READ—the following paper:—

From J. W. RUNDALL, Esq., M.I.C.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 11th September 1888, No. 596 T.N.

In acknowledging receipt of G.O., No. 2771 W., dated 7th instant, communicating sanction of the Government of India to an allotment of Rs. 174 for sinking a well in the compound of the Post office at Kóttayam, I have the honor to observe that, of the above sum, Rs. 34 are for establishment and tools and plant.

2. The estimate of Rs. 140 sanctioned by the Director-General of Post Office of India for the above work, and received with G.O., No. 2757 W., of the 5th instant, includes "Rs. 26 for permanent establishment at 23 per cent." on the estimated cost of Rs. 114 for work. The allotment of Rs. 34 by the Government of India for establishment and tools and plant on account of this work appears superfluous.

ORDER—dated 28th September 1888, No. 3052 W., Public Works.

In his letter above recorded, the Superintending Engineer, VI Circle, points out that the sum of Rs. 140 allotted by the Director-General of Post Offices for sinking a well in the compound of the Post office at Kóttayam includes Rs. 26 for "Establishment," the estimated cost for the work being Rs. 114 only, and that the assignment of Rs. 34 by the Government of India for "Establishment" and "Tools and Plant" is therefore superfluous.

2. As the percentage for "Tools and plant," which amounts to Rs. 2, has not been calculated by the Superintending Engineer, that sum will be added, and Rs. 142 will be treated as an addition to the current year's grant for Imperial Civil Works, in lieu of Rs. 174 sanctioned by the Government of India in their letter No. 157 A.-C.W., dated 23rd August 1888.

3. Ordered that a copy of these Proceedings be forwarded to the Government of India for information.
