Civil Works.

Read—the following papers :—

From H. T. ROSS, Esq., Registrar of the High Court of Judicature at Madras, Appellate Side, to the Chief Secretary to Government, dated Madras, 24th January 1888, No. 183.

With reference to G.O., dated 30th May 1887, No. 1126, I am directed to submit, for the sanction of Government, the accompanying site-plan and revised estimates for Rs. 19,550 for the construction of a new District Munsif's Court at Chávakád, South Malabar, and to request that funds may be provided for the same.

No. 124 R., Judicial.

Approved and transferred to the Public Works Department.

(By Order.)

Fort St. George,
6th February 1888.

(Signed) A. G. CARDEW,
Under Secretary.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 7th March 1888, No. 90 E.W.

In returning the plan, estimate and other papers received with your memorandum No. 637 C. of 14th ultimo, I have the honor to report that the town Chávakád, at which the District Munsif's Court is to be constructed, is an out-of-the-way place, about midway between Cochin and Calicut, and about 50 miles from either of these places, and such materials as timber, iron and tiles would have to be conveyed there from Calicut. The amount of the estimate cannot, therefore, be lessened by more than Rs. 305, which has been done by reducing the rate of flooring to the main building with mission tiles and that for roofing the out-houses.

2. The total amount of the estimate is now altered from Rs. 19,550 to Rs. 19,245.

Order—dated 27th March 1888, No. 988 W., Public Works.

The estimate, amounting to Rs. 19,245, for constructing a District Munsif's Court-house at Chávakád, in the South Malabar district, is sanctioned for execution when funds are available.

2. This sanction has been registered as Provincial, No. 198 W. of 1887-88, and classified as Civil Buildings, Original Works.

(True Extract.)

Captain, R.E.,
Under Secy. to Govt., P.W.D.

District Munsif's Court-house at Chavakad

Estimate for constructing a —, in the South Malabar district, sanctioned.

915/2

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following paper :—

From J. A. DAVIES, Esq., Acting Registrar of the High Court of Judicature at Madras, Appellate Side, to the Chief Secretary to Government, dated Madras, 7th July 1884, No. 1882.

I am directed to forward copy of a letter, with its enclosure (to be returned) from the District Judge of South Malabar, dated 11th ultimo, No. 343, reporting on the condition of the munsif's court-house at Chávakád and requesting that the sanction of Government may be obtained for the construction of a new court-house for the munsif, and I am to request that orders may be issued for the preparation of a plan and estimate accordingly.

Enclosures.

From F. H. WILKINSON, Esq., District Judge, South Malabar, to the Acting Registrar of the High Court of Judicature, at Madras, Appellate Side, dated Calicut, 11th June 1884, No. 343.

I have the honor to forward, herewith, a copy of letter, No. 74, dated the 28th April last, from the sub-divisional officer, Calicut, to the Executive Engineer, Coimbatore division, reporting on the condition of the munsif's court-house at Chávakád, and to request that you will be good enough to obtain the necessary orders and sanction for providing funds at an early date for a new court-house at Chávakád.

From J. NICHOLSON, Esq., Sub-Divisional Officer, to the Executive Engineer, Coimbatore Division, dated Calicut, 28th April 1884, No. 74.

As directed in memorandum, No. 1827, of 22nd December 1883 (endorsement on the Civil and Sessions Judge's letter now returned), I beg to report on the condition of the munsif's court-house at Chávakád.

2. The building from the outside has the look of an ordinary Malabar native's house. It is very old, probably 60 or 70 years; the court-house is upstairs on the first floor and extends for the full length and breadth, viz., 53′ × 16′ 6″; the walls are very low, only 7 feet in height; the roof is of the usual Malabar muster and thatched. Below on the basement floor there are two or three rooms where the records, &c., are kept. There is a narrow thatched verandah 5 feet in width on three sides on the ground floor.

3. The walls are of laterite in mud, plastered with mud and white-washed. There are several cracks in the main walls; the verandah pillars are bulged and bent over, and some of them will fall over shortly; the bressummers have sagged very much; the timber of the court-house floor seems in good order and helps to bind and keep the building up.

4. If the walls had been roofed over with tiles, I think the building would have succumbed long ago, but having a light thatched roof it looks as safe as other buildings of the same description, as, for instance, the house close by occupied by the post office. I beg to recommend that the building be watched during the monsoon, also that a large number of people should not be permitted to occupy the court-house floor at one time.

5. The building is very inferior to the adjoining vakil's office, and, I think, altogether unsuited for a munsif's court-house. I consider this department could do nothing to improve the present building, and beg to recommend that a court on the standard design be built.

Endorsement on the above.

Forwarded to the District Judge of South Malabar. It will be seen, as the sub-divisional officer considers, that—

(1) the building should be watched during the monsoon;
(2) only a limited number of people should be admitted to the court room;
(3) a new building is required, as the present building is incapable of improvement.

Coimbatore,
3rd May 1884.

NOTE OF REMARKS.

The accompanying Estimate amounting to Rs 19,245 for constructing a District Munsiff's Court House at Chavakad in South Malabar was returned with this Office Memo No 637C dt 14th February for the purpose of the rates for roofing and flooring being reduced so as to accord with the rates given in the Schedule for the Division.—

The Supdg. Engineer in reply explained that the building it is to be constructed in an out-of-the-way place about midway between Cochin and Calicut a distance of 50 miles from either of these places, and that such materials as timber iron and tiles would have to be conveyed from Calicut.

The amount of the Estimate has however been reduced by Rs 305 i.e. from Rs 19,550 to Rs 19,245 the saving has been effected by reducing the rates for flooring the main building and roofing the subsidiary building.

If an explanation had been given in the first instance a reference would have been avoided.

It may be well to issue a circular asking E. Es to explain excess rates when submitting Ests for sanction in order to avoid

This has been done already

Dated ~~the~~ 6th February 1888
From the Secy. to Govt. Judicial

Sanction. Call ~~Depts.~~ attention to C.A.'s note attached.

NOTE OF REMARKS. WMM 11.2.88

The Estimate under review amounts to Rs 19,550 and provides for constructing a new District Munsiff Court at Chavakad South Malabar.

The Estimate is divided as follows

1	Main Building	Rs 14,070
2	Latrine	" 1,307
3	Record Shed	" 1,230
4	Compound fence with 2 gates	" 740
5	Well 12' dia: complete	" 330
6	Forming a roadway	" 145
7	Land Compensation	" 1672
8	Removing huts and levelling site	" 56
	Total	Rs 19,550

appellate order

It is explained that the building in which the District Munsiff's Court is held at present is unsuited for a Court House and that it is not open to improvement; it is therefore proposed to construct a new building on the lines of the Standard design circulated with G.O. No 1098 W. d/21st April 1887, and the subsidiary building in accordance with the design circulated with + G.O. Nos 1014 & 505 W of 20th April /84 and 6th March /85 respectively.

+ The Muntapum has however been struck out of the Estimate.

The rate for roofing to the main building may be reduced from Rs 30 per Sq. to Rs 14 by omitting the cedar plank ceiling and using Mangalore tiles so also the rate for roofing to the Recpt. Shed and latrine which may be reduced from Rs 20 to Rs 14 by using Mangalore tiles, this would effect a saving of Rs 1,136 & Rs 106 respectively or for both Rs 1242.

The rate given in the Estimate for flooring with [illegible] tiles is Rs 2. per Sq. but if Compressed tiles 6" sq. are used instead the flooring could be laid for Rs 15 per Sq. and the amount of the Estimate further reduced by Rs 180 -

Asphalte flooring 3/4 inch in thickness laid on 5 inches of concrete is charged for in the Est. at Rs 20 per square, the rate given for in the Schedule for the same laid on 4 inches of concrete is Rs 15 per square and if 4" instead of 6" of concrete is used for the flooring of the Ryots Shed there would be a still further saving of Rs 18 on both items

The aggregate saving thus effected on the Estimate would therefore be Rs 1440 -

988/15

The estimate has been concurred by the District Judge and approved by Govt. in the Judicial Deptt:-

10/2.
88.

It is not understood if there is any distinction or difference between "Mangalore tiles" and "Mission tiles" I have always understood them to be one & the same if so there is a considerable difference between the rates given for mission tiles in the Estimate and Mangalore tiles in the S.P. Schedule the rate in the former is quoted at Rs 20 per sq. and that given in the latter is Rs 14 per sq. —

11/2/88

No 637 C d/ 14 Feby 1888

Memo.

Endorsement from the Judl. Dept. d/ 6. 2. 88, No 124 R, on letter from the Registrar High Court No 173 d/ 24. 1. 88

Note by the Chief Engr.

~~The cedar plank ceiling is unnecessary and should be omitted; the Mangalore tiles are sufficient in themselves to form a good roof.~~

forwarded to the S.S. IV Circle, with the following remarks:—

The schedule rate for roofing with Mangalore tiles being 14 Rs per square for the West Coast Division, a reduction of ~~[illegible]~~ can apparently be made, with advantage, in the amount of the Est.

The rate allowed for flooring viz. 20 Rs per square is in excess of the schedule rate of 15 Rs and the cost of the asphalte flooring may also be lessened by reducing the thickness of the concrete to 4"

The S.E. will report the saving that can be made, on these lines, without prejudice to the work.

Sir

As directed in memo. no 1827 of 22nd December 1883 endorsement on the Civil and Sessions Judge's letter now returned, I beg to report on the condition of the Munsif's Court House at Chougat.

2 The building from the outside has the look of an ordinary Malabar native's House. It is very old probably 60 or 70 years: the Court House is upstairs on the first floor and extends for the full length and breadth viz 53'x16'.6", the walls are very low only 7ft in height, the roof is of the usual Malabar muster and thatched. Below on the basement floor there are two or three rooms where the records &c are kept, there is a narrow thatched Verandah 5ft in width on three sides on the ground floor.

3...... The walls are of laterite in mud plastered

plastered with mud and white-washed; there are several cracks in the main walls, the Verandah pillars are bulged and bent over and some of them will fall over shortly, the bressummers have sagged very much; the timber of the Court House floor seems in good order and helps to bind and keep the building up.

(4) If the walls had been roofed over with tiles, I think the building would have succumbed long ago, but having a light thatched roof it looks as safe as other buildings of the same — description, as for instance, the house close by occupied by the Post Office. I beg to recommend that the building be watched during the monsoon, also that a large number of people should not be permitted to occupy the Court House floor at one time.

(5) The building is very inferior to the adjoining Vakeels' Office — and I think altogether unsuited for a Munsif's Court-House. I consider this Department could do nothing to improve the present building and beg to recommend that a court on the Standard design be built.

I beg &c
(Signed) John Nicholson
Sub. Dn. Officer.
