
S/1 R.A. for two platforms for stacking gra
an Estimate was prepared for platforms
similar to those previously erected in the
Cantonment

On Completion of these works the Offic
Commanding objected to them saying they were
practically useless, unless the spaces betwee
the pillars were covered in with slabs. urgen
letters were also received saying that the
Contractor had brought his grass to site
and had to have it stacked by a certain time,

A requisition also came for a third
platform. an Estimate was made for one
in which the grass rested on slabs and this
was sanctioned by the Superintg Engineer
after the Approval by the Dy Asstt adjutan

l. In the meantime I had ordered the
onment Overseer to alter the two platforms
built and send in a revised Estimate. In
to utilize all the slabs which had been
cted, I had to build the platforms as they
w Constructed, otherwise they would have
similar to the 3rd platform and would
st somewhat less.

The revised Estimate for the first two
rms was submitted to the Quarter Master
al in May and was approved by him.

The work was put in hand in anticipation
tion as the Contractor had brought his
to site where it was all lying about and
reat risk of being set fire to.

I consider the old style of platforms
onable and have just heard that in the
et Storage Yard where the old platforms
use, 40000 lbs of grass have been
d by damp.

The work has been Completed and
funds should I think be applied for
present grant is insufficient seeing that
ond Battery has been sent to the Station

As regards the wall round the
Yard, I have the honor to state

[illegible] separate
OM

that it was originally built of mud. Before the wall was thoroughly dry there came heavy rain which injured it and the Contractor was ordered to make good the damage at once.

On the 30th June there was a rain fall of between 4 and 5 inches in less than 5 hours and this simply levelled the wall with the ground.

Quite abnormal
OM
9M

It would have been useless building another mud wall when more rain was expected and orders were given to the Overseer to rebuild the wall with stone in Chunam. This was after talking over the matter with the Superintending Engineer who gave his formal approval in C No 6304/5th July.

SIR,

With reference to your letter No. 1292 dated 26th August 1887, I have the honor to forward the Original Estimate of Rs 138 for constructing Platform therein called for.

Enclosures.
1 Original Estimate of Rs 138
1 Revised Estimate of Rs 1489 & report
1 Plan of Platform
1 Copy of letter No. 1919 from the Exe. Engineer

2. As work has been completed in accordance with the revised Estimate, herewith retransmitted, I request the Estimate may be forwarded for sanction of Government

3 The third platform for which a sum of Rs 840 is entered in the Estimate was intended to have been built from funds under Repairs, but as the Examiner of P.W Accounts requires the work to be classed as "Minor New work", the amount is added to the present Estimate

4. The accompanying Copy of letter No 1919 d/31 October 1887, explains the circumstances

under which the work was carried out on emergency.

I have the honor to be

NOTE OF REMARKS.

The Estimate under review amounting to Rs 1489 provides for constructing three platforms for stacking grass for the horses of the 5/1 Royal Artillery at Bellary.

The work had been carried out with the approval of the local authorities in anticipation of sanction.

The rates have been compared with the schedule of rates for the Kurnool Dn and

are found to be fair.
The Supdg: Engineer will be asked to furnish a copy of the Schedule of rates in the Bellary Dn. to be when submitting the Schedule of rates for the [illegible] year. –

The plans and Ests. have been examined by the Qr Mr General and approved by Govt. in the Mily: Deptt:

2/2/88.
