GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From J. W. RUNDALL, Esq., M.I.C.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Kumbakonam, 9th May 1888, No. 72 R.N.

I have the honor to submit the accompanying statement of demands for incomplete major works of 1887-88 in the Ramnad Division, for which funds are required in the current year.

2. In the budget-estimates submitted on the 8th October 1887, in Nos. 213 R.N. and 214 R.N. (on which no orders have yet been passed), no provision was made for the works in the present statement; specific allotment for each of them is necessary in order that the current year's outlay thereon may be admitted by the Examiner.

3. For several of the works, proposed in the budget, estimates have not yet been prepared, and it is not likely that several of them can be put in hand this year. The present Executive Engineer has, therefore, been ordered to submit, in consultation with the manager of the estate, a revised scheme of expenditure for the current year; but, pending receipt of the same, it is necessary to proceed with all works and repairs that remained incomplete on the 31st March 1888.

From the same officer, dated Trichinopoly, 28th June 1888, No. 164 R.N.

In continuation of my No. 72 R.N., dated 9th May 1888, giving cover to a statement of demands for incomplete major works of 1887-88 in the Ramnad Division, and with reference to G.O. No. 1602 W., dated 2nd June 1888, I have the honor to submit, for early orders of Government, the accompanying revised scheme or budget-estimate of works proposed to be carried out in that division during 1888-89.

2. The present budget is in supersession of the statement of incomplete works above referred to, and of the original budget-estimate approved by Government in their order No. 1544 W., dated 25th May 1888. It has been prepared by the Executive Engineer Mr. Jopp, in consultation with the manager of the estate, and provides for all works and repairs which are considered necessary, and which, it is hoped, can be carried out.

3. The revised budget amounts to Rs. 95,571; of this Rs. 68,636 are required for works and repairs that remained incomplete at the end of March last, leaving the remainder, Rs. 26,935, for fresh works and repairs to be put in hand this year.

4. When the original budget, which amounted to Rs. 1,50,000, was prepared, Mr. Target, the then Executive Engineer, probably anticipated and being able to do more work last year, and therefore that the demands for incomplete works would not amount to so large a sum. It moreover includes several works for which estimates could not be got ready in time. The latter have been excluded in the present budget, as it is necessary that incomplete works should be proceeded with in preference. The last year's short outlay and the consequent high demand this year for incomplete works were chiefly due to scarcity of labor and to the utter want of interest on the part of ryots in the safety of their irrigation works; it is not, therefore, advisable to start too many fresh works, as the original budget contemplated, and leave them all or most of them incomplete at the end of the year.

5. The present budget, however, provides for some fresh minor works which are considered necessary, and for which estimates are being prepared; also for emergent agricultural works which are not at present foreseen. Under buildings a provision of Rs. 4,500 is made for a bungalow for residence of the Executive Engineer. This is much needed. At present the Executive Engineer is put to great personal inconvenience in not having a house or any accommodation. The estimate for the building is under preparation by the Executive Engineer, and will be submitted for sanction in due course.

6. It has been lately settled that this department should carry out certain devastanam works (Civil Buildings), to the inspection of which no objection will be taken; provision for such works is also made in the present budget.

P.S.—Since the above was written I see from the Gazette of 26th that Supervisor Vaithilingam Pillay, whose transfer to Ramnad Division was notified in my No. 133 R.N. of the 16th instant, has been posted to the Periyar project. The Executive Engineer will not be able, unless he is assisted by a competent staff, to carry out the programme of works now forwarded. He has hitherto had most inferior Overseers. I request, therefore, that a capable upper subordinate of the Supervisor or Sub-Engineer grade (Native) be posted at once to Ramnad Division.

2. Unless this is done, the expenditure of the sum now asked for is improbable.

ENCLOSURE.

PART I.

Forwarded.

OOTACAMUND,
23rd July 1888.(Signed) C. A. GALTON,
Ag. Secretary to Government.

ORDER—dated 14th August 1888, No. 2477 W., Public Works.

With the first of his letters above recorded, the Superintending Engineer, VI Circle, submitted a statement of demands for incomplete major works of 1887-88 in the Ramnad Division, and with his second letter he submits a fresh programme of works in supersession of the statement of incomplete works referred to above, and of the budget-estimates for 1888-89, circulated with G.O. No. 1544 W., dated 25th May 1888.

2. The revised scheme, however, amounts to Rs. 95,571 only, while the lump sum provision assigned by the Court of Wards, in their Proceedings noted in the margin, for works in the Ramnad estate during 1888-89 is Rs. 1,50,200. No further action is, therefore, necessary. The excess provision of Rs. 54,629 or Rs. 67,194 inclusive of the per-centage charge for "Establishment" is replaced at the disposal of the Court of Wards, to whom the list of works referred to in these Proceedings will be communicated, through the Revenue Department, for information.

3. The postscript to the Superintending Engineer's letter of 28th June 1888 will be communicated to the Chief Engineer for attention.

(True Extract.)

Read the following letter from the Collector and Manager, Ramnad, dated 25th January 1888 No. 16. to the Collector of Madras and the following endorsement thereon of the Collector of Madras dated 4th February 1888 No. 42.

In continuation of my letter to you No. 166, dated 6th November 1887, I have the honor to submit herewith for sanction an estimate with plans amounting to Rs 6580 — — for constructing two flights of steps to the Nynascoil Trami referred to in your footnote No. 2028 dated 2nd August last to the G.O. No. 943 dated 4th July 1887.

The Executive Engineer States in his letter to me No. 2335 of the 23rd last that

that if the two flights be built,
as designed it would be sufficient
instead of on all the 4 sides of the
Wani as suggested by me, the necessary
improvements to which would cost
Rs 244,500. and that the well will
be done after the subsidence of water
in the Wani.

14TH AUGUST 1888, No. 2477 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

1190

General.
Account.

READ—the following papers:—

From J. W. RUNDALL, Esq., M.I.C.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Kumbakonam, 9th May 1888, No. 72 R.N.

I have the honor to submit the accompanying statement of demands for incomplete major works of 1887-88 in the Ramnad Division, for which funds are required in the current year.

2. In the budget-estimates submitted on the 8th October 1887, in Nos. 213 R.N. and 214 R.N. (on which no orders have yet been passed), no provision was made for the works in the present statement; specific allotment for each of them is necessary in order that the current year's outlay thereon may be admitted by the Examiner.

3. For several of the works, proposed in the budget, estimates have not yet been prepared, and it is not likely that several of them can be put in hand this year. The present Executive Engineer has, therefore, been ordered to submit, in consultation with the manager of the estate, a revised scheme of expenditure for the current year; but, pending receipt of the same, it is necessary to proceed with all works and repairs that remained incomplete on the 31st March 1888.

From the same officer, dated Trichinopoly, 28th June 1888, No. 164 R.N.

In continuation of my No. 72 R.N., dated 9th May 1888, giving cover to a statement of demands for incomplete major works of 1887-88 in the Ramnad Division, and with reference to G.O. No. 1602 W., dated 2nd June 1888, I have the honor to submit, for early orders of Government, the accompanying revised scheme or budget-estimate of works proposed to be carried out in that division during 1888-89.

2. The present budget is in supersession of the statement of incomplete works above referred to, and of the original budget-estimate approved by Government in their order No. 1544 W., dated 25th May 1888. It has been prepared, by the Executive Engineer Mr. Jopp, in consultation with the manager of the estate, and provides for all works and repairs which are considered necessary, and which, it is hoped, can be carried out.

3. The revised budget amounts to Rs. 95,571; of this Rs. 68,636 are required for works and repairs that remained incomplete at the end of March last, leaving the remainder, Rs. 26,935, for fresh works and repairs to be put in hand this year.

4. When the original budget, which amounted to Rs. 1,50,000, was prepared, Mr. Target, the then Executive Engineer, probably anticipated and being able to do more work last year, and therefore that the demands for incomplete works would not amount to so large a sum. It moreover includes several works for which estimates could not be got ready in time. The latter have been excluded in the present budget, as it is necessary that incomplete works should be proceeded with in preference. The last year's short outlay and the consequent high demand this year for incomplete works were chiefly due to scarcity of labor and to the utter want of interest on the part of ryots in the safety of their irrigation works; it is not, therefore, advisable to start too many fresh works, as the original budget contemplated, and leave them all or most of them incomplete at the end of the year.

5. The present budget, however, provides for some fresh minor works which are considered necessary, and for which estimates are being prepared; also for emergent agricultural works which are not at present foreseen. Under buildings a provision of Rs. 4,500 is made for a bungalow for residence of the Executive Engineer. This is much needed. At present the Executive Engineer is put to great personal inconvenience in not having a house or any accommodation. The estimate for the building is under preparation by the Executive Engineer, and will be submitted for sanction in due course.

6. It has been lately settled that this department should carry out certain devastanam works (Civil Buildings), to the inspection of which no objection will be taken; provision for such works is also made in the present budget.

P.S.—Since the above was written I see from the Gazette of 26th that Supervisor Vaithilingam Pillay, whose transfer to Ramnad Division was notified in my No. 133 R.N. of the 16th instant, has been posted to the Periyar project. The Executive Engineer will not be able, unless he is assisted by a competent staff, to carry out the programme of works now forwarded. He has hitherto had most inferior Overseers. I request, therefore, that a capable upper subordinate of the Supervisor or Sub-Engineer grade (Native) be posted at once to Ramnad Division.

2. Unless this is done, the expenditure of the sum now asked for is improbable.

ENCLOSURE.

Ag. Secretary.

No. 4304, Revenue.

Forwarded.

OOTACAMUND,
23rd July 1888.(Signed) C. A. GALTON,
Ag. Secretary to Government.

ORDER—dated 14th August 1888, No. 2477 W., Public Works.

With the first of his letters above recorded, the Superintending Engineer, VI Circle, submitted a statement of demands for incomplete major works of 1887-88 in the Ramnad Division, and with his second letter he submits a fresh programme of works in supersession of the statement of incomplete works referred to above, and of the budget-estimates for 1888-89, circulated with G.O. No. 1544 W., dated 25th May 1888.

2. The revised scheme, however, amounts to Rs. 95,571 only, while the lump sum provision assigned by the Court of Wards, in their Proceedings noted in the margin, for works in the Ramnad estate during 1888-89 is Rs. 1,50,200. No further

action is, therefore, necessary. The excess provision of Rs. 54,629 or Rs. 67,194 inclusive of the per-centage charge for "Establishment" is replaced at the disposal of the Court of Wards, to whom the list of works referred to in these Proceedings will be communicated, through the Revenue Department, for information.

3. The postscript to the Superintending Engineer's letter of 28th June 1888 will be communicated to the Chief Engineer for attention.

(True Extract.)

Orders on the revised programme of
works proposed to be carried out in the —
during 1888-89.

No. 197

Dy. Collector & Manager's office
Ramnad, 28th Novr 1888.

From

The Deputy Collector & Manager,
Ramnad.

To

The Collector of Madras.

Sir,

With reference to your footnote No. 425
of the 22nd Instt. to the reference on Court of
Ward Register No. 2645 of 1888, I have the ho-
nor to inform you that the Executive En-
gineer has proposed certain modifications
in the allotments in the Budget estimate
for Estate works for the current year, reducing
the estimate amounts under certain items
and increasing the similar amounts in some
others. Of course the aggregate amount under
each head is the same. The Executive En-
gineer has given his reasons in detail for the
modifications which I quite approve.
The enclosures are herewith returned.

I have &c

OFFICE OF THE SUPERINTENDING ENGINEER,
6th CIRCLE.

Trichinopoly 29th September 1888
1st October/88

No. 3239N

From J. W. Randall Esquire M. I. C. E.
The Superintending Engineer,

6th Circle.

To

The Chief Engineer

P. W. D.

Sir,

ENCLOSURES.

I have the honor to sub-
mit, for sanction, the undermen-
tioned modification of allotments
for the Ramnad Division for the
current year:—

Reduction

Am.

Original works

Civil Buildings

(a) Constructing gra-
-nary for the Taluk
Cutcherry at Rajasim-
-gamangalam. Vide
Item No. 1 Revised Bud.

-get sanctioned in G.O.
No 2477 W of 14th August
1888 - Rs 1140

Increase

Devasthanam

Original Works

Civil Buildings

(g) Constructing flight
of steps to the Skynar
-coril Uram. Estimate
Rs 6580 sanctioned in
G.O. No 645 W
23-2-88 — Rs 1000

(h) Improvements to De-
-vastanam Superin-
-tendent's office at
Ramnad 15

Reduction

Increase

(b) Constructing Bungalow for the residence of the Exec: Engineer. Item No 3 in Revised Budget sanctioned in G.O. No 2477W of 14th August/88 Rs — 2,500

Rammad - Vide Item No 5 in revised Budget sanctioned in G.O. No 2477W of 14-8-88 Rs 300.

(J) Minor Works Vide Item No 6 in - do — Rs 700

(C) Repairs - Civil Build- ings - from the grant of Rs 9070 sanctioned in - do — Rs 796

(I) Repairs - to supplement the grant of Rs 2785 — Rs 2,640

4,436

Civil Buildings

Agricultural Original Works.

(d) Improvements to Kalarj Tank. Item No 9 in do - do - Rs. 5,500

(K) Minor Works to supplement grant - Rs 7311 — Rs 840

Chattram Civil Buildings

(L) Repairs - to supplement grant Rs 5083 — Rs 55

Agricultural - Civil Original Works

(e) Minor Works Item No 12 - do - do - Rs. 1741

(m) Improvements to Anai - kolam Tank Item No 10 in revised Budget sanctioned in G.O. No 2477W of 14-8-88 Rs 1720

(f) Repairs agricultural - from the grant of Rs 15,414, sanctioned in do - 1375

(n) Extending & raising Gundar Dam Item No 11 in Revised Budget Rs. 3,570

8616

(o) Improvements to Alvi - ramam tank. Estimate Rs 10,870. Submitted for sanction — Rs 1600

Total reduction Rs 13,052.

6890

Agricultural

Agricultural - Devastana

(p) Repairs - to supplement grant of Rs 3281 — Rs 627

Total Increase Rs 13,052

2. (a). Progress during dry season having been slow, the full grant is not likely to be spent.

(b) The Board of Wards having refused to sanction Rs 4,500 for quarters for Executive Engineer and called for an estimate of less amount, the reduction is necessary.

(c) The amount is not found necessary.

(d) The allotment is not likely to be fully utilised, the progress of the work on the Tank having been unsatisfactory up to date.

(e) The expenditure on this will fall short, hence the reduction.

(f) As several estimates have become unsuitable from age and consequently cancelled, the reduction is necessary.

16 16

(g). It has been only lately decided that this work should be carried out by the P. M. D.

(h). The amount is required to cover the excess over the sanctioned estimate. A revised estimate is promised.

(I. & J.). Inspection to several Devasthanam building works had been refused, and work consequently stopped. Some of these, it was eventually found, could be inspected and were therefore put in hand. In other cases it is necessary to settle the claims of contractors. Hence the demand for increase.

(K & L). Increase is due chiefly to revision of estimates.

(M & N). The works have progressed more satisfactorily than was anticipated; hence the demand for the increase.

(O). The Estimate for the work was submitted for the sanction of the Board of Wardens on the

Sanctioned in
cf. 2173
24/9/88.

1170
1st September 1888; the work can be put in hand as soon as the estimate is sanctioned. 1190

(P). The increase is required for completion of certain works.

I have the honor to be,

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From W. JOPP, Esq., Executive Engineer, Ramnad Division, to the Superintending Engineer, VI Circle, dated 14th December 1888, No. 2669 R.N.

In submitting the enclosed revised statements of demands and savings for the current year, I have the honor to state that the first modification statement, forwarded with this office No. 1636 of 18th September last, has not as yet been sanctioned and it has since become useless.

I beg, therefore, that the present modification statement may be substituted for the first one and early sanction obtained for it. The expenditure is being incurred as per the present rearrangement of allotments.

RAMNAD,
14th December 1888.

* Sanctioned in G.O., No. 2477 W., of 14th August 1888.

(Signed) W. JOPP,
Executive Engineer.

Explanatory remarks on the statement of savings or second modification statement.

Item 1.—This work was delayed in starting in consequence of a request by the manager of the estate to deviate from the sanctioned plan. Thus most part of the working season was lost and expenditure will in consequence fall short.

Item 2.—The Court of Wards not having yet sanctioned the estimate, it is presumed that they do not intend to do so. The grant is, therefore, surrendered.

Item 3.—This reduction of grant is due to the abandonment of the original intention of constructing granaries at Mudukkanacolam and Anaikulam owing to there not being time to complete them before the minor zemindar's attaining his majority.

Item 4.—The greatest difficulty has been experienced ever since the work was started in obtaining labor, and the best part of the working season having passed the whole grant cannot possibly be utilized; hence the necessity for the reduction.

Item 5.—Minor works.—Ain and Devastanam.

Item 6.—Do. do.

Item 7.—The reduction is caused by a saving on certain estimates.

Item 8.—The surrender proposed is due to one tank having become fall, thus preventing further progress on the masonry works in it.

Remarks on the statement of demands.

Item 1.—It has been found necessary to revise the estimate, which was found to be exceeded by various causes. The increase in grant is, therefore, necessary in order to complete the work. Revised estimate of Rs. 6,590 submitted for sanction.

Item 2.—The increase is necessary as certain works are put in hand, which, at the time of preparing the budget, there was doubt whether the Public Works Department would be allowed free inspection of.

Items 3, 4, 5, 6.—Better progress having been made on these works than was anticipated, increased allotments are asked for.

Item 6A.—Required to start the work.

Item 7.—The increase is necessary for paying for work done on certain temples, &c., to which the inspection of Executive Engineer was refused and the amount of which could not be accurately ascertained at the time of preparing the budget.

Item 8.—Better progress has been made on most works than was anticipated, hence the necessity for increases.

(Signed) W. JOPP,
Executive Engineer.

14th December 1888.

No. 519 R. W.

Copy, together with copy of the statement, is submitted to the Chief Engineer, Public Works Department, in supersession of modifications applied for in this office No. 323 R.N., dated 29th September 1888.

2. Early sanction to the modifications now proposed is requested, as in some cases the existing grants have been exceeded.

Certain modifications in the allotments
for estate works in the Ramnad division,
sanctioned.

Primi
V³ 11/9⁰ 1P

Letter from W. Jopp Esq. Executive Engineer, Ramnad
Division to the Supt. Engineer 6th circle
No 2669 R.N. dated 14th December 1888.

[1/9⁰] In submitting the enclosed
revised statements of demands and
savings for the current year, I have
the honor to state that the 1st modifica-
tion statement forwarded with this
office No 1636 of 18th September last, has
not as yet been sanctioned and it
has since become useless.

I beg therefore that the present
modification statement may be
substituted for the 1st one and
early sanction obtained for it. The
expenditure is being incurred as per
the present re-arrangement of allot-
ments.

B.O No. 2477 N of 14 August 1888.

/signed/ W. Joffe.
Greenhouse Engineer.

Explanatory Remarks on the statement of
Savings or 2nd modification statement.

Item 1.

Item 1.

This work was delayed in starting in consequence of a request by the Manager of the Estate to deviate from the sanctioned plan.

Thus much part of the working season was lost and expenditure with in consequence fall short.

Item 2.

The bulk of works not having yet sanctioned the Estimate it is presumed that they do not intend to do so. The grant is therefore surrendered.

Item 3.

This reduction of grant is due to the abandonment of the original intention of constructing granaries at Indukkan colony & Annitakann owing to there not being time to complete them before the Minor Zemindars attaining his majority.

Item 4.

The greatest difficulty has been experienced ever since the work was started in obtaining labour - and the best part of the working season having passed, the whole grant cannot possibly be utilized, hence the necessity for the reduction.

5 Minor works - Ann and Sawastanam.

6 do do do

7. The reduction is caused by a saving on certain Estimates.

8. The surrender proposed is due to one tank having become full thus preventing further progress on the masonry works in it.

Remarks on the statement of demands.

Item 1. It has been found necessary to revise the Estimate which was found to be exceeded by various causes. & a increase in grant is therefore

5
necessary in order to complete the work. Revised Estimate of Rs 6590 submitted for sanction.

Item 2. The increase is necessary as certain works are put in hand which at the time of preparing the budget there was doubt whether the P.W.D would be allowed free inspection of.

Items 3. 4. 5. 6. - Better progress having been made on these works than was anticipated increased allotments are asked for.

Item 6. Required to start the work.

7. The increase is necessary for paying for work done on certain temples &c to which the inspection of Sec. Engineer was refused and the amount of which could not be accurately ascertained at the time of preparing the budget.

Item 8. Better progress has been made on most works than was anticipated, hence the necessity for increases.

To

The Chief Engineer
P. W. D. 1190

Sir,

In confirmation of this office No 519 R.N. dated 21st December 1888, on the statement of savings and demands of the Pannad Su for this year, I have the honor to request that additional grants

1. Aiv
Agricultural Repairs. Rs 8000.
2. Grants
Agricultural Repairs - Rs 1000.

as noted in the margin may be obtained as soon as possible.

2. The original grant sanctioned under Aiv - Agricultural - Repairs - in G.O. No 2477 W of the 14th August 1888 was Rs 15,414; in the statement above alluded to an additional grant of Rs 1610 was applied for, raising the

32 34 total

Total to Rs 17,024; the sum now applied for is in addition to this. The total grant will then stand at Rs 25,024.

3. Up to the end of January/89 Rs 18,925 have been already spent, the additional grant now applied for is intended to meet the excess, and to close the accounts of emergent works and to complete ordinary repairs.

4. The extra demand under the head has been due to the closing of breaches &c caused to several irrigation works by the heavy rainfall of the last year, which was in fact considerably heavier in the Zamin-dari than in the preceding 4 years; the rainfall in December/88 alone being 10.88 inches in 6 days, of which 5.60 were in one day - the 14th idem.

5. Damages caused by rains and freshes to about 171 tanks have been

1884 -	40.74
1885 -	28.50
1886 -	41.07
1887 -	39.84
1888 -	46.23

*
91 works not exceeding 50 Rs each.
55 - do - do - 100 - do -
16 - do - do - 150 - do -
9 - do - do - 200 - do -

been promptly attended to, preventing thereby any loss of revenue. The cost of repairing each of these damages was comparatively petty varying from Rs 6 to Rs 200. 119⁰

6. 119⁰ Under Sevastamm, Agricultural - Repairs, the original grant was Rs 3,281, of this Rs 197 were given up in the statement alluded to in para 1 supra; but the expenditure up to January has already exceeded even the original grant by Rs 67. A sum of Rs 1,000 is now applied for in addition to the reduced grant of Rs 3,084, to meet demands for emergent repairs.

The total grant for the current year, as sanctioned in G.O. No 2477^N of 14th August/88 is Rs 95,571, to which, if Rs 9,000, now applied for, be added, it will be raised to Rs 1,04,571.

8. I request that steps may be taken to authorize the Examiner to place at the disposal of the Secy. Engineer on the 1st branch next the additional sum now applied for,

33 33 33

in order to meet liabilities which
will otherwise be outstanding
at the end of the year.

I have the honor to be

Sir

Your most obedient servant

J. W. Campbell Major 19th
