9th March 1888, No. 789 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers:—

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 11th February 1888, No. 4726.

I have the honor to forward copy of letter from the General Superintendent, Public Works Workshops, No. 2539 W., dated 30th January 1888, and of the correspondence therewith received, on the subject of Commissariat department cancelling their last order for seven Crowley's carts owing to some unavoidable delay that has taken place in supplying them for want of suitable materials.

2. The materials for these carts have, however, now been purchased by the Workshops, and the carts will be ready by the end of February 1888. Under the circumstances it seems to me that the Commissariat department are bound to take the carts when completed, and I request that orders may be issued requiring the Commissariat department to take delivery of the full number of carts ordered by the end of current month.

From Colonel J. C. GUNNING, Officiating Commissary-General, to the Secretary to Government, Military Department, dated Madras, 3rd March 1888, No. 9302.

In returning the correspondence received with your docket memorandum No. 1397, dated 28th February 1888, I have the honor to report that the Superintendent, Public Works Workshops, was such an unconscionable time in making up the Crowley pattern carts and the Military authorities (especially at Secunderabad) were so urgent in their demands for them that it was absolutely necessary to make other arrangements for their supply.

2. As, however, the seven countermanded carts have now been made, there is no objection to their being kept in the Workshop stores and issued to this department when Crowley carts are again required. No carts will be ordered from private firms until the "present stock in the Public Works Workshops has been utilized," but the carts already ordered from private firms and now under construction must be first taken and issued.

No. 1562, Military.

Transferred to the Public Works Department, and the draft order on P.W.C. No. 1467, returned duly countersigned.

(By Order.)

Fort St. George,
5th March 1888.

(Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
Secy. to Govt., Mily. Dept.

Order—dated 9th March 1888, No. 789 W., Public Works.

If the Commissariat department are not prepared to take the carts immediately, they will be kept in stock for issue to that department when carts are again required. It will be understood that no carts are to be ordered from private firms until the present stock in the Public Works Workshops has been utilised. Orders will issue accordingly in the Military department.

2. If the Commissary-General found it necessary to cancel his order for the seven carts, he should have done so immediately on receipt of the letter of the 16th December instead of waiting three weeks, although he had been informed that the Superintendent was daily endeavouring to procure the necessary sizes of iron.

MARCH.

Crowley's Carts

Orders on correspondence regarding the refusal of the Commissariat department to take certain — which that department had ordered from the Public Works Workshops.

From The Commissariat Storekeeper General Madras
To The General Superintendent P. W. Workshops No. 6933 d/9 12/87

No. 6746 d/1 12/87 asking for immediate supply of Filth Carts (Crowleys) urgently required at Outstation

I have the honor to invite your attention to my letter, number, date and subject as per margin, and request an early reply. Not a single Filth Cart has yet been received, though 4 were promised on 30th ultimo.

From The General Superintendent P. W. Workshops Madras
To The Commissariat Storekeeper General Madras No. 2230 W d/12 12/87.

I have the honor to acknowledge receipt of your No. 6933 of December 9th 1887. I regret that the "Crowley" Carts have not been sent earlier. I have done my best in the matter; one is being sent to day, and another I hope to send before the Christmas Holidays. The delay has not been in the making of the Carts, it has been in procuring the exact sizes of Iron. As you are very particular about the exact weight &c of these Carts, I cannot introduce or substitute any other sizes. I would advise, if it be possible, that indents for these Carts be given every six months, letting us know the number you will want the next six months. Your indents can then always be very punctually supplied. There is as much trouble in supplying one Crowley's Cart, as in supplying a hundred.

From The Commissary General Madras.
To The General Superintendent P. W. Workshops Madras No. 7287 d/14 12/87

In reference to your letter No. 2230 W dated 12th Instant, to the address of the Commissariat Storekeeper General, I have the honor to request that you will be good enough to inform me when you will be able to supply the "Crowley" pattern carts, which you were asked many months ago to make up.

Owing to the very long delay, very great inconvenience has been occasioned, and the conservancy arrangements at several Mofussil stations, are so faulty, for want of filth Carts, that constant

constant complaints reach me.

If therefore you are unable to build and supply the Carts without further delay, I request that you will kindly say so at once, in order that I may report to Government accordingly, and obtain the number wanted from Messrs Crowley & Co's works, at Allahabad.

From The General Superintendent P. W. Workshops Madras
To The Commissary General Madras No. 2285 W of 16 12/87

I have the honor to acknowledge receipt of your No. 7287 of December 14th 1887 and in reply to state as follows. I am very sorry to have caused any inconvenience and I do not think I am in any way to blame; but the rules of the Department. I will now state as nearly as I possibly can the present position with respect to the Crowley Carts in question and also how with your assistance I trust I shall be able to remedy defects in future.

The number of "Crowley" Carts yet to be supplied is seventeen. I have complete Iron for 10 of these. Thus as far as human probabilities will allow I can supply 5 of these by January 10th 1888, 5 more by February 29th 1888. Concerning the remaining 7, I am doing my best every day to procure the necessary sizes of Iron. But I certainly think that they will be supplied by March 31st 1888. In my Home Indent with special reference to the inconvenience your Department has been put to, I have written home for sufficient sizes of Iron to make 30 filth Carts according to pattern now fixed upon. If you can give me any information concerning the number you will require during the next financial year it will be very valuable to me. The same remarks apply to the "McNamaras" filters and also to the tubs for drinking water. Any information in fact of this sort greatly facilitates quickness of supply

---

From The Commissariat Storekeeper General Madras
To The General Superintendent P. W. Workshops Madras No. 7429 of 7 1/88

I have the honor to request that you will be good enough to cancel orders from this office for the last 7 "Carts filth Crowley pattern" which you state you cannot supply for some time to come. I trust the other 10 Carts will be supplied, 5 this month, and 5 more in February as promised, as they are very urgently required.

From The General Superintendent P. W. Workshops Madras
To The Commissariat Storekeeper General Madras No. 2427 W of 12 1/88.

With reference to your letter No. 7429 of 7th January/88, I have the honor to state that all the Iron Works for the filth Carts are ready and will be fitted together Shortly Greatly and the whole order completed by the end of next month. I am therefore unable ~~make~~ to cancell the order for the 7 Carts.

From The Commissariat Storekeeper General Madras.
To The General Superintendent P. W. Workshops No. 7716 of 19 1/88.

I have the honor to state that the orders of the Commissary General were issued with reference to the last clause of para 3 of your No. 2285 W of 16th December /87 from which it was understood that you had not procured the necessary material. I regret therefore, that, having given orders for the supply of the 7 last Crowley Carts elsewhere, I cannot receive them from your Workshops.

Then
but 3 weeks
had expired

From The General Superintendent P. W. Workshops Madras
To The Commissariat Storekeeper General Madras No. 2459 of 19 1/88.

With reference to your letter No. 7716 of 19th instant, I have the honor to state that there is nothing to shew in my letter No. 2285 W dated 16th December /87 to the Commissary General which warranted the cancelment of 7 "Crowley's" Carts last ordered. I must reiterate the conditions communicated to you in my letter No. 2427 W of 12th January/88, and if you still refuse to take the 7 Carts when finished, I must only submit the case for the orders of Government, thro' the Superintending Engineer -

From The Commissariat Storekeeper General Madras.
To The General Superintendent P.W. Workshops Madras No. 48488/25/1/88

I have the honor to inform you that I cannot take the 4" Carts Filth Crowley pattern" last ordered, having taken steps for their purchase elsewhere, and request you will be good enough to consider my requisition for them, cancelled. You may submit the case for the decision of Government, if you wish.

5th Circle
Chepak.

Sir

I have the honor to invite your attention to the correspondence between myself and Major Gompertz in the Commissariat Department with reference to "Crowley" Filth Carts. Major Gompertz ordered from time to time "Crowley" Filth Carts to be made in the workshop. There was considerable delay in making these Filth carts owing to there being no iron of some of the requisite sizes in Stores. Sanction had to be obtained from Government to purchase in the local market and after sanction was obtained, we experienced considerable difficulty in obtaining them. This finally led Major Gompertz writing No. 6933 of 9th December 1887 to which I replied in No. 2230 W of 12th December 1887. In

the

the meantime the iron had been obtained and work was almost completed when I received from the Commissariat Storekeeper General No 7429 of the 7th January 1888. To this I replied by No 2427 W of 12th Idem. Major Gompertz replied by No 7716 of 19th Idem.

I accordingly now send the matter on to you for decision. Copies of the correspondence are enclosed and the seven filth carts in question are more than half completed. Consequently the iron can be used for little else that I am aware of.

I have &c
