

No. 1

MADRAS, D. P. W.,

Bangalore, 25/8 1888.

From,

THE EXECUTIVE ENGINEER,

To,

on Special ^{Presidency Division} Duty Bangalore
THE Chief Engineer
P. W. Deptt.
Madras.

SIR,

P M G

With reference to your Memo No. 524
of 14/8/88, I have the honour to
report my arrival at Bangalore on the
morning of the 23rd instant and that
on the same date I commenced
arrangements connected with the
required investigations.

2. I have the honor to request that
instructions may be issued to the
Supy. Engineer 5th Circle, to advance
to me, through the Executive Engineer
Presidency Division, such small sums
as I may require, to cover contingent
charges, e.g. for pegs, fixing bench
marks &c. as also to include the
pay of myself and establishment
in the Pay Bill of the Presidency
Division

Division.

3-. I would request that the un-
expired term of the furlough, granted
to me in P.M.G. No. 521 W.D. 22.2.87,
may be cancelled.

+ Bruler -
Not necessary.
rule from 582
of the 4th. Code
L.S.

4. I propose to procure, as far as
available, such instruments as I may
require, from the Executive Engineer's
Office here, but as possibly it may
not be practicable to meet all my
requirements from that source, I
would request that the General
Supt. P.W. Stores may be instructed
to comply with my ^{Indents} wants. I shall
take care not to indent for any
instruments not really required.

5. As soon as I am sufficiently
acquainted with the circumstances
of the two schemes to be investigated
I shall submit proposals for the
necessary establishment, but I may
here mention that I do not con-
template a large one, probably -

- one Surveyor
- one Draftsman, 1st Class
- one — do — , 2nd do
- one Clerk,

12 lascars

will be sufficient.
On consideration I only propose one
Surveyor, as I consider that most
if not all his work should be
personally checked and to do this, com-
bined with the general work of
design and calculations connected
with the Projects will be as much
as I can efficiently carry on at
any one time.

Have the honor to

Sir,

Your most obedt. servant.

J. Lawrence

Executive Engineer P.W.

As attached, Capt. Hamilton's Plans
& Estimates for Genl. Curllin's Scheme
for the supply of water from the Agaram
Tank, may be of use, it is requested that
they be forwarded. They are not to be forwarded
in either the Superintending or Ex^{ce} Engineer's
office here. J.L.
