To
The Superintending Engineer,
Fourth Circle,
Coimbatore.

Sir, I have the honor to forward
herewith an Estimate amounting to Rs 1085
for reconstructing the Compound wall of the
Lock Hospital at Wellington for early
sanction and provision of funds.

2. The estimate has been framed
at the request of the Dy. Asst. S. M. General
who has countersigned it in token of his
approval.

3. The existing Compound wall,
which is a mud wall, has fallen in
several places during the recent heavy rain.
It is therefore proposed to dismantle
and rebuild the same with brick in clay
& brick in Mortar coping, with broken glass
bottles

6124
bottles, instead of constantly repairing the present wall, which has only very recently been repaired at a cost of nearly Rs. 90.

The mud walling can never be a permanent or satisfactory work and the present estimate provides for something substantial.

NOTE OF REMARKS.

The estimate under review amounts to Rs. 1085 and provides for reconstructing the compound wall of the Lock Hospital at Wellington.

The present compound wall is of mud and is found to be unsatisfactory. It is therefore proposed to reconstruct the wall with brick and mud and a coping of brick in Chancery.

The rates are fair. The estimate has been counterchecked.
