13TH SEPTEMBER 1888, No. 656, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following letter from M. A. LAVSON, Esq., Government Botanist and
Director of Government Cinchona Plantations, Nilgiris, to the Secretary to
Government, Revenue Department through the Accountant-General), dated
Ootacamund, 29th August 1888, No. 54 :—

Mr. Gammie, Resident Manager of the Government Cinchona Plantations, Dar-
jeeling, has written to say that he finds a scalper for sifting the finer powder from the
coarser absolutely indispensable for manufacturing quinine, and he recommends one
made by J. Harrison Carter, No. 82, Mark Lane, London.

2. The scalper most suited for this department would be one containing a reel
which is 6 feet long by 2 feet 8 inches in diameter, covered with best Swiss silk gauze
No. 9, i.e., with 98 meshes to the inch.

3. The scalper will have, at first, to be worked by hand, so it should be fitted up
with a suitable crank for this purpose.

4. The cost of the scalper in London is £22, plus 5 per cent. for packing for
shipment, or £1-2-0. The silk gauze would cost about £6; total £29-2-0. In
addition to this, there would be charges connected with freight and carriage from
Madras, but how much this would amount to, I am unable to say.

5. As I hope the machinery, which has already been ordered, will shortly be
received in India, I shall be much obliged if you will obtain for me, as soon as possible,
the sanction of Government for the purchase of the scalper.

6. The sum of £29-2-0, or Rs. 410, could be met from the amount allotted in
the budget estimate for the current official year under "Contingencies"—vide G.O.,
No. 1061, of 10th November 1887, Revenue, under which there still remain unspent
Rs. 645-2-0.
