Sir,

In reply to your no. P. 15. 1794
dated 8th Instant, I have the honor to
inform you that the old Post office
is a poor building with a very badly
constructed roof and to adapt it to
any permanent use would incur
reconstruction.

The site is not required for
any purpose. It is true we want a Police
Station, but the ground belonging to
the Post office is insufficient and
there is not any more contiguous ground
available.

When funds can be granted
for a new Police Station, I would recom-
mend that a piece of land be taken
upon either bank of the canal some-
where near the Cutwall's Choultry
and the area of same should be suffi-
cient to allow of space being given to
the Magistrate's Transit and also

if the British Government would agree to pay rent a good building might be erected which would afford room for a Police Station a Telegraph and Post office, Impell and Transit offices.

I may also advise the Government that purchasing the Post office is liable to lead to a Civil suit, as from my enquiries I learn that the Post office was originally held in Loubo's lane, but this being inconvenient the owner of the Compound in which the Post office now stands was asked to allow it to be built there and he gave permission but so far as I can learn it was only verbal and the man who gave it is dead, so if the Post office is sold the buyer would have no right to the site as the permission would lapse if the building or site be used for any other purpose than a Post office. I think the Post master should auction the materials as I understand that the building was erected at the expense of the British Government.
