I have the honor to return the
estimate you approved, amounting to
Rs 1350, together with a report and speci-
fication, for tiling the roof of All Saints
Church at Coonoor and request you
will be good enough to transmit it, thro'
the head of your department, to Government
for sanction and provision of funds early
in April 1888.

2. I have to inform you that the
estimate is countersigned by you in a
wrong place. It should be signed
at the foot of the abstract of the estimate.

San Sir -

I have the honor to forward an
estimate, amounting to Rs 1,350, together
with a report, specification, and letter of the
dated 17 Feb '88, from the Offg. Superintendent
Engineer, 2nd Circle, for tiling the roof
of All Saints Church at Coonoor, and
request that you will be good enough
to obtain from Government the
necessary sanction and provision of
funds -

As the Church Committee are
having the seats of the Church repaired
and renewed at a cost of over £ 50 and
as the furniture as well as the walls of
the Church are damaged every monsoon
and as the congregation complains of the
dampness of the seats caused by the
numerous leaks from the bad state
of the roof, I trust that funds may
be provided early in April so
that the roof may be put into
permanent good order before
the coming S.W. Monsoon -

I am informed by the Church
Committee that the roof has been
constantly repaired with no satisfactory
result and the Committee with the Architect
Engineer consider that the covering of the
old iron roof with mangalore tiles is
the cheapest effectual means of preserving
the Church from further damage
from leaks -

I might mention that the Church
Committee prefer the repairing of the
Church roof as proposed above to removing
the iron (which latter we think more expensive)
on account of the excessive heat of the
Church during the hot ^{months} which often
causes members of the congregation to
have to leave the Church during Divine
Service -

Have the honor to be
Dear Sir

Your most Obedient Servant

NOTE OF REMARKS.

The estimate under
review amounting
to Rs 1350 proposed
for covering with
Mangalore tiles,
the roof of All Saints
Church at Coonoor.

It is explained
in the report that
the roof leaks in
several places during
the rains as the rivets
have not been soldered
it is therefore proposed
to take the roof to
prevent leakage
as well as to moderate
the heat during the
hot season.
