GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From Lieutenant-Colonel J. PENNYCUICK, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Thekady, 17th December 1887, No. 447 P.R.

With reference to G.O., No. 3177 W., of 23rd November 1887, I have the honor to state that nothing will be gained by the arrangement therein prescribed, and that I should greatly prefer to retain the present arrangements.

2. Under the former we should have to maintain permanently a guard of sufficient strength to escort the money from Periyakulam, which guard we now pay only during the period occupied in transit from Periyakulam here, or for about twelve days in each month, and in addition a guard for the protection of the treasure here, besides incurring the cost of construction of a building sufficiently large and substantial for the custody of Rs. 40,000 or thereabouts, and paying an extra clerk and cash-keeper to manage the distribution of the money.

3. The trouble and risk of conveying money from Periyakulam here would be the same as at present, and the extra expense and risk mentioned in the foregoing paragraph would be incurred without any counterbalancing advantages whatever.

4. I was under the impression that it was part of the regular duty of the Account Department to provide reasonable facilities for the supply of funds for public purposes, and under this impression asked for the establishment of an ordinary treasury at some point nearer than Periyakulam; but if this cannot be granted, I should greatly prefer to retain the present arrangements and request permission to do so.

From H. S. TAYLOR, Esq., Executive Engineer, Periyár Division, to the Chief Engineer, Public Works Department, dated Kumili, 14th February 1888, No. 637 P.R.

In the absence of the Superintending Engineer, I have the honor to reply to your No. 340 C., dated 26th January.

2. If the present arrangements for supply of funds for these works be continued, all we require is a guard, which now consists of one head constable and three constables, to escort the treasure cart from Periyakulam to this camp, generally three times a month.

3. Ootamapolliem is 20 miles from the camp and 28 from Periyakulam.

4. The Inspector-General represents that an additional force is required at Ootamapolliem in connection with the Sub-Magistrate's cutcherry and other general duties, but it is not clear why this project should bear the entire cost of five additional men stationed there, when all we require is the services of a guard from Periyakulam three times a month, that is, of four or five men for rather less than half of each month.

5. The enclosures of your letter are returned herewith.

ORDER—dated 3rd March 1888, No. 733 W., Public Works.

Under the circumstances represented by the Superintending Engineer, VI Circle, in his letter, No. 447 P.R., dated 17th December 1887, the proposal sanctioned in G.O., No. 3177 W., dated 23rd November 1887, for establishing a Public Works treasury at the site of the Periyar Works will not be acted on at present, but existing arrangements will be continued.

2. As regards the police force required for escort duty, the attention of the Judicial Department is requested to the Superintending Engineer's letter, No. 637 P.R., dated 14th February 1888.
