ORDER—dated 15th March 1889, No. 620 L., Local and Municipal.

The administration reports of the several District Boards for 1887-88 having been separately reviewed in the Proceedings read above, the Government now proceed to remark upon them collectively.

2. The Government regret to observe that, notwithstanding their repeated directions that special arrangements should be made by the Presidents of District Boards for the punctual submission of these reports, only nine were received on or about the prescribed date, viz., the 15th of July, while the last two (Cuddapah and Nellore) did not come in until the 6th November. The President of the former of these Boards explains that the delay was owing to the preparation of the additional statements called for by Government in May last, while the President of the latter states that the submission of the report was hindered by want of a quorum at the meetings convened for its consideration. These explanations cannot be accepted as satisfactory. As the Government attach great importance to the punctual submission of these reports, they again direct the Presidents of District Boards to make in future such special arrangements as will ensure effect being given to the instructions already issued on this point. Presidents should also see that the reports and the statements accompanying them are prepared more carefully than several of those connected with the past year have been

and that the numerous omissions, errors and discrepancies which have been noticed in reviewing individual reports are in future avoided. A little care in this respect would save much trouble, waste of time and correspondence.

I. GENERAL.

3. *Administration.*—The year under review was the third in which the Madras Local Boards Act V of 1884 was in operation and has been marked by a further extension of the system of decentralisation introduced by that enactment. At the close of 1886-87, 83 Taluk Boards had been constituted, but only 66 were actually at work. During 1887-88 the remaining 17 commenced operations, while two additional Boards were created in the Madura district by a re-adjustment of the limits of the existing Local Fund taluks and by the inclusion of areas formerly under the direct control of the District Board. In Malabar the provisions of the Act were introduced for the first time into the Cochin taluk, to which, through oversight on the part of former Collectors, Local Fund operations had hitherto not been extended. This taluk, though forming a separate revenue division, was not, however, constituted a Local Fund taluk, and is therefore under the direct charge of the District Board. The number of Village Unions at work at the close of 1886-87 was 136. On the 31st March 1888 it had been increased to 218. The rules for the guidance of Local Boards and their agents and officers in matters connected with the carrying out of the provisions of the Act and for the election of members of District Boards by the subordinate Taluk Boards, referred to in the review for 1886-87, came into force in the year now under consideration. Departmental rules were further framed and sanctioned—(*a*) for the guidance of officers in charge of Local Fund Public Works; and (*b*) for the audit of Local Fund accounts, which is conducted by the Treasury Deputy Collectors under the immediate supervision of the Accountant-General, assisted by an inspecting staff. The power of appointing the Chairmen and members of Union Panchayats, which was at the outset retained in the hands of Government, was in June 1887 delegated, under section 160 of the Act, to the Presidents of District Boards, with instructions that Government officials other than village officers and medical subordinates should only be appointed to these bodies under very special circumstances, so that the Panchayats might as far as possible represent the villagers themselves.

G.O., dated 26th June 1886, No. 721 L.F.
" " 28th January 1887, No. 196 L.

G.O., dated 29th June 1887, No. 1231 L.

4. *District Boards.*—These Boards continued as in the preceding year to be 21 in number, corresponding with the mofussil Collectorates, as required by the Act. Each District Board consisted of a President, who is the Collector of the district, and of from 24 to 40 members, among whom the officers in charge of the Revenue divisions of the district are included *ex-officio*. Appendix I shows the constitution of each District Board at the close of the year and the attendance at its meetings. On the 31st March last the 21 Boards contained in all 652 members, against a maximum sanctioned strength of 708. Of these, 77 were *ex-officio* members, 467 were nominated members (81 officials and 386 non-officials), while 108 (19 officials and 89 non-officials) were newly elected by the Taluk Boards under the rules referred to in the preceding paragraph which are given *in extenso* in Appendix II. The following statement compares the above figures with those of 1886-87 :—

—		Nominated officials including the *ex-officio* members (Divisional officers).	Elected officials.	Nominated non-officials.	Elected non-officials.	Total.	Percentage of nominated officials.	Percentage of elected members.
On 31st March ..	1887 ..	146	*Nil.*	439	*Nil.*	585	25·0	*Nil.*
	1888 ..	158	19	386	89	652	24·2	16·6

1202

Under the present election rules one-half the members of each District Board, except in the districts of Kurnool and Nílgiris, where no Taluk Boards exist, will eventually be elected by these latter bodies. The 108 members elected in 1887-88 were nominated by Taluk Boards in the 14 districts marginally-noted. In Chingleput and Coimbatore 11 vacancies were filled by election within the year, but the results were not notified in the *Fort St. George Gazette* until after its close. In Salem and Tanjore no vacancies occurred during the year, and no election was held in Nellore owing to the late period at which the Taluk Boards of that district commenced to work.

Trichinopoly	8
Vizagapatam	10
Total ...	108

5. Each District Board had on an average 31 members, of whom 8 were officials and 23 non-officials, against 7 and 21, respectively, in 1886-87. The South Canara Board consisted on the 31st March of only 23 members, the minimum strength prescribed by the Act being 24, but the vacancy has been since filled. The average number of meetings held by each Board was 10, against 11 in 1886-87 and 13 in 1885-86. The gradual decrease may be accounted for, as in the preceding year, by the diminution of the District Boards' work consequent upon the establishment of Taluk Boards and Union Panchayats; but the Government think that it would be well if each District Board could arrange to meet at least once a month and consider that the resolution of the Coimbatore District Board (passed in July 1887) to hold its meetings once in two months only should be rescinded. The largest number of meetings (15) was held, as in the preceding year, by the District Board of Trichinopoly, while the Boards that met least often were those of Tinnevelly (7 meetings); Kurnool and Vizagapatam (8 each); South Canara, Chingleput, Coimbatore, Cuddapah and Nílgiris (9 each). It is observed that in the districts marginally-noted meetings had to be postponed for want of a quorum. The Tanjore and Kurnool figures are especially unsatisfactory. The President of the Tanjore Board recommended in his report the reduction of the quorum prescribed by the Act (one-fourth of the actual strength of the Board) on the ground that it is too high and causes delay in the despatch of business. The Government were not, however, prepared to adopt this suggestion, as section 24 (1) (ii) of the Act provides for the removal of members who absent themselves from meetings for a period of more than 3 months. Taking all the Boards together, the average attendance at each meeting was, as in the preceding year, 11 members, of whom 2 were officials and 9 non-officials. It was good in South Arcot, being one-half of the total strength, and poor in Cuddapah, Ganjam, Godávari, Kistna, Malabar and Trichinopoly, where it was less than a third of the full number of members. The attendance of the official members was very bad in Anantapur, Godávari, Nellore and Salem, and that of the non-officials taken as a whole cannot be considered satisfactory, since in spite of the increase in numbers as compared with 1886-87, their average strength at each meeting has remained stationary. In reviewing the individual reports, the attention of the Presidents of District Boards has been drawn to the continuous non-attendance of individual members; those who have not furnished satisfactory explanations or shown considerable improvement during the current year should now be recommended for removal. The Government have noticed with special regret that, in some cases, the District Surgeons have been particularly lax in this respect. The attention of the Surgeon-General is drawn to this matter.

6. *Taluk Boards.*—Appendix III shows the constitution and attendance of the Taluk Boards which were at work during the year. Each Board consisted of a President and of from 12 to 20 members, the Revenue officer in charge of the division being *ex-officio* President. As stated in paragraph 3 above, there were at the close of the year 85 such Boards, working in all the districts of the Presidency except Kurnool and Nílgiris. These 85 Boards had on the 31st March last an aggregate strength of 1,143 members, the maximum sanctioned strength being 1,146. 328 of the members were officials and 815 non-officials, all appointed by Government. On an average each Taluk Board consisted of 13 members—4 officials and 9 non-officials. Only two of the Boards, those of Goomsur (Ganjam) and Periyakulam (Madura) contained on the 31st March less than the minimum of members (12) prescribed by the Act. The 85 Boards held altogether 1,062 meetings against 589 held by 66 Boards in 1886-87. The average attendance was, as in the preceding year, 7 members (2 officials and 5 non-officials). As in the case of the District Boards, the three Taluk Boards of Trichinopoly held the largest number of meetings. The Government regret to notice that in no less than 18 cases the Taluk Boards did not meet once a month as required by the Act. The attention of the Presidents concerned has already been drawn to this failure, and it is hoped that it will not recur. Taken as a whole, however, the working of these local bodies has been satisfactory.

7. *Unions.*—The total number of Village Unions constituted up to the end of 1887-88 was 221, of which those noted in the margin did not begin work within the year. The names of the remaining 218 Unions and their constitution are shown in Appendix IV. They are distributed among the subjoined 18 districts:—

Pamidi (Anantapur).
Chellapalli, Narsaraopet, (Kistna.)

Kistna	15		
Kurnool	1		

Unions, in which house-tax was levied, are marked in the Appendix with an asterisk. The only districts in which Unions have not been formed are South Canara, Malabar, and Nílgiris. In the South Canara and Malabar districts it has been found difficult, owing to the rural population living in houses scattered over a wide area, to obtain a working unit corresponding to the revenue village of the East Coast, while the Nílgiri district is not yet sufficiently advanced for the introduction of either Taluk Boards or Union Panchayats. All Unions were under the control of the Taluk Boards, except in Kurnool where no Taluk Boards were in existence and the one Union in the district (Nandyál) was consequently under the direct supervision of the District Board. The affairs of each Union are managed by a Panchayat, consisting of from 5 to 15 members, one of whom is the Chairman. The headmen of all revenue villages included in the Union are members *ex-officio*. The 218 Panchayats had in all 1,910 members out of a sanctioned strength of 1,990, and of these 698 were officials (including village officers) and 1,212 non-officials. The statements called for in paragraph 6 of the last general review, from which the present Appendix IV has been compiled, should in future divide column 4 (official members) into two sub-columns, distinguishing village officers from other officials. The total number of meetings held by these local bodies was 2,127. The small number of meetings shown opposite some of the Unions in Appendix IV is due in many cases to their having commenced

work late in the year, but in several instances, which have been duly noticed in the reviews of the reports of District Boards, the provisions of section 129 of Act V of 1884 which requiries every Panchayat to meet not less than once a month have not been complied with. The worst case was that of the Nuzvíd Panchayat in the Kistna district, which did not hold a single meeting owing to the neglect of his duties by one of the local zemindars who was appointed Chairman. The President of the Bezváda Taluk Board has been called on to explain why he did not, under section 138 of the Act, summon the Panchayat to meet and discharge their functions. The Mangalagiri Union in the same district, and the Shendamangalam Union in Salem, also worked badly owing to factions among the members. With these exceptions, the working of the Unions appears to have been fairly satisfactory, and the management of the Melaviraraghavapuram Union in Tinnevelly by its non-official Chairman may be singled out for special praise. The work of these bodies consists mainly in the supervision of conservancy establishments and the carrying out of local sanitary improvements in the villages under their control; and in some cases the management of elementary schools and markets has been specially transferred to them by the Taluk Boards under section 142 of the Act. The Government have no doubt that these local bodies will, in course of time, afford most valuable assistance towards the advancement of Local Fund administration.

8. *Financial Position.*—Appendices V, VI and VII furnished by the Accountant-General show in detail the receipts and charges of the several Local Boards including the Union Panchayats, while Appendix VIII shows briefly the financial position of the Local Boards of each district. There are some errors of classification in the Accountant-General's statements, and also discrepancies between these and the statements submitted by the District Boards. These have been pointed out to the Accountant-General in a separate order, and the Government trust that the steps reported to have been recently taken by him will prevent their recurrence. The following abstract compares the total results for all Local Boards with those of the previous year:—

—	Actuals of 1886-87.				Actuals of 1887-88.

Total assets ..	53,72,447	27,08,367	73,998	81,54,812	45,09,010	38,50,134	2,07,404	85,66,548
Expenditure ..	38,32,688	19,51,516	73,211	58,57,425	33,47,582	27,28,771	1,97,905	62,74,258
Closing balance ..	*15,39,749	* 7,56,851	* 787	22,97,387	11,61,428	11,21,363	9,499	22,92,290

* The total closing balance of 1886-87 remains as given in the general review for that year, but its distribution between District, Taluk and Union funds has been slightly altered with reference to subsequent adjustments.

Excluding debt heads (Rs. 20,811) and contributions from the Local Boards of one district to those of another (Rs. 2,883), the actual receipts amounted to Rs. 62,45,467 against Rs. 60,83,335 in 1886-87, and the charges to Rs. 62,46,356 against Rs. 58,31,433. The year closed with a balance of Rs. 22,92,290 or 37 per cent. of the actual receipts, of which Rs. 3,39,949 appertained to endowed institutions in charge of the several Local Boards, Rs. 1,06,751 to the Railway Guarantee fund under the Tanjore District Board, and Rs. 7,049 to the Jubilee Museum and Technical

School at Bezváda under the control of the Kistna District Board. All the districts closed with balances to their credit, and these exceeded a lakh in North Arcot (Rs. 1,22,314), South Arcot (Rs. 1,33,110), Coimbatore (Rs. 1,22,009), Godávari (Rs. 1,58,842), Kistna (Rs. 1,81,686), Kurnool (Rs. 1,09,496), Madura (Rs. 1,17,708), Malabar (Rs. 1,72,661), Salem (Rs. 1,42,181), Tanjore (Rs 2,61,155) and Tinnevelly (Rs. 1,86,240). In Tanjore the construction of a railway from Muttupet to Máyavaram under the guarantee of the District Board is under consideration; in Tinnevelly funds are required for the erection of the iron-girder bridge across the Tambráparni at Srívaikuntham; in South Arcot, for the reconstruction of the bridges destroyed by the floods of 1884; while in Salem the President states that money will have to be allotted for the construction of the Talavasal bridge and of dispensary buildings. Proposals should be submitted at an early date by the Presidents of the remaining districts for the utilization of a portion of their large balances on works of public utility.

9. (*a*) *District and Taluk Funds.*—The principles under which receipts and charges are distributed between District and Taluk Boards have been detailed in paragraph 8 of the general review for 1886-87. The only alterations made in 1887-88 were that the whole of the toll revenue and contributions from one district to another were credited to District funds, the share payable to Taluk Boards being shown separately as an allotment from District to Taluk funds, and that the receipts and charges connected with avenues on district roads were shown under District funds and of those relating to avenues on taluk and village roads under Taluk funds.

(*b*) *Union Funds.*—The 218 Unions actually at work raised from house-tax and from market, pandal and other fees an income of Rs. 1,04,953, which was supplemented by contributions from District and Taluk funds to the extent of Rs. 1,01,664. The charges amounted to Rs. 1,97,905, leaving a balance of Rs. 9,499 at the end of the year. Appendix VII groups the Unions of each district together, and it will be seen that those of Anantapur, North Arcot, Bellary, Cuddapah, Ganjam, Kistna, Kurnool and Trichinopoly closed the year with *minus* balances. In North Arcot the deficit was owing to a balance of Rs. 4,865 standing against the Arcot market, which has been transferred to the local Union. The deficits in the other districts were apparently due to allotments made from District and Taluk funds to meet the Union charges not having been fully credited by the Accountant-General. This should always be done in future.

10. *Taxation.*—Appendix IX shows the incidence of Local Fund taxation per head of the population in each district according to the census of 1881. The average for the Presidency was, as in the preceding year As. 2-10, including, and As. 2-6 excluding, tolls. Taxation was lightest in Ganjam (As. 2-1), Malabar (As. 2-2) and Trichinopoly (As. 2-2), and heaviest in the Nílgiris (As. 9-10). The circumstances of this district are peculiar, and in only one other, viz., Kistna (As. 4-5), was the incidence, including tolls, in excess of As. 4 per head.

II. RECEIPTS.

11. *Opening Balance.*—In Appendix X the total receipts of all Local Boards under the several heads are compared with the budget estimates for the year and the actuals of 1886-87. The year opened with a balance of Rs. 22,97,387 against the budget estimate of Rs. 13,45,370. The increase, as compared with the budget figures, was large in Kistna (Rs. 1,35,799), Tanjore (Rs. 1,11,117), South Arcot (Rs. 97,623), Malabar (Rs. 97,152), Madura (Rs. 86,270), Salem (Rs. 63,640), Godávari (Rs. 58,502), Tinnevelly (Rs. 46,902), North Arcot (Rs. 38,283) and Bellary (Rs. 38,815), and was due generally to short expenditure under all grants in 1886-87.

12. *Receipts.*—The total current receipts amounted to Rs. 62,45,467 against Rs. 60,83,335 in the previous year. The following abstract shows the realizations under the several heads of revenue as compared with those of 1886-87:—

—	1886-87.	1887-88.	Percentage of total receipts. 1886-87.	Percentage of total receipts. 1887-88.
	Rs.	Rs.		
Rates and taxes—				
Cess on land	42,87,141	42,62,249	70·47	68·25
Tolls, including the Municipal contributions ..	5,67,520	6,10,936	9·33	9·78
House-tax	36,539	96,489	0·60	1·55
Education—				
School-fees	98,275	1,08,971	1·62	1·75

Other items	16,318	30,075		
Medical—				
Income from endowments	511	721	0·20	0·37
Other items	11,482	22,680		
Interest—				
On Government securities	42,646	45,199	0·78	0·79
On arrears of revenue	4,775	4,270		
Miscellaneous—				
Choultry rents	2,09,037	2,21,626	3·44	3·55
Market rents	67,173	80,764	1·10	1·29
Bungalow fees	11,099	11,847	0·18	0·19
Ferry rents	21,858	22,276	0·36	0·36
Fishery rents	1,13,347	98,601	1·86	1·58
Avenues	53,455	67,636	0·88	1·08
Other items	35,384	31,428	0·58	0·50
Public works	47,978	28,280	0·79	0·45
Contributions from Provincial funds	3,01,305	3,45,154	4·95	5·53
Contributions from Special funds—				
Pound fund	40,251	40,185	0·66	0·64
Canal and Ferry fund	1,12,993	1,13,028	1·86	1·81
Total ..	60,83,335	62,45,467	100·00	100·00

13. *Land Cess.*—The cess on land was levied at the rate of two annas per rupee of the annual rent value in Malabar, and at one anna in the other districts, except South Canara and Godávari, where it was levied at one anna and three pies, and nine pies, respectively. It is by far the most important source of local revenue, the collections under this head amounting to Rs. 42,62,249, or 68·25 per cent. of the total receipts of the year, against Rs. 42,87,141, or 70·47 per cent., in 1886-87. The decrease of Rs. 24,892 was the net result of a falling off, amounting to Rs. 1,89,512 in nine districts, partially counterbalanced by an increase of Rs. 1,64,620 in twelve others. The decrease was large in Madura (Rs. 78,949), Kistna (Rs. 34,222), Ganjam (Rs. 23,727), Salem (Rs. 21,181) and Vizagapatam (Rs. 13,070). In Madura it is attributed to a change in the kistbandi, (instalments of Land Revenue) to the unfavorable character of the season, and to sums having been paid in advance in 1886-87; in Kistna to the fact that the land-cess on certain zemindaries was not settled and credited in the year under review; in Ganjam to the smaller amount of outstanding arrears and to tardiness in the current collections; and in Salem to the arrear demand having been less than in the previous year, which, however, accounts for only a small portion of the whole decrease of Rs. 21,181. In Vizagapatam also the decrease has not been satisfactorily explained. The increase was largest in Cuddapah (Rs. 31,883), Tinnevelly (Rs. 24,596), Godávari (Rs. 23,522), and Kurnool (Rs. 18,451), and was generally due to prompt collections. It was also partly attributable in Kurnool to an increase in the current demand and to a more accurate apportioning of the total revenue collections, and in Tinnevelly to an increase in cultivation and water-tax consequent on a favorable north-east monsoon.

14. Appendix XI shows the demand, collection and balance of the cess, the rates at which it was levied, and the percentage of collection to demand in the several districts. According to this statement, which has been compiled from the district returns, the total collections amounted to Rs. 42,66,536 or Rs. 4,287 more than the amount given above, which has been adopted from the Accountant-General's statements. The difference is, as usual, due to the fact that the Accountant-General's figures, which are compiled from the treasury accounts, show the total collections during the year, including the advance collections for 1888-89, while the district returns show only the collections appertaining to the year under review and those preceding it. In nine

districts the percentage of collections to demand was higher and in a like number lower than in 1886-87, while the aggregate collections of all districts amounted, as in the preceding year, to 91 per cent. of the total demand. Collections were best in South Canara (99 per cent.), Bellary (97 per cent.), Malabar (97 per cent.), Tanjore (97 per cent.), Tinnevelly (96 per cent.), Madura (95 per cent.) and Vizagapatam (95 per cent.); and good in Kurnool (94 per cent.), Anantapur (93 per cent.), Godávari (93 per cent.), North Arcot (92 per cent.), Chingleput (91 per cent.), Kistna (91 per cent.), Trichinopoly (91 per cent.) and Salem (90 per cent.). They were worst in Nellore and Ganjam, where they amounted to only 77 and 84 per cent., respectively, of the total demand, the percentages obtained in 1886-87 having been 87 and 93. The total amount written off the accounts as irrecoverable, chiefly in Anantapur, Nellore and Coimbatore, was Rs. 4,765, against Rs. 7,743 in 1886-87.

15. *Tolls.*—Appendix XII shows the statistics of tolls. During the year under review, tolls were collected at 234 gates against 213 in the previous year, twenty-one additional toll-gates having been opened in North Arcot (1), South Arcot (7), Malabar (1), Tanjore (7) and Vizagapatam (5). In Trichinopoly, an additional toll-gate at Nochiam was opened, but it was closed very soon owing to a flaw in the notification, in consequence of which tolls were collected twice over on traffic from certain directions. In Ganjam, the two gates at Russellkonda and Korakhori were transferred to Kontapalli and Nangam; and in Cuddapah the gate at Pulivendla was removed to another site, so as to catch traffic which hitherto evaded payment. In Nellore, it is stated that tolls were levied at only four gates against seven sanctioned, the reason assigned being that there were no bidders at the sales of the remaining three gates. But, as has been observed in reviewing the report of that district, there was apparently no reason why these gates should not have been managed departmentally. Tolls were levied at the maximum schedule rates at 89 gates, at half rates at 142 gates, and at the remaining three gates at quarter rates. The total gross revenue under this head amounted to Rs. 6,10,936, of which Rs. 4,89,690 was derived from Local Fund toll-gates and Rs. 1,21,246, contributed by municipalities on account of the through traffic tolled by them. The corresponding figures in 1886-87 were Rs. 4,59,828 and Rs. 1,07,692. The increase from the Local Fund toll-gates is due to the additional gates established and to keen competition at the sale of the leases. In South Arcot and Cuddapah there were, however, large decreases amounting to Rs. 7,391 and Rs. 6,132, respectively. In the former district this is ascribed to a falling off in the ground-nut traffic, and in the latter to the gates not having sold so well as in 1886-87. Evasion of tolls is also assigned as a reason in both districts. All the gates in South Arcot and Tanjore, and four gates in Malabar, were managed by departmental agency, while the other gates were leased out by auction to contractors. The Bellary and Godávari Boards maintained no gates of their own, but derived the whole of their toll revenue from municipalities. Proposals have, however, been since submitted by the former Board, and sanctioned by Government, for the establishment of 14 gates. The North Arcot District Board maintained only one toll-gate; the Anantapur, Kistna and Kurnool Boards four gates each; the Chingleput Board five; the Madura Board six, and the Nellore and Tanjore Boards seven each; while the Malabar, South Arcot and Cuddapah Boards had as many as 36, 35 and 24, respectively. It may be noted here, that in Malabar and Nílgiris, the toll-gates situated on the Calicut-Vayitri and Kullar-Gúdalúr roads, both in charge of the Public Works Department, and in Tinnevelly and Trichinopoly toll-gates belonging to the local municipalities, are managed by the respective District Boards who contribute a fixed portion of the receipts—in the first two cases, to Government and in the last two, to the municipalities concerned. In Malabar, Nílgiris and Tinnevelly, the total collections are credited in the District Boards' accounts, and the payments made to Government and the municipalities shown on the expenditure side. In Trichinopoly, on the other hand, the Board only credit in their accounts the share which they actually receive. The practice followed by the other Boards, should be adopted in this district also.

16. Deducting Rs. 40,252, contributed to Provincial and Municipal funds, and Rs. 17,460 spent on establishments, works, &c., the net receipts from tolls

for all districts amounted to Rs. 5,53,224 or Rs. 27-14-10 per mile of road maintained by the Local Boards. The cost of upkeep of these roads being Rs. 102-1-4 per mile, 27 per cent. of the outlay was, as in the preceding year, met from tolls. The average net income per mile was large in Nílgiris (Rs. 63), Chingleput (Rs. 58), Kistna (Rs. 57), South Arcot (Rs. 45), Vizagapatam (Rs. 41) and Ganjam (Rs. 40), and low in Godávari (Rs. 3), Anantapur (Rs. 8), Bellary (Rs. 8) and Kurnool (Rs. 8). In Godávari and Bellary, the portion of the road expenditure recouped from tolls was below 10 per cent., while in South Arcot, Nílgiris, South Canara and Malabar, it ranged from 48 to 64 per cent.

17. *House-tax.*—This tax, which is collected by Union Panchayats to provide for expenditure on sanitation, was in force at the close of the year in 99 unions, situated in 13 districts, as shown below, out of a total of 218 unions in 18 districts:—

Anantapur	9	Madura	23
Arcot, North	3	Salem	8
Arcot, South	3	Tanjore	8
Bellary	13	Tinnevelly	7
Chingleput	4	Vizagapatam	11
Ganjam	4		
Godávari	1	Total ...	99
Kistna	5		

The districts, which contain unions, but in which the tax is not levied, are noted in the margin. The principles which have guided the Government in sanctioning the imposition of this tax have been stated in paragraph 16 of the general review for 1886-87 and need not be again repeated.

Coimbatore.
Cuddapah.
Kurnool.
Nellore.
Trichinopoly.

The Government observe with satisfaction that their anticipation that the opposition to the tax would die away, when it was found that its proceeds were entirely devoted to local objects, has already been to a great extent fulfilled, notably in the case of Tinnevelly, from which a large number of protests were received at the outset. The tax was levied at the maximum schedule rates in 52 unions; at three-fourths rates in 9; at half rates in 36; and at quarter rates in the remaining 2. Appendix XIII shows the demand, collection and balance under this tax in each district. The total demand of the year, inclusive of arrears, amounted to Rs. 1,18,434, of which Rs. 96,537 or 82 per cent. were collected against Rs. 36,965, or 68 per cent. of the demand of that year in 1886-87. The improvement is satisfactory and is noticeable in all districts, except North and South Arcot, Tanjore and Bellary. The percentage of collections to demand was specially good in Kistna (96 per cent.) and Chingleput (94 per cent.), but very poor in Godávari (67 per cent.), Ganjam (56 per cent.), and Vizagapatam (46 per cent.). The short realizations in the last-mentioned three districts appear to be mainly due to the late date at which the collections commenced. The total realizations as given in Appendix XIII, (Rs. 96,537) differ, however, from the amount entered in the statement in paragraph 12 above (Rs. 96,489) by Rs. 48 as shown in the margin. The Presidents concerned are requested to explain the differences.

Anantapur	+ 56
Ganjam	— 5
Godávari	— 3
	—
	+ 48
	—

The incidence of this tax in the several unions in which it was levied, and other particulars connected with its collection are shown in Appendix XIV; but the district returns submitted in accordance with paragraph 16 of G.O., dated 16th February 1888, No. 408-A.L., from which this statement has been compiled, do not seem to have been prepared with sufficient care. In some cases the amounts shown as actually collected, agree with the current collections as given in Appendix XIII; in others, with the total collections, both current and arrears, as entered in that statement. As the form prescribed in the order above quoted was meant to elicit information as to the assessment and incidence of the tax, only the demand and collections relating to the year under report, should be entered therein. Again, in the returns for the Kóttúr Union (Bellary) and the Tirupatur Union

(Madura) the number of distress warrants issued has not been specified, though the amounts involved, viz., Re. 1 in the former case and Rs. 6 in the latter, are given. Such shortcomings should be avoided in future. According to the returns tabulated in Appendix XIV, the total number of houses taxed was 171,522 and the amount assessed Rs. 96,556, the average incidence being As. 9 per house. For the collection of this tax 17,570 warrants were issued, the amount involved being Rs. 12,381. Property was distrained in 575 cases for Rs. 492, but sold in only 63 cases for Rs. 83.

18. *Educational.*—The receipts connected with education amounted to Rs. 1,42,098, against Rs. 1,18,841 in 1886-87, the excess occurring mainly under school-fees and contributions. School-fees brought in Rs. 1,08,971 against Rs. 98,275 in the previous year, the increase being due to the transfer of the Government High school at Chittoor to the North Arcot District Board, to the levy of enhanced fees, and to improved attendance. In Trichinopoly there was a considerable falling off in the receipts under this head owing to the conversion of Board schools on the salary result system into private schools on the combined system. Madura was the only district in which no income was derived from school-fees, the masters of the Boards schools being permitted to appropriate these as part of their remuneration. This system will, however, be discontinued hereafter, instructions having been issued to credit the fees and debit all payments to teachers, in the Local Fund accounts. The sum of Rs. 3,052 shown as "income from endowments," under education, in paragraph 12 above, represents the receipts of the Moyan endowed lands attached to the Female Normal school at Calicut (Malabar), the rent of the lands attached to the Ponnoor school (Kistna), and the interest from the money endowment of the Kulitalai Middle school (Trichinopoly). The last item has been erroneously exhibited under this head by the Accountant-General, whereas it should have been entered under "Interest on Government securities." The sum of Rs. 30,075 shown under "other items," includes Rs. 12,905 derived from the sale of books, and Rs. 8,624, the amount subscribed to the Kistna District Board by the Taluk Boards of the district and private individuals towards the erection of a museum and technical school at Bezváda, as a permanent memorial of Her Majesty's Jubilee.

19. *Medical.*—The receipts under this head, comprising the sale-proceeds of medicines, contributions from municipalities and private individuals for hospitals and dispensaries, and income derived from the endowments of these institutions, &c., amounted to Rs. 23,401 against Rs. 11,993 in 1886-87. The sum of Rs. 721 shown as "income from endowments," in paragraph 12 above, consists of the rent of lands attached to the dispensaries at Vriddháchalam (South Arcot), Saidápet (Chingleput), Tiruvadanai (Madura) and Ponáni (Malabar), and the interest derived from the money endowments attached to the dispensaries at Udayarpálaiyam, Turaiyúr and Perambalúr, all in the Trichinopoly district, which has been erroneously shown by the Accountant-General under this head, instead of under interest on Government securities. Of the sum of Rs. 22,680 shown under "other items," Rs. 11,005 were contributed by private individuals in the districts of North Arcot, Ganjam, Kistna, Madura, Malabar, Nílgiris, Salem, Tinnevelly, Trichinopoly and Vizagapatam. The amounts thus contributed in the two previous years were as shown in the margin. The increase in the year under review is satisfactory.

	Rs.
1885-86	8,145
1886-87	3,542

20. *Interest.*—The total income under this head, comprising interest on Government securities and that on arrears of revenue, amounted to Rs. 49,469 against Rs. 47,421 in the previous year. The increase occurs mainly in Tanjore, owing to the additional investment in Government securities of Rs. 1,00,000 in favor of the Railway Guarantee Fund. Appendix XV shows the various investments in favor of endowed institutions managed by the Local Boards, and the interest derived therefrom, which amounted to Rs. 45,199, * as shown below :—

	Amount of investments. Rs.	Interest. Rs.
(1) Schools	1,13,300	4,397
(2) Dispensaries	1,07,336	3,663
(3) Choultries	3,55,700	13,663
(4) Tanjore Railway Guarantee fund	6,00,000	19,429
(5) Miscellaneous endowed institutions referred to in paragraph 71 below	1,08,021	4,047
Total ...	12,84,357	45,199

* The total given in column 6 of Appendix XV is Rs. 45,167. The notes in column 7 explain how this discrepancy occurs.

1202

In Kistna and Tanjore, income-tax was paid on the amounts invested in favor of the Peddapatam choultry and the Railway Guarantee Fund, notwithstanding the remark in paragraph 19 of the last general review. The Presidents of the District Boards concerned should obtain a refund of the tax thus paid. In Godávari, Kistna, Tanjore and Trichinopoly, the interest due on the amounts invested was not fully drawn within the year. Such omissions should not be allowed to occur in future. In Trichinopoly, the money endowments attached to three dispensaries and a school, are deposited in the Government Post Office Savings Banks. As there would appear to be some difficulty in drawing the interest accruing therefrom every year, the President will report whether it would not be preferable to invest the money in Government promissory notes.

21. *Miscellaneous.*—The income under this head comprising the rents of choultries, markets, bungalows, ferries and fisheries and the receipts from avenues, &c., as detailed in paragraph 12 above, amounted to Rs. 5,34,178 against Rs. 5,11,353 in the previous year. The variations in the several items are explained below :—

(*a*) *Choultry Rents.*—The rents of lands attached to choultries, together with miscellaneous receipts therefrom, amounted to Rs. 2,21,626 against Rs. 2,09,037 in 1886-87. The increase occurs principally in Tanjore, where the major portion of the revenue under this head was realized, and was due to the adjustment of the sum of Rs. 16,882, being the past proceeds of the villages attached to the Nadiyam mutt, as directed in G.O., dated 1st December 1887, No. 1119, R. D. On the other hand, there was a decrease of Rs. 6,447 in Madura, which occurs mainly on the lands attached to the Narikudi and Muttananthal chuttrums, owing to a large quantity of paddy having remained unsold for want of proper bids. There was also a decrease of Rs. 2,028 in Tinnevelly, owing to disputes with the ryots of the village attached to Govindappaiyan's choultry and to failure of the kar crop.

(*b*) *Market Rents, &c.*—In 1886-87 there were 250 markets, including 42 in Tinnevelly, in which fees were levied by Local Boards. In the year under review, the fee system was extended to 29 additional markets ; but in Tinnevelly, the levy of fees was suspended in 16 of the 42 markets above referred to in view of the fact that they were not yet firmly established. The number of markets in which fees were levied in 1887-88 was thus 263. According to the statements received with the various district reports, the opening balance in favor of these institutions at the beginning of the year was Rs. 1,26,050. Excluding this sum, as well as the receipts of two markets in Tanjore, attached to chuttrums, the total market receipts of the year, including miscellaneous items of revenue, amounted to Rs. 83,014 against Rs. 67,411 in 1886-87, and the charges to Rs. 59,662 against Rs. 52,460. Of the total expenditure, Rs. 16,475 were laid out on establishments, contingencies, &c., and Rs. 43,187 on improvements to markets. The balances in favor of markets amounted to Rs. 1,49,402 at the close of the year.* They were specially large in Madura (Rs. 44,762) and Coimbatore (Rs. 43,717). Notwithstanding the remark in paragraph 20 (*b*) of the last year's review, these balances were not utilized to the best advantage of those resorting to these institutions. In reviewing the Madura report, it has been pointed out to the President that if it is

	Rs.
* Opening balance	1,26,050
Receipts	83,014
	2,09,064
Charges	59,662
Closing balance ...	1,49,402

6

not possible to utilize the greater portion of the receipts in making substantial improvements to the markets themselves and in constructing and repairing feeder roads, the levy of fees should be given up, or the rates reduced, until the balances are absorbed, while in the case of Coimbatore, the President has been directed to report, when submitting the ensuing year's budget, what steps he proposes to take to reduce the balances in that district. In this connection, the Trichinopoly District Board have suggested the advisability of attaching an extra Hospital Assistant, paid partly from market funds, to a central dispensary in each taluk, his duty being to attend the principal markets on market days and when not so employed to itinerate in the most important villages according to a fixed programme. The Government remarked thereon that there is no objection to such a plan, provided the market funds are not required for objects which have a prior claim upon them, such as the improvement of the markets themselves and the construction and repair of feeder roads. Taking the rents alone, the amount realized during the year was Rs. 80,764 against Rs. 67,173 in 1886-87. As in the preceding years, the receipts from this source were largest in Coimbatore (Rs. 24,117). Madura comes next with Rs. 16,546 and North Arcot, Trichinopoly, Anantapur and Salem follow with Rs. 9,630, Rs. 6,211, Rs. 4,802 and Rs. 4,577, respectively. The following statement shows the number of Local Fund markets in each of the 21 districts :—

	Markets.		Markets.
Coimbatore	64	Canara, South	2
Madura	46	Kurnool	1
Arcot, North	42	Nilgiris	1
Tinnevelly	42	Vizagapatam	1
Anantapur	15	Chingleput	Nil.
Bellary	13	Ganjam	
Cuddapah...	12	Kistna	
Trichinopoly	12	Nellore	
Arcot, South	11	Tanjore	
Salem	8		
Godávari	6		
Malabar	3	Total ...	279

The income from this source was very insignificant in Nílgiris, South Arcot, South Canara, Kurnool, Vizagapatam and Malabar, there being only 1, 11, 2, 1, 1 and 3 markets, respectively, in these districts, while no fees whatever were levied in Chingleput, Ganjam, Kistna, Nellore and Tanjore. In Nílgiris, a market was started at Naduvattam, and steps are being taken to establish another at Gúdalúr. In South Arcot the President states that there are no regular markets, but that fees are levied on sandais (fairs) which are usually held in shady topes. In South Canara and Malabar, it is stated that proposals are being matured for establishing one and four markets, respectively, while in Kurnool the opening of three additional markets has been since sanctioned. The President, District Board, Chingleput, reports that there are 35 markets in the district, but that they are poorly attended, that the merchants and the people do not take kindly to the fee system, and that the Taluk Boards are therefore disinclined to introduce it. In Ganjam, it is stated that a piece of land has been rented from the Zemindar of Biridi for holding a weekly market at Rambha, but that the fee system was not introduced until after the close of the year. In Kistna, a market was started during the year at Gudiváda but it had to be closed again owing to the prevalence of cholera. Steps are being taken to open markets at 15 other important places. The President of the Tanjore Board reports that though no public markets were established at the cost of Local Funds, yet in several of the important villages weekly fairs are held and the number of such fairs is reported to be sufficient for all local wants. The Presidents of the District Boards of Nellore and Vizagapatam have not reported the measures adopted in this direction. The condition of the existing markets is stated to be generally good, and the fee system meets with no objection from the people resorting to them.

There are, of course, innumerable private markets scattered about the Presidency, over which the Local Boards have no control as the Act at present stands.

(*c*) *Bungalow Fees.*—Excluding the 17 bungalows in South Canara, supported from the "District Officers' Fund," which are not available for use by ordinary travellers, and two more in Tanjore maintained from Chattram funds, there were 257 Local Fund bungalows at the end of 1887-88, against 262 in 1886-87. These were visited by 8,604 travellers, who paid fees amounting to Rs. 11,209, against Rs. 10,602 paid by 7,772 travellers in 1886-87. The expenditure on these bungalows, including public works charges, was Rs. 34,929 against Rs. 25,207 in the previous year. The receipts and charges of the "District Officers' Fund" bungalows were respectively Rs. 638 and Rs. 791.

(*d*) *Ferry Rents.*—The income under this head, derived from the ferries under the control of the Local Boards, was Rs. 22,276 against Rs. 21,858 in 1886-87.

(*e*) *Fishery Rents.*—The receipts from this source amounted to Rs. 98,601, against Rs. 1,13,347 in 1886-87. The decrease occurs mainly in Ganjam, Madura, Tanjore and Kistna. In Ganjam and Kistna, it is attributed to the receipts of 1886-87 having been swelled by the collection of arrears of previous years, and in Madura to the unfavorable season, in consequence of which several tanks, &c., were dry during the greater part of the year. No satisfactory explanation has been afforded for the falling off in Tanjore. Of the receipts under this head, Rs. 93,627 were realized by the Revenue Department and Rs. 4,974 by the Public Works Department.

(*f*) *Avenues.*—The income derived from the rents of avenues and the sale-proceeds of withered trees and clippings amounted to Rs. 67,636 against Rs. 53,455 in 1886-87, while the charges incurred on the plantation and maintenance of avenues were Rs. 70,209 against Rs. 67,248. By far the largest receipts under this head are realized in the Salem district,* and the large increase there obtained as compared with the preceding year is ascribed to the adoption of a new system of farming the extensive tamarind avenues in the Hosúr and Tirupatúr Local Fund taluks by roads, instead of by divisions and taluks as formerly. The President is requested to submit a full report on this subject for the benefit of other District Boards. Appendix XVI shows the statistics of avenue trees in the several districts. Out of 22,620 miles of roads in charge of the Local Boards, 14,614 miles are planted with trees. The number of trees on the 1st April 1887 was 2,263,620; 125,020 trees were planted and 46,292 perished during the year; and the number left at its close was thus 2,342,348. But these statistics, though they seem to be more accurate than those furnished in 1886-87 (*vide* remarks in paragraph 20 (*f*) of the general review for that year), cannot be regarded as wholly reliable. The number of trees planted in Godávari, Kistna, Madura and Salem was large, while in Anantapur, Malabar, Nellore and Trichinopoly the number that perished was in excess of that planted. As remarked in the last general review, the number of trees in the districts of Nellore, Cuddapah, Kurnool, Bellary, Anantapur and Ganjam is not what it should be, and early steps should be taken to increase it. The condition of the avenue trees has not been specially reported in all the districts, but from the reports in which this information is given, it appears that, speaking generally, they are in a satisfactory state.

	Rs.
*1886-87	18,475
1887-88	30,277

(*g*) The other items of miscellaneous receipts, excepting contributions from private individuals referred to in paragraph 72 below, call for no remarks.

22. *Public Works.*—The income under this head amounted to Rs. 28,280 against Rs. 47,978 in 1886-87. The receipts of that year were abnormally swelled by payments to the Madura District Board from the Madura Municipality on account of the Vaigai bridge.

23. *Contributions from Provincial Funds.*—The receipts under this head amounted to Rs. 3,45,154, against Rs. 3,01,305 in the previous year, and were paid for the following purposes :—

	1886-87.	1887-88.
	RS.	RS.
(*a*) Public works	2,07,980	1,68,030
(*b*) Schools	36,655	52,724
(*c*) Hospitals and dispensaries	4,786	4,906
(*d*) Choultries	33,330	34,096
(*e*) General purposes	17,000	24,620
(*f*) Refunds	1,554	60,778
Total ...	3,01,305	3,45,154

(*a*) The grants for public works were given to the Boards of South Canara, Madura, Malabar, Nílgiris and Vizagapatam. The South Canara Board received a grant of Rs. 33,500 in final payment of the sum of Rs. 38,000 sanctioned for the construction of the Bisli ghât road on the representation of the Chief Commissioner of Coorg. The Madura Board received Rs. 60,000 towards the construction of the Vaigai bridge, and the Malabar Board Rs. 10,000 for the upkeep of the roads in Wynaad. A grant of Rs. 64,380 was made to the Nílgiri Board for the upkeep of the district roads, and the Vizagapatam Board received Rs. 150 for the repair of the school building at Yellamanchili.

(*b*) Of the grant for schools, Rs. 51,764 were paid by the Director of Public Instruction under the Grant-in-Aid Code on account of Government schools transferred to local management and other secondary Board schools, and the remainder (Rs. 960) was the allowance made for the support of the Yeomiah school at Arcot transferred to the North Arcot District Board in 1884.

(*c*) The grant of Rs. 4,906, on account of hospitals and dispensaries, was made up as follows:—

(1) Rs. 2,066 contributed from the Arcot Langarkhana Fund to the North Arcot District Board towards the upkeep of the Ranipet dispensary; (2) Rs. 80 contributed to the Ramnad Taluk Board (Madura) on account of medicines used in the treatment of police constables in the Local Fund dispensary at Ramnad; (3) Rs. 120 paid to the Palni Taluk Board (Madura) on account of medicines for the Local Fund dispensary at Kodaikánal; (4) Rs. 2,640 paid to the Tanjore District Board towards the maintenance of the Raja-Mirassidar Hospital at Tanjore.

(*d*) Grants amounting to Rs. 34,096 were, as usual, paid to the Anantapur, North Arcot, South Arcot, Coimbatore, Kurnool, Madura, Nílgiris, Salem, Tanjore and Tinnevelly Boards on account of choultries. These grants were in most cases given in lieu of emoluments from lands originally assigned to the choultries by their founders, but subsequently resumed by Government.

(*e*) The South Canara and Nílgiri Boards received grants amounting to Rs. 5,000 and Rs. 19,620, respectively, for general purposes, in consideration of the paucity of their funds.

(*f*) Nearly the whole of the sum of Rs. 60,778, shown under the head "Refunds," represents repayments to District Boards of their contributions towards the cost of Deputy Inspectors of Boys' Schools—a charge which was imposed on them with effect from 1st April 1887—, but of which they were subsequently relieved. A sum of Rs. 336 is stated by the Accountant-General to be the refund to the Tinnevelly District Board of the moiety of the pay, &c., of the Deputy Inspector of Girls' Schools. As no corresponding credit appears in the District Boards' accounts, this entry should be more fully explained.

24. *Contributions from Special Funds*—(*a*) *Pound Fund.*—The share of the Pound Fund surplus transferred to Local Funds was Rs. 40,185, against Rs. 40,251 in 1886-87. There were considerable increases in Chingleput (Rs. 2,066) and Malabar (Rs. 1,149), counterbalanced by decreases in Kistna (Rs. 2,446) and Kurnool (Rs. 942).

(*b*) *Canal and Ferry Fund.*—The surplus of the collections at the ferries in South Canara, Kistna, Malabar, Tanjore and Trichinopoly, to which the Canal and Ferry Act 1 of 1870 was extended, which were handed over to the respective Local Boards,

amounted to Rs. 1,13,028 against Rs. 1,12,993 in 1886-87. The bulk of the revenue under this head was, as usual, raised in Malabar, where it amounted to Rs. 71,307 against Rs. 78,883 in the previous year. South Canara comes next with Rs. 23,721 and Trichinopoly follows with Rs. 12,000.

25. *Contributions from Municipalities.*—Sums amounting to Rs. 9,061 against Rs. 18,106 in 1886-87 were received for the following purposes and are included under those heads in the statement in paragraph 12 above:—

	1886-87.	1887-88.
	RS.	RS.
Education	1,913	4,953
Medical	2,899	3,204
Public works	12,809	600
Miscellaneous	485	304
Total ...	18,106	9,061

III.—EXPENDITURE.

26. Excluding debt heads and contributions from one district to another, the total expenditure from Local Funds amounted to Rs. 62,46,356 against Rs. 58,31,433 in the previous year. The following abstract compares the expenditure under the several heads and the percentage of outlay under each grant with the corresponding figures for the previous year, while Appendix XVII shows, in detail, the total expenditure, as compared with the budget estimates and the actuals of 1886-87:—

Grants.	1886-87.	1887-88.	Percentage.	
			1886-87.	1887-88.
	RS.	RS.		
Grant I—				
Communications	26,41,425	28,84,493		
Buildings	1,20,169	1,47,824

Total, Expenditure ..	58,31,433	62,46,356	100	100

GRANT I.—PUBLIC WORKS.

27. Appendix XVIII shows the particulars of the outlay on public works and the cost of the supervising establishments, including contingencies and tools and plant. The total outlay on works amounted to Rs. 31,90,311, against Rs. 28,81,810 in 1886-87. The expenditure on communications alone, was Rs. 28,84,493 or 88 per cent. of the total allotments against Rs. 26,41,425 or 83 per cent. in the previous year. Of the former sum, Rs. 27,39,822 were expended by the Engineering establishments employed by the Local Boards and the remainder (Rs. 1,44,671) by the Public Works Department, chiefly on the Vaigai bridge, the Cumbum-Gúdalúr ghât road and the rear revetment of the lake at Kodaikánal, all in the Madura district, and on roads running along tank bunds and channel banks in the districts of South Arcot, Ganjam, Godávari, Kistna, Nellore, Tanjore and Trichinopoly. The expenditure on the construction and repair of buildings amounted to Rs. 1,47,824, against Rs. 1,20,169 in 1886-87, and that on miscellaneous public improvements, relating to avenues, markets, tanks, wells, &c., to Rs. 1,57,994, against Rs. 1,20,216. The latter sum includes Rs. 1,138 spent by the Public Works Department in Madura and Malabar.

28. The ratio to sanctioned allotments of the total outlay on public works, executed by the Local Fund Engineering establishments, shows a continuous and satisfactory improvement, having risen from 80 per cent. in 1885-86 and 83 per cent. in 1886-87 to 85 per cent. in the year now under review. The percentage was specially good in Vizagapatam (97), North Arcot (96), Chingleput (94), Coimbatore (94), Ganjam (94) and South Canara (93), but unduly low in Kurnool (60) and Malabar (63). The explanations furnished for the short outlay by the last two Boards will be found in Appendix XVIII. The Kurnool Board has been censured for inadequate expenditure under this head in the last two general reviews but without producing any improvement. The President will now submit a special report on the measures he proposes to take to improve the work of his Engineering establishment. The President of the Malabar Board has already been told in the review of his administration report that the excuse given for the short outlay in his district are in most cases not sufficient.

29. *Important Projects.*—The following are the most important public works projects under execution by Local Boards during the year :—

District.	Project.	Amount of estimate.	Outlay in previous years.	Outlay during the year.	Remarks.
		Rs.	Rs.	Rs.	
South Arcot ..	The construction of a masonry bridge across the Ponniár river on the road from Cuddalore to Pondicherry.	1,66,100	..	14,959	It has been decided in the current year to carry out the work as a Government one on condition of the Board paying Rs. 1,00,000 within three years.
Ganjam ..	The construction of a road from Mahendratanaya river to Goppili.	66,650	55,062	3,000	This is an old work, sanctioned in 1877 and handed over by the Public Works Department to the Board on the transfer of agency. It is hoped to finish it in two or three years.
Malabar ..	The reconstruction of an iron-girder bridge across the Irriti river.	95,248	61,199	28,262	The bridge was completed and opened for traffic on the 8th December 1887.
	The reconstruction of an iron-girder bridge across the Merumpoya river.	67,412	44,313	19,643	The bridge was completed and opened for traffic at the close of the year.
Madura ..	The construction of the Vaigai bridge.	3,21,460	47,075	1,21,759	The execution of this work is now entrusted to the Public Works Department. Of the total cost, Government contribute Rs. 60,000 and the Madura Municipal Council Rs. 30,000.
Tinnevelly ..	The construction of an iron-girder bridge across the Támbraparni at Srivaikuntham.	1,10,000	16,719	11,019	Of the total amount required for this work, Rs. 35,000 were obtained as a loan from the Taluk Endowment funds. It is proposed to obtain a loan of Rs. 35,000 from the Etaiyápuram Zemindar and to meet the remainder from District General funds.

1202

30. *Roads.*—Excluding the Calicut-Vayitri road in Malabar and the Mettupálaiyam-Gúdalúr road in Nílgiris, which are in charge of the Public Works Department, the mileage and cost of roads constructed and repaired from Local Funds during the year are shown in appendix XIX. These roads have been classified in accordance with the principle laid down in G.O., dated 28th April 1887, No. 753 L., and referred to in paragraph 28 of the previous year's review. The following abstract shows the total length of roads under the control of the Local Boards at the commencement of the year and of those maintained by them during the year, with the cost of their maintenance :—

		Mileage of roads under Local Boards at the commencement of the year.	Mileage of roads maintained.	Cost of maintenance.	Mileage of new roads completed during the year.	Cost of new roads completed.	Mileage of roads under construction.	Cost of roads under construction.
				Rs.		Rs.		Rs.
1886-87 ..	Village	1,789	1,275	67,780	141	29,483	1	924
	Taluk	8,736	8,094	6,63,310	29	42,922	87	26,276
	District ..	10,714	8,898	11,90,815	64	2,02,666	119	93,935
	Total ..	21,239	18,267	19,21,905	234	2,75,071	207	1,21,135
1887-88 ..	Village	* 3,558	2,393	1,27,661	25	18,366	21	4,202
	Taluk	* 9,448	8,538	6,90,476	29	1,11,576	53	17,804
	District ..	* 9,614	* 8,880	12,04,206	61	1,38,074	141	63,589
	Total ..	* 22,620	19,811	20,22,343	115	2,68,016	215	85,595

* Variations as compared with 1886-87 due to more accurate statistics received.

The expendture on new roads, including those in progress but not yet opened, was large in Kistna (Rs. 2,03,569), Tinnevelly (Rs. 35,249), Godávari (Rs. 29,748), and Kurnool (Rs. 20,585); but in Kistna a large part of the expenditure shown under this head was really devoted to the improvement of existing communications, many of which were raised or metalled for the first time. The outlay on village roads exhibits some improvement, being 6 per cent. of the total outlay on roads against 4 per cent. in the previous year. The average cost of maintaining each mile of road was Rs. 102 for all districts taken together. It was very high in Kistna (Rs. 199), Nellore (Rs. 185) and Chingleput (Rs. 154), and low in South Canara (Rs. 51), Anantapur (Rs. 56) and Malabar (Rs. 60). In some of the districts the average cost of constructing each mile of road in the year under review differs widely from the corresponding figure for the previous year as shown below :—

	1886-87.	1887-88.
	Rs.	Rs.
Village Roads.		
Chingleput	68	250
Cuddapah	163	785
Godávari	1,582	967
Kistna	335	1,782
Nellore	903	2,112
Salem	479	207
Tinnevelly	42	489
Taluk Roads.		
Godávari	777	1,243
Trichinopoly	342	169
District Roads.		
Vizagapatam	19,589	2,916

The Presidents of the District Boards concerned are requested to explain the differences. In fourteen out of the twenty-one districts the condition of the roads appears to have been generally good; but in Kistna, Nellore, Kurnool, North Arcot, Trichinopoly and Madura this was, unfortunately, not the case. No information has been given in regard to Tanjore. In Cuddapah a new system of road management was introduced during the year under which certain selected lines were given out to contractors who undertook to keep them in good order. The Pre-

9

sident states that it is too soon to express a definite opinion as to the success of this system, but that its working is being carefully watched.

31. *Buildings.*—The expenditure on civil buildings amounted to Rs. 1,47,824 against Rs. 1,20,169 in the previous year as shown below :—

	1886-87.	1887-88.
	RS.	RS.
Schools	16,884	23,204
Hospitals and dispensaries	28,278	42,287
Choultries	30,876	34,946
Bungalows	21,749	25,410
Office buildings, &c.	3,718	2,460
Miscellaneous	18,664	19,517
Total ...	1,20,169	1,47,824

32. The following were the most important works completed during the year :—

District.	Buildings.	Total estimate.	Expenditure in 1887-88.	Remarks.
		RS.	RS.	
South Canara ..	Travellers' bungalow at Gurpur	2,200	1,947	
Godávari	Chuttrum at Tallapudí	2,050	15	
Nílgiris	Devala bungalow and outhouses	2,000	1,823	
Trichinopoly ..	Constructing a dispensary at Ariyalúr ..	3,500	3,152	
Kistna	Do. a school-house at Gudiváda ..	4,200	2,738	
	Do. a choultry at Nandigáma ..	2,315	266	
	Do. a school-house at Nandigáma ..	3,670	2,064	Work completed but payment not yet made.
Nellore ..	Do. do. at Gúdúr ..	4,958	1,110	
	Do. a dispensary at Gúdúr ..	3,235	414	
	Do. a choultry at Dugarázpatnam ..	4,330	3,288	
	Do. a school-house at Kávali ..	4,659	344	
	Do. a dispensary at Kávali ..	3,055	222	

33. *Miscellaneous Public Improvements.*—The expenditure under this head amounted to Rs. 1,57,994 against Rs. 1,20,216 in 1886-87 as shown below :—

	1886-87.	1887-88.
	RS.	RS.
Markets	21,549	28,372
Tanks and wells	17,665	28,908
Sanitary works	1,288	5,850
Chuttrum irrigation works	7,283	10,387
Avenues	67,248	70,209
Miscellaneous	5,183	14,268
Total ...	1,20,216	1,57,994

34. *Establishment and Contingencies.*—The expenditure of Rs. 6,06,155 shown under this head in the statement given in paragraph 26 above, is composed of the following items :—

	RS.
(1) Local Fund Engineering establishments, including contingencies	5,38,345
(2) Public Works Department for supervision of works	29,321
(3) Do. for scrutiny of plans and estimates ...	24,233
(4) Toll and ferry establishments	14,256
Total ...	6,06,155

Each District Board maintains a separate Engineering establishment for the execution of public works. These establishments worked under the direct control of the District Boards, the Taluk Boards generally contributing to their cost in proportion to the outlay from Taluk funds on public works. The total charges of these establishments, including contingencies, amounted to Rs. 5,38,345 or 18 per cent.

	Per cent.
Malabar	29
Kurnool	24
Bellary	21
South Canara	21
Nellore	21
Nílgiris	21

of the outlay on works during the year, against Rs. 5,32,277 or 19 per cent. in 1886-87, the maximum proportion fixed by rule being 20 per cent. In the six districts noted in the margin, this maximum was exceeded, owing mainly to short outlay on works. The President, Malabar Board, states that owing to the peculiar circumstances of that district, he does not consider any material reduction in the establishment charges feasible. The question is, however, being considered by the Taluk Boards of the district, and a further report is promised. In Nellore the services of a sub-divisional officer have been dispensed with and the President states that no further reduction is possible. Proposals have been received from Kurnool for the revision of the establishment in that district, but they have been remitted to the Board for reconsideration. In the other districts the Engineering establishments should be required to show better results in future. On the other hand, the cost of establishment in South Arcot, Kistna, Madura and Tinnevelly was commendably low, being only 10, 12, 15 and 15 per cent., respectively, of the outlay on works.

35. Rs. 29,321 were paid to the Public Works Department for the execution of Local Fund works entrusted to their charge in Godávari, Kistna, Madura, Malabar, Nellore and Trichinopoly. Contributions, amounting to Rs. 24,233, were further paid to the Public Works Department for the scrutiny of important Local Fund plans and estimates. This sum, although considerably less than the amount paid in the previous year (Rs. 29,263), is still Rs. 2,983 more than the lump contribution of Rs. 21,250 a year paid up to 1886-87. The question of reducing the rate referred to in the previous year's review, is under consideration and will shortly be disposed of.

The cost of the toll and ferry establishments amounted to Rs. 14,256, against Rs. 13,719 in 1886-87.

36. The expenditure on tools and plant was Rs. 27,264, or, as in the preceding year, 0·8 per cent. of the outlay on works. The charge on this account was high in Nílgiris (1·9), South Canara (1·8), Nellore (1·8), and Anantapur (1·4). The Boards concerned should see that the cost does not exceed the maximum proportion of 1 per cent. in future.

37. *Contributions to Provincial, Municipal and other Funds.*—The following are the most important contributions made during the year :—

(a) To the Public Works Department.

	RS.
One-third of the tolls collected on the Kullar-Gúdalúr road (Nílgiris) in charge of that department	9,562
The net receipts from the tolls on the Calicut-Vayitri road (Malabar), which is in charge of that department	10,444

(b) To the Madras Railway Company.

Third instalment of the contribution of Rs. 1,12,500 promised by the Malabar District Board on account of the Ferokh and Kullai bridges.	28,000

(c) To Municipalities.

By the Malabar District Board to the Tellicherry Municipality : one-fourth of the receipts from the Kotuvalli toll for the period during which it was conducted as a ferry, from 23rd February 1882 to 17th February 1887, as directed in G.O., dated 18th November 1887, No. 1218 M.	6,661
By the Tinnevelly District Board to the Tinnevelly and Palamcottah Municipal Councils on account of their share of the tolls levied by the Board	9,150
By the Vizagapatam District Board to the Vizagapatam Municipality towards the cost of the Pontoon bridge at Vizagapatam ...	25,000

As stated in paragraph 33 of the last general review, the balance of the famine debt still due by District Boards, namely, Rs. 12,730, has been ordered to be adjusted against Provincial funds.

Grant II.—Education.

38. The educational operations of Local Boards are mainly confined to the maintenance and aid of elementary boys' schools. Out of 1,321 Local Fund schools in existence at the close of the year under review, all but 88 were primary, and the aided schools were almost, without exception, of this class. There are a few Local Fund girls' schools and in some of the institutions maintained and aided by Local Boards, girls are allowed to attend along with the boys; but, speaking generally, female education, both primary and secondary, is a charge on Provincial Funds: out of 46,244 pupils attending Board schools during the year only 5,781 were girls.

39. Excluding the cost of constructing and repairing school buildings (Rs. 23,204), shown under Grant I, the total expenditure by Local Boards on education was Rs. 7,34,061 against Rs. 6,45,776 in 1886-87, as shown below. The large increase under contributions is merely nominal, the sum of Rs. 60,244 contributed to Provincial funds on account of Deputy Inspectors of Schools having been subsequently refunded by Government:—

	1886-87. Rs.	1887-88. Rs.
Inspection	57,186	57,710
Training schools	70,603	79,255
Local Fund schools—		
(*a*) Secondary—		
(1) Salary system	94,098	1,05,157
(2) Salary result system	20,756	19,996
(*b*) Primary—		
(1) Salary system	50,616	54,051
(2) Salary result system	1,33,527	1,33,840
Grant-in-aid schools—		
(*a*) Salary grants	1,336	15,201
(*b*) Combined grants	27,898	14,331
(*c*) Result grants	1,66,052	1,67,212
Contributions	2,414	60,795
Purchase of books	16,997	13,570
Miscellaneous	4,293	12,943
Total ...	6,45,776	7,34,061

Appendix XX* shows the receipts and charges of the several schools, but does not include the receipts from the sale of books, contributions from Municipalities on account of inspection of municipal schools, or charges connected with the purchase of books, educational inspection and other miscellaneous items.

40. *Inspection.*—The educational operations of the Local Boards were, as usual, supervised by Deputy Inspectors of Schools and Inspecting Schoolmasters. In G.O., dated 23rd November 1886, No. 1214, Financial Department, it was ruled that one-half the pay and allowances of Deputy Inspectors and their establishments was to be contributed, from the 1st April 1887, by the District Boards to Provincial Funds, but this charge was, as already stated, subsequently remitted (G.O., dated 9th January 1888, No. 24 F.), and the whole cost of the Deputy Inspectors continued to be paid from Provincial Funds. Excluding three Deputy Inspectors under the direct control of the Inspectress of Girls' Schools, there were 69 of these officers employed in Local Fund districts against 68 in 1886-87, the increase resulting from the constitution of a new range in Salem. There were 130 Inspecting Schoolmasters, paid entirely from Local Funds, against 125 in the previous year. These officers, who were maintained at a cost of Rs. 57,710 against Rs. 57,186 in 1886-87, visited 16,446 villages and prepared 15,770 schools for examination, the corresponding figures for the previous year being 14,661 and 14,948. Taken as a whole, the work of these officers, who were employed in all districts except North Arcot and Nílgiris, appears to have been fair.

* This has been compiled from Statements IX and X, prepared in the forms prescribed in G.O., dated 8th May 1888, No. 859 L., and submitted with the District Boards' reports. The financial transactions exhibited therein do not agree in some cases with the figures furnished by the Accountant-General and printed as Appendices V and VI of the review. The figures given in paras. 41 to 48 and 51 have been adopted from Appendix XX.

41. *Training Schools.*—Excluding the four "Sessional" schools in South Canara, which will be dealt with later on, there were 32 training schools for elementary teachers maintained by the several District Boards, against 35 in the preceding year, the decrease being due to the amalgamation of schools in Chingleput, Salem and Cuddapah. Every District Board maintained at least one of these schools, while in Malabar there were no less than five, of which the one at Calicut, maintained from the Moyan Endowment Funds, was for females. In all, there were 833 students under training during the year against 857 in 1886-87. Of these, 795 were stipendiary students, paid from Local Funds, and the remaining 38 were either free pupils, or were paid for by Municipalities. Excluding the school at Chicacole (Ganjam), from which no pupils would appear to have been presented for examination, and another school in Malabar, referred to below, 637 pupils appeared from 30 schools for the Special Upper Primary examination, of whom 406 or 64 per cent. passed. The corresponding figures for 1886-87 were—examinees 692, passes 448, percentage of passes 65. The decrease in the percentage of passes in the year under review appears to have been owing to increased severity in the examinations. The number of pupils who were presented for this examination was very small in Cuddapah (6 out of 15), in South Canara (5 out of 21) and Nílgiris (5 out of 10), and in the last district only one pupil passed. The examination results were best in Anantapur, Malabar and Tanjore, and worst in Ganjam, Nílgiris and Vizagapatam. The Government in reviewing the reports of the last two districts have directed the Boards to take steps for the improvement of their schools. The total cost of these institutions was Rs. 78,171 against Rs. 70,300 in 1886-87. Excluding provincial grants, school-fees and other miscellaneous receipts, their net cost amounted to Rs. 53,146, or Rs. 131 for each successful student against Rs. 110 per student in the previous year. The increase is unsatisfactory. The average cost was lowest in Trichinopoly (Rs. 22), Godávari (Rs. 44), and Tinnevelly (Rs. 60); moderate in Chingleput (Rs. 88), Anantapur (Rs. 97), and Tanjore (Rs. 98); but very high in Nílgiris (Rs. 709), Cuddapah (Rs. 522), Ganjam (Rs. 463), Vizagapatam (Rs. 231), South Canara (Rs. 190), and Malabar (Rs. 180). In the last-mentioned district the average was raised by one of the schools which was newly opened in 1886-87 not having sent up any pupils for examination during the year. In Ganjam the Chicacole school above referred to sent up no pupils, and in this district as well as in Nílgiris, Cuddapah, Vizagapatam and South Canara the high averages were due to the small number of students presented for examination and to the few passes obtained.

42. In addition to their regular normal school, the South Canara District Board maintained four "Sessional" schools, at which 27 village schoolmasters and 17 stipendiary students were instructed in methods of teaching and prepared for the Special Upper Primary examination for some two months in the year. The examination results of these schools were, however, not so satisfactory as could have been wished, only 18 out of 40 students having passed the terminal examination, and 2 out of 10 the Special Upper Primary examination. The total cost of the schools was Rs. 366 against Rs. 303 spent on three such schools in 1886-87. In paragraph 37 of the general review for 1886-87, it was remarked that these institutions were well worthy of imitation in other districts, and the Government are glad to observe that steps have now been taken towards the establishment of similar schools in Coimbatore, Madura and Tinnevelly.

43. *Technical Schools.*—A carpentry class was opened by the South Arcot District Board in connection with their normal school at Villapuram. Although open also to the pupils of the Board High school in the town, it was attended during the year only by normal school students, and five of these are reported to have attained a fair standard of proficiency. Another class of this kind was started, as a tentative measure, for six months in a lower secondary Board school at Suramangalam (Salem), and the period has since been extended to one year. Steps are being taken by the Kistna District Board to open a technical school, towards which considerable sums were subscribed by the public on the occasion of Her Majesty's Jubilee.

44. *Secondary Schools.*—At the close of 1886-87, there were 100 Local Fund Secondary schools. During the year under review, 15 of these were reduced to the footing of Primary schools, or transferred to private agency, as shown below:—

District.	Name of Middle school closed or transferred.	Remarks.
Anantapur	Tadpatri	Converted into a Primary school, owing to diminished attendance and bad results.
Arcot, North	Yeomiah school at Arcot ..	Converted into Primary schools, owing to the withdrawal of boys from the middle department in consequence of the introduction of the higher rate of school fees.
	Avalconda	
	Narayanavaram	
	Kalahasti	
Arcot, South	Bhuvanagiri	Converted into a Primary school, but no reason has been assigned for this.
Kistna	Tiruvúr	Converted into Primary schools, owing to the collapse of the middle departments on the introduction of enhanced rates of fees.
	Dachepalli	
	Narsaraopet	
	Krosúr	
Tinnevelly	Tenkasi	Converted into Primary schools, owing to diminished attendance consequent on the introduction of the new scale of fees.
	Tirukurangudi	
Trichinopoly	Kattuputhur	Converted into private schools on the combined system from the beginning of the year.
	Perambalúr	
	Udayarpalaiyam	

On the other hand the Government High School at Chittoor was transferred to the North Arcot District Board; a private Middle School at Vallam in the Tanjore district was taken over by the Local Board; and a Local Fund primary school at Narasapatnam (Vizagapatam) was raised to the middle standard. The Kurnool District Board also opened a new middle school at Cumbum, but it proved a failure and had to be reduced to the primary standard before the end of the year. The total number of Local Fund secondary schools in existence, on the 31st March 1888, was thus 88,* viz., 1 College, 9 High schools, and 78 Middle schools, the corresponding figures of the previous year being 1, 4 and 95, respectively. The single collegiate institution was the Sanskrit College attached to the Kalyanamahal chattram at Tiruvádi (Tanjore). This was attended by 108 pupils, who were, as usual, examined by the Head Pandit of the Kumbakónam College. The examination results were satisfactory. The following statement shows the number and working of the High and Middle schools in the several districts:—

Number.	Districts.	Grade of schools.	Number of schools.	Number of pupils on the 31st March 1888.	Matriculation Examination.		Middle School Examination.

* Strictly speaking it was only 87, as a Board Middle School at Madanapalli was transferred to private agency on the 13th March 1888. But as it was worked by the Taluk Board for practically the whole of the year under review, it is entered as a Board school in the returns.

1202

The 9 High schools were those of Chittoor (North Arcot), Villupuram (South Arcot), Harpanahalli (Bellary), Udamalpet and Dhárápuram (both in Coimbatore), Amalápuram (Godávari), Námakal (Salem), Tiruvalúr (Tanjore) and Lálgudi (Trichinopoly). Five of the schools sent up pupils for the Matriculation examination, of whom 32 passed out of 71 presented. Of the 78 Middle schools, 42 were of the 1st grade and prepared pupils for the Middle School examination, 471 candidates were sent up, of whom 223 passed. The results of the schools noted in the margin were very bad and call for the careful attention of the Local Boards concerned. It is satisfactory to notice that the Middle schools at Viravásaram (Godávari), Tenali (Kistna) and Répalle (Kistna) passed all their candidates.

45. Taking the various departments of schools (Upper Secondary, Lower Secondary, Upper Primary, Lower Primary) separately, as is done in Appendix XX, the following statement shows the strength and cost of the Secondary departments of the schools referred to in the last paragraph:—

—	Number.	Attendance on 31st March 1888.	Net expenditure after deducting school fees, contribution from Provincial Funds, &c.	Average net cost per pupil.
			Rs.	Rs. A. P.
Upper Secondary Schools and Departments (including the Tiruvádi College).	10	298	3,017	12 5 4
		Nil.		
(a) On salary system				
(b) On salary result system				
Lower Secondary Schools and Departments.	65	2,377	12,032	5 13 8
	22	417	*Nil.*	*Nil.*
(a) On salary system				
(b) On salary results system				

* The aggregate receipts exceeded the total expenditure by Rs. 132.

The net expenditure on upper secondary education was highest in Godávari (Rs. 50 per pupil), and was also above the average in Coimbatore (Rs. 21), while in Bellary the District Board maintained the Upper department of their High school at a profit of Rs. 27. Excluding Coimbatore and Malabar,† where these institutions were worked at a profit, Lower Secondary schools on the salary system cost least in South Arcot (annas 8 per pupil), and Trichinopoly (annas 10 per pupil), but were unduly expensive in Anantapur (Rs. 22), Cuddapah (Rs. 20), Ganjam (Rs. 18) and Tanjore (Rs. 18). The Lower Secondary schools and departments, maintained on the salary result system, were, on the whole, more than self-supporting, owing, mainly, to the schools in South Canara and Vizagapatam having worked at an aggregate profit of Rs. 2,053. In the remaining districts ‡ in which these schools and departments worked, the average net cost of educating each pupil was large and should be reduced.

46. *Primary Schools.*—Excluding 33 schools attached to the training schools as practising departments, there were 1,189 Local Fund Primary schools at the close of

12

1886-87. This number was raised to 1,233 in the year under review, the total increase being the net result of an increase of 130 schools in 14 districts and a decrease of 86 in 4 others, as shown below :—

Number.	Districts.	Number of primary schools in 1886-87.	Number of primary schools in 1887-88.	Increase or decrease.
1	Anantapur	7	12	+ 5
2	Arcot, North	57	61	+ 4

	Total ..	1,189	1,233	+ 44

In South Canara, the Taluk Boards started 28 Canarese and 7 Hindustani salary results schools in place of the old combined system schools, which had been abolished in the previous year. In Godávari, 31 schools were closed on account of poor attendance. In spite of this, the district, at the close of the year, contained no less than 207 Primary Board schools on the salary system and 182 on the salary result system. In regard to Kistna, the President, District Board, is requested to report whether the 18 fresh schools shown are really new institutions, or converted aided schools. In Madura, the increase is due to the correct classification as Board salary results schools, of schools which were formerly shown as "combined." In Trichinopoly, 50 Board schools, which had been maintained on the salary result system, were converted into private schools on the combined system from the beginning of the year under review. The progress of these schools was, on the whole, satisfactory.

47. The following statement shows the aggregate strength and cost of the Upper and Lower Primary departments of Board schools, taking into account, not only the schools mentioned in the last paragraph, but also the primary classes of Middle and High schools :—

—	Number.	Attendance on 31st March 1888.	Net expenditure after deducting school fees and other receipts.	Average net cost per pupil.
			Rs.	Rs. A. P.
Upper Primary Schools and Departments.				
(*a*) On salary system	179	2,736	16,181	7 1 10
(*b*) On salary results system ...	507	3,202	15,452	5 10 10
Lower Primary Schools and Departments.				
(*a*) On salary system	284	8,688	35,482	4 13 5
(*b*) On salary results system ...	994	28,526	91,394	3 15 5

The net cost of upper primary classes was unduly high in the following districts :—

	Average cost per pupil. (*a*) In salary schools.	(*b*) In salary results schools.
	Rs.	Rs.
Cuddapah	27	35
Nellore	16	15
Vizagapatam	15	...
Bellary	14	19
Anantapur	...	11

Except in Ganjam and Nílgiris, the expenditure per head on lower primary pupils was not excessive. The Presidents of the District Boards above noted will report what steps their Taluk Boards propose to take to ensure more economical management of the schools under their control.

The total number of pupils from Board schools who passed one or other of the standard primary examinations, was 17,869 out of 24,791 presented, the corresponding figures for the previous year being 16,014 and 22,656.

48. *Grant-in-aid Schools.*—Grants to private schools from Local Funds were confined to Primary schools and to the Primary departments of Secondary schools. *Salary grants*, amounting to Rs. 2,571, were paid from Local Funds to 30 private schools attended by 964 pupils, against Rs. 1,336 paid to 21 schools attended by 519 pupils in 1886-87. *Combined salary and result grants* to the extent of Rs. 30,957 were paid to 572 schools attended by 22,394 pupils against Rs. 26,936 paid to 489 schools attended by 20,523 pupils in the previous year. A sum of Rs. 13 was also paid as arrears of 1886-87 to the Free Church Mission School at Wálajábád (Chingleput). Seven thousand three hundred and twenty schools attended by 174,157 pupils were examined for *result grants*. The number of pupils actually presented for examination was 115,869, of whom 77,835 were found qualified for grants. The corresponding figures of the previous year were as follows :—Number of schools examined 7,619 ; number of pupils presented 116,635 ; number found qualified for grants 78,047. The grants paid during the year aggregated Rs. 1,63,335 against Rs. 1,66,052 in 1886-87 and Rs. 2,14,155 in 1885-86. The average grant per pupil examined was Rs. 2-10-8 in salary grant schools, Rs. 2-6-7 in combined grant schools and Rs. 1-6-7 in result grant schools, the corresponding grants earned in the previous year being Rs. 2-9-2, Rs. 2-6-0 and Rs. 1-6-9 respectively.

49. Appendix XXI compares the total grants to aided schools of all classes in each district with the budget allotments under this head and the actuals of the previous year. The total grants for all districts amounted to Rs. 1,97,036 against Rs. 1,87,946 so spent in 1886-87 and Rs. 2,71,924 allotted in the year's budgets. The expenditure, though somewhat in excess of that of the year preceding, was thus only 72·5 per cent. of the year's allotments. The utilisation of allotments was worst in the districts noted in the margin, and such explanations as have been furnished by the respective Presidents will be found summarised in Appendix XXI. No doubt, in some cases payment of grants earned was unavoidably delayed beyond the close of the year, and in others the budget estimates were unduly high, having regard to the actuals of previous years ; but, on the whole, it must be said that the fault rests mainly with the Local Boards themselves and their Educational agents, and is due to failure on the part of the Inspecting officers to keep the schools up to the mark, to unnecessary reductions in the rates

	Per cent.
Cuddapah	47
Vizagapatam	49
Nellore	55·5
South Canara	58
North Arcot	59
Kurnool	60
Salem	61
Godávari	64

of grant, and to the discouraging effect produced on the schoolmasters by long and frequently very uncalled for, delays in the settlement of their claims. The districts in which results grants were paid at reduced rates during the year were Anantapur, North Arcot, Chingleput, Malabar and Tanjore, and in all of these a large proportion of the budget allotments, varying from 17 per cent. in Malabar, to 41 per cent. in North Arcot, was left unused. The necessity of paying grants at full rates has (when dealing with the individual reports and budgets) now been impressed on District Boards, and in the review on the education report for 1887-88, the Government have ruled that local bodies shall not reduce rates in future unless it is clearly shown that the full budget estimate has been or will be utilised. Changes have also been made in the mode of payment in view to expediting the disbursement of grants earned. These instructions will, it is hoped, produce better results in years to come.

50. *Purchase and Sale of Books.*—A sum of Rs. 13,570 was spent on the purchase of school books and Rs. 2,235 were paid to the selling agents on account of salary and commission sales, while the amount realised by the sale of these books was Rs. 12,905. The net expenditure on this account was thus Rs. 2,900, against Rs. 6,309 in 1886-87.

51. *General Progress of Education.*—Appendix XXII shows the *net* expenditure on education by the Local Boards of each district, the number of Local Fund and aided schools, and the number of children under instruction in these institutions. In all, there were 241,520 pupils under instruction in schools aided or maintained from Local Funds, against 263,207 in 1886-87. The decrease is, to a large extent, apparent only, owing to the fact that in the returns for 1886-87, all schools which had been registered for grants, even though they were not subsequently examined, were classed as "aided" schools, while in the revised returns prescribed for the year under review, only schools actually examined for grants have been entered. Still the fact remains that, though there may have been no positive decrease, there has certainly been no progress, and this failure to advance primary education is the worst feature in the year's administration. Taking the total male population of school-going age in Local Fund circles at 2,200,000 (7½ per cent. of the general population) only 11·6 per cent. of these were being reached by Local Fund and aided schools. Education was most backward in Cuddapah, where only 4·4 per cent. of the school-going population were under instruction, Anantapur (6·9 per cent.), Vizagapatam (6·8), Salem (7·1), Nellore (7·2), Kurnool (7·7), North Arcot (8) and Trichinopoly (8·7) and most advanced in Tinnevelly (20·9), Bellary (18·3) and Malabar (18·5). The Director of Public Instruction has been directed to submit a special report on education in Cuddapah and to draw the attention of the Divisional Inspector of Schools to the state of things in Nellore. The Presidents of the Anantapur, Vizagapatam, Salem, Kurnool, North Arcot and Trichinopoly District Boards will report what steps it is proposed to take to extend primary education in their districts. In Anantapur, North Arcot and Cuddapah, as will be seen from Column 9 of Appendix XXII, the net expenditure on education was less than 7 per cent. of the total Local Fund receipts and is thus susceptible of considerable increase. The net outlay from taxation on educational purposes was also very low in South Canara and Tanjore.

From Columns 3 to 5 of Appendix XXII it will be seen that while the Local Boards of Godávari, Kistna, Nellore, Kurnool, North Arcot, Salem and Tanjore rely chiefly on their own schools for the diffusion of primary education, those of the 10 districts noted in the margin work mainly through private aided institutions. In the remaining four districts, Vizagapatam, Bellary, Cuddapah and South Arcot, both systems are resorted to in fairly equal proportions.

Madura.	South Canara.

1202

Grant III.—Medical Services and Sanitation.

52. *Local Fund Hospitals and Dispensaries.*—Appendix XXIII shows the working of these institutions, of which there were 233 at the close of 1886-87. Twenty new hospitals and dispensaries were opened during the year under review in the districts marginally noted. The hospital at Tirupati, maintained from the Devastanam funds, was retransferred to the North Arcot District Board by the local Municipal Council, and that at Devála, in the Nílgiri district, was transferred from private management to that of the District Board. The total number of hospitals and dispensaries under the management of Local Boards was thus raised to 255.

Godávari	1
Trichinopoly	1
Total ...	20

In accordance with the classification approved in G.O., 16th January 1889, No. 106 L., these institutions are shown in Appendix XXIII under two heads, viz., *hospitals*, which afford accommodation for in-patients, and *dispensaries*, where only out-door medical relief is provided. There were, at the close of 1887-88, 97 Local Fund hospitals and 158 dispensaries. The corresponding figures for 1886-87, as shown in Appendix XVIII attached to the general review for that year, were 138 and 95; but, as stated in paragraph 45 of that review, the returns of that year were in many respects very inaccurate in regard to classification, and in reality there has been no decrease, but a slight increase in the amount of accommodation available for in-patients, there having been in all 1,181 beds in 1887-88 against 1,166 in 1886-87. In Cuddapah, however, according to the returns furnished, the number of beds has fallen from 98 to 27, a matter which the President is requested to explain. In spite of the remarks made on this subject in the last general review, the Ganjam, Godavári, Nellore and Trichinopoly Local Boards still fail to provide any accommodation for in-patients. The Presidents will now report, specially, what steps their Boards propose to take in this direction. In Anantapur, Bellary, Chingleput, Kistna and Kurnool, the number of hospitals is unduly small and should, where funds will permit, be increased. Taking hospitals and dispensaries together, the districts noted in the margin maintain less than one per 100,000 of the population. In Tinnevelly, however, there are, besides the 12 Board hospitals and dispensaries, 8 private institutions aided from Local Funds. In the remaining districts, further provision should be made for medical relief. Of the 255 Board hospitals and dispensaries, one hundred and fifty were held in buildings belonging to the Local Boards, and the rest in rented houses or in buildings lent by Government or by private individuals. Twenty-six of these institutions were maintained either wholly, or partly, from endowments, and 18 others from the Chattram funds in Tanjore and Tinnevelly. The total number of patients treated during the last three years is shown below :—

Years.	In-patients.	Out-patients.	Total.
1885-86	11,975	1,129,996	1,141,971
1886-87	11,163	1,177,781	1,188,944
1887-88	11,582	1,282,300	1,293,882

Arcot, North.	Malabar.
Do South.	Salem.
Coimbatore.	Tinnevelly.
Cuddapah.	Trichinopoly.
Ganjam.	Vizagapatam.
Godávari.	

The gradual growth in the number of out-patients treated is satisfactory; but the total number of cases treated is still only 4·6 per cent. of the total population; the increase as compared with 1886-87 being but ·6 per cent.

53. The total expenditure on the maintenance of the dispensaries, including the pay of the medical subordinates in charge, but excluding the cost of (1) the additional medical practitioners employed on sanitary inspection, distribution of medicines, &c., in the districts of Godávari, Kistna, Kurnool, Madura, Nellore and Vizagapatam; (2) the medical schools in Nellore and Tanjore; (3) the District Medical and Sanitary

14

Officers' establishments, and (4) midwives and midwifery pupils, was Rs. 2,57,409 against Rs. 2,28,258 in 1886-87. The increase is spread over all the districts, except those noted in the margin, and was due generally—(*a*) to the opening of additional dispensaries during the year, (*b*) to higher rate of pay allowed to medical subordinates who had completed the prescribed period for promotion, and (*c*) to charges incurred on account of cholera. The average cost of treating each patient consequently rose from As. 3-1 in 1886-87 to As. 3-2 in the year under review. It was low in Ganjam (As. 1-8) and Nellore (As. 1-11), but very high in Nílgiris (As. 6-4) and Malabar (As. 5-8).

Anantapur.
Coimbatore.
Ganjam.
Tanjore.

54. In addition to the regular dispensaries, the Nellore Local Boards maintained six medical centres, where trained hospital assistants, who are supplied with medicines for gratuitous distribution, are sent to practise. The number of persons treated by this agency was 4,571 against 2,822 in the preceding year, and these figures are included in the statistics given in paragraph 52 *supra*. With reference to the suggestion made in paragraph 46 of the last general review that this system might with advantage be followed in other districts, the Government observe that the Salem and Bellary District Boards appear to be the only ones that have considered the question. The Salem Board came to the conclusion that it would be preferable to increase the number of minor dispensaries. The Bellary District Board recently submitted certain proposals for the supply of medical aid to the more remote portions of the district, but they were disapproved by the Surgeon-General on the ground of the inferiority of the agency which it was proposed to employ and have been remitted to the Board for reconsideration. In Kurnool it is reported that the District Medical and Sanitary Officer took a stock of medicines and a hospital assistant with him on his tours of inspection and treated such patients as came within his reach, but the number of persons so relieved has not been reported. Dr. King's efforts in this direction are worthy of imitation by other District Surgeons. It was mentioned in the last general review that the Vizagapatam District Board proposed to employ 20 native doctors, each to be paid Rs. 2 per mensem, for the distribution of cheap and reliable English medicines among the villagers after first training them in a Local Fund dispensary. Up to the end of 1887-88 this scheme had made very little progress, owing mainly to the absence of a vernacular hand-book explaining the proper method of using the medicines to be supplied. This has now been provided, and the result of the experiment will be noticed in the review for the current year.

55. *Medical Schools and Medical Pupils.*—During the year under review, the District Boards of Nellore and Tanjore continued to maintain local medical schools for training hospital assistants. These schools were managed by the District Surgeons at a cost of Rs. 8,040. The Nellore medical school began with 7 fourth-year students, all of whom appeared for the Hospital Assistant Grade Examination, at which 6 passed—a very creditable result. Sixteen new students joined during the year and are now undergoing training. The Prince of Wales' Medical School at Tanjore had 36 students under training during the year. In June 1887 it sent up 4 students for the Hospital Assistant Examination and all passed. Of the 36 students in this school, 2 were from Bellary, 1 from Salem, and 18 from Madura, all trained at the cost of their respective District Boards. The students as usual received clinical instruction at the Rajah-Mirassidar Hospital under the superintendence of the District Surgeon. The South Canara District Board have obtained permission to make their own arrangements for training their medical subordinates, and 6 pupils are now under instruction in the Mangalore municipal dispensary, preparatory to being sent to the Madras Medical College. The other District Boards obtain the services of Government medical subordinates, paying their salaries and contributing to the Madras Medical College on account of their training.

56. *Midwives and Midwifery Pupils.*—In Trichinopoly, Vizagapatam and Nílgiris there were no Local Fund midwives at the end of the year. In the remaining 18 districts, 93 midwives were at work against 89 in the preceding year. The districts with most midwives were Nellore (16) and Madura (15), while the

District Boards of South Canara, Cuddapah, Ganjam, Kurnool and Malabar maintained only one each. The Government consider that the standard to be aimed at should be the entertainment of a midwife at every station at which there is a Local Fund hospital or dispensary, and in reviewing the individual reports those Boards which are specially backward in this respect have been directed to increase their establishments. The total number of labor cases assisted by this agency was 3,867 against 3,337 in 1886-87. Of the total increase, Nellore alone contributed 414 cases, while in Coimbatore, Cuddapah, Madura and Tanjore the outturn of work shows a falling off as compared with the previous year. Taken as a whole, the work done during the year was still very unsatisfactory, each midwife having attended on an average only 42 cases, or 3·5 per mensem. The one midwife employed in South Canara attended so many as 103 labor cases in the year, and the work of the Nellore midwives was also good, their average coming to 7 cases each per mensem. On the other hand, the work done by the midwives in Ganjam, Kistna, Salem, Kurnool and Malabar was very unsatisfactory. In reviewing the individual reports the Government have repeated the suggestion made in paragraph 48 of the last general review, that these women should be paid partly by results, and some of the Boards have already determined to adopt this plan. The cost of the midwifery establishments amounted to Rs. 10,858 against Rs. 10,860 in the previous year. In addition to this Rs. 1,558 were expended in training female pupils.

57. The steps taken by the various Local Boards towards increasing the supply of female doctors and trained nurses will be found summarized in Appendix XXIV. The action adopted in this respect by the Kistna, Madura, Tanjore and Vizagapatam Boards is worthy of special commendation, but in Vizagapatam, owing to a lack of suitable candidates, the scholarships offered by the District Board could not be allotted.

58. *Vaccination.*—Appendix XXV shows the strength, cost and operations of the Local Fund vaccine establishments. There were 47 Deputy Inspectors of Vaccination as in the preceding year; and 644 vaccinators, including probationers, against 632 in 1886-87. The work turned out by these men and the average cost per successful case are compared below with the corresponding figures of the two previous years :—

Years.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to Number vaccinated.	Cost per successful case.
				RS. A. P.
1885-86	601,160	569,058	95	0 4 0
1886-87	596,794	567,599	95	0 3 11
1887-88	628,453	597,011	95	0 3 11

Taken as a whole, the work of the Local Fund vaccinators shows some slight improvement, but it still fails to keep pace with the increase of population, the number of births registered during the year having been about 803,000. The rise of 29,412 in the number of successful operations as compared with the preceding year was the net result of an increase of 45,571 operations in 12 districts counterbalanced by a decrease of 16,159 in 9 others. The Government cannot avoid the impression that if more personal interest in vaccination were taken by the members of Local Boards and by District officers generally, the results would be far better than they are.

In the following districts the increase or decrease exceeded 10 per cent. :—

	Number of successful operations.		Percentage of increase or decrease.
	1886-87.	1887-88.	
Anantapur	12,479	14,269	+ 14·3
North Arcot	29,429	36,072	+ 22·6
South Canara	29,516	34,406	+ 16·6
Coimbatore	46,608	52,115	+ 11·8
Godávari	17,064	24,709	+ 44·8
Kurnool	8,003	12,680	+ 58·4
Nellore	20,618	26,016	+ 26·2
Tanjore	41,046	31,438	— 23·4
Tinnevelly	44,638	49,326	+ 10·9

In North Arcot, South Canara, Coimbatore, Godávari and Tinnevelly there has been real progress in the number of operations; but in Anantapur, Kurnool and Nellore the results of 1886-87 were specially bad, and the present figures still fall below, or show little improvement on, those of 1885-86. The large decrease in Tanjore is ascribed to the employment of vaccinators to distribute cholera medicines and the unwillingness of the people to submit to vaccination during the prevalence of the disease. The President has already been informed that these explanations cannot be accepted as satisfactory. Comparing the number of successful operations with the number of births registered during the year, the vaccination results were worst in Kistna, Cuddapah, South Arcot and Kurnool, where the operations amounted to only 21, 39, 43 and 46 per cent. respectively of the number of births. The special attention of the Local Boards of these four districts has been called to this matter in reviewing the individual reports. In the seven districts marginally-noted the number of successful operations was in excess of the registered births, the best results being shown by Ganjam, Nílgiris and Vizagapatam. The well-known imperfection of the registration however makes the comparison of little value.

	Number of successful cases.	Number of births registered.	Percentage of excess of operations above births.
South Canara...	34,406	31,952	7·7
Coimbatore ...	52,115	51,202	1·8
Ganjam ...	26,352	17,161	53·6
Madura ...	45,432	38,249	18·8
Nílgiris ...	1,658	1,139	45·6
Tinnevelly ...	49,326	47,606	3·6
Vizagapatam...	35,518	27,243	30·4

In regard to infantile vaccination the most advanced districts are Bellary, Madura, Coimbatore and Anantapur, the number of successful operations on children under one year having been 40·0, 37·2, 33·5 and 26·1 per cent. respectively of the number of registered births. On the other hand, the results were very bad in the districts noted in the margin, and demand the earnest attention of the Local Boards concerned and their Presidents.

	Percentage of successful operations on children under one year to the number of registered births.
Malabar	0·7
Kistna	1·8
Godávari	3·6
Cuddapah	3·8
South Arcot	5·5
Nellore	6·3
South Canara	6·5

The quality of work continued, if the accuracy of the figures is accepted, to be satisfactory, 95 per cent. of the total number of operations having proved successful, as in the previous year. The average cost of each successful case for the Presidency was also the same as in the previous year, viz., As. 3-11. The cost was very high in Kistna (As. 11-10), Nílgiris (As. 10-9), Cuddapah (As. 10-6), Kurnool (As. 7-4), and Godávari (As. 6-1). Compared with the previous year, there was an increase in Kistna and Cuddapah. The Government are glad to note the satisfactorily low cost in South Canara, Coimbatore, Malabar, Salem and Tinnevelly, in each of which districts it was below 3 annas.

59. No action appears to have been taken during the year under review towards the introduction of animal vaccination in the districts of Anantapur, Coimbatore, Cuddapah * and Trichinopoly. In North Arcot, Madura and Tinnevelly the Boards have called upon the District Medical Officers and Deputy Inspectors of Vaccination to report on the subject. In the Nílgiri district the subject was discussed by the Board, who resolved to introduce it in the current year. In Kistna and Ganjam experiments were made and proved futile, but in the former district a second attempt made in the current year has been successful. In South Canara and Nellore no information on the subject has been afforded. The following statement shows the results of the experiments made in the remaining nine districts :—

* *Note.*—But in paragraph 18 of his report on vaccination for 1887-88, the Sanitary Commissioner says that animal vaccination was carried on in Cuddapah district for three months at a cost of Rs. 52. The President is requested to report whether this is correct. Both in Coimbatore and Cuddapah animal vaccination was introduced in 1885-86, but had to be abandoned owing to its excessive cost and the difficulty of procuring calves.

Districts.	Number of months during which animal vaccination was conducted.	Number of calves vaccinated.	Number of persons vaccinated.	Number of successful cases.	Cost.

Ganjam	258	Trichinopoly	320
Kistna	315	Vizagapatam	722
Godávari	¶ 455		

¶ The figure for Godávari has been taken from the Sanitary Commissioner's report, no information on the subject having been furnished by the District Board President.

The outturn of work by these officers was in many districts very much the reverse of satisfactory, and the Government have, in reviewing the Sanitary Commissioner's report, ‖ directed that District Surgeons be instructed to see that their subordinates perform more operations and do their work in a less perfunctory manner.

‖ G.O., dated 14th January 1889, No. 24, Public.

61. *Sanitation.*—The details of the expenditure under this head are shown in Appendix XXVI. Excluding the sum of Rs. 49,026 spent on sanitary public works debited to Grant I, the outlay on sanitation amounted to Rs. 3,17,566 as shown below, against Rs. 2,51,529 in the previous year :—

	1886-87. Rs.	1887-88. Rs.
(1) Improvement of water-supply	47,864	60,132
(2) Do. of village sites	19,849	31,673
(3) Conservancy establishments	1,54,022	1,70,701
(4) Arrangements at fairs and festivals	9,251	10,946
(5) Other sanitary outlay	20,543	44,114
Total ...	2,51,529	3,17,566

It is satisfactory to note that the actual sanitary expenditure amounted to 5·1 per cent. of the total current receipts against 4·1 per cent. in 1886-87, the increase occurring under all the heads specified above. The only works of individual importance undertaken, or contemplated during the year, were a drainage scheme for Nandyál (Kurnool), and a water-supply scheme for Gúdalúr town (Nílgiris). In the first-mentioned place the District Board arranged to improve the town at a cost of some Rs. 43,000, and advanced Rs. 3,056 for commencing the works; but the Sanitary Commissioner having objected to the execution of the scheme on the ground that no professional agency was consulted before framing the estimates and designs,

the project was held in abeyance. In the Nílgiris the District Board prepared a scheme for supplying the Gúdalúr town with water by means of a simple masonry duct, but this plan did not meet with the approval of the Public Works Department, which recommended the substitution of iron pipes. As this alteration raised the cost from Rs. 3,000 to Rs. 4,500, and as the townspeople refused to contribute anything, the scheme was abandoned. In Nellore, the earthenware pipes which have existed for a long time at Udayagiri were removed and cast-iron pipes substituted at a cost of Rs. 979. In Salem a sum of Rs. 2,988 was spent in cutting a channel to and in repairing the Kamalalayam tank, which is the principal source of drinking water-supply at Námakal. Ten tanks and 110 wells were newly constructed, 610 old ones were repaired or otherwise improved, and 168 watchmen were employed in guarding drinking-water sources from pollution. One hundred and seventy-two village sites were improved, and rank vegetation and prickly-pear were removed in 208 villages. As in the preceding year, itinerating gangs were employed in portions of the Coimbatore and Vizagapatam districts for the purpose of removing prickly-pear and rank vegetation, levelling streets, digging side-drains, &c. This system was noticed in the last general review as worthy of adoption elsewhere. The attention of all Presidents of District Boards is again drawn to it.

62. Out of 51,930 minor towns and villages in the Presidency, 629, against 562 in 1886-87, were provided with regular conservancy establishments, as shown below:—

—	1886-87.	1887-88.	—	1886-87.	1887-88.
Anantapur	14	12	Madura	28	42
Arcot, North	25	24	Malabar	3	15
Do. South	30	30	Nellore	..	2
Bellary	18	20	Nilgiris	6	6
Canara, South	14	17	Salem	35	35
Chingleput	14	14	Tanjore	44	34
Coimbatore	31	33	Tinnevelly	84	81
Cuddapah	50	68	Trichinopoly	13	12
Ganjam	27	27	Vizagapatam	12	11
Godávari	64	86			
Kistna	32	35			
Kurnool	18	25	Total ..	562	629

The above figures differ, in some respects, from those given at page 56 of the Sanitary Commissioner's report for 1887. This is apparently owing to revenue villages included in a single union being separately shown in the Commissioner's returns instead of being entered as one unit. The latter course should be adopted, and, in order to avoid discrepancies as far as possible, the Sanitary Commissioner is requested in future reports to arrange his statistics as to village conservancy under two heads—(1) unions, and (2) other villages. In Cuddapah and Godávari, there has been a satisfactory increase in the number of villages conserved. In Anantapur, South Canara, Chingleput, Malabar, Nellore, Trichinopoly and Vizagapatam the number of these villages is unduly small and should be at once increased. In 112 villages where there are unions, the conservancy establishments were under the direct control of the Chairmen and the Panchayats. In other places their work was supervised by medical subordinates, deputy tahsildars, revenue inspectors, village officers, &c., assisted in some places in Salem and Madura by voluntary and informal non-official committees. Special sanitary arrangements, such as the entertainment of temporary scavengers and the construction of temporary latrines, &c., were, as usual, made during important fairs and festivals at 169 places. Speaking generally, the sanitary condition of the rural tracts throughout the Presidency is very far from satisfactory; but in some districts, especially Kurnool, Cuddapah, Madura and Salem, the improvement of sanitation received considerable attention at the hands of the members of Local Boards and the District Medical Officers.

63. The total expenditure on sanitation in the year under review amounted to 83 per cent. of the sanctioned budget allotments against 80 per cent. in 1886-87

1202

The increase is satisfactory, but there is still very much room for improvement. The Government are glad to note that in Ganjam the budget provision was fully spent, while in four districts, viz., Anantapur, South Canara, Chingleput and Nílgiris, it was considerably exceeded, owing to the sanction and utilization of supplementary allotments. Cuddapah also shows fair progress, the proportion of expenditure to allotments having risen from 69 per cent. in 1886-87 to 91 per cent. in the year under review. But in the marginally noted districts the proportion of the budget allotments left unspent is discreditably large. Various excuses have been put forward in the several administration reports, but in reviewing them individually the Government have shown that most of them cannot be accepted. The Government resolve to direct District Board Presidents to call in future for monthly returns from each taluk in order to assure themselves that sanitary expenditure is being properly pushed forward. In all important matters relating to sanitation, viz., the amount allotted for expenditure, the utilization of allotments, and the conservancy of villages, the results of the Nellore district are by far the worst in the Presidency, a matter which the Government have had to notice in reviewing the President's report. In Malabar, South Canara and Ganjam a larger portion of the Boards' revenue should be devoted to sanitation.

	Percentage of expenditure to allotment.
Nellore	55
Vizagapatam	65
Kurnool	69
Malabar	69
Kistna	73
Madura	74

64. *Markets and Bungalows.*—The expenditure under these heads has already been noticed in paragraph 21 *supra*.

65. *Choultries.*—Including the Arcot and Kurnool langarkhanas and the poor-house at Tanjore, the number of choultries maintained by Local Boards was 389 against 376 in 1886-87. Of these, 213 had endowments attached to them. In 44 of the endowed choultries 1,816,980 daily rations were issued at a cost of Rs. 94,970 against 1,972,515 rations issued at an aggregate cost of Rs. 95,841 in 1886-87. Among these institutions, may be mentioned the Arcot langarkhana, in which 24,909 persons were fed at a cost of Rs. 785; the Kurnool langarkhana, in which 30 infirm persons received a money-dole of 1 rupee each per mensem; the poor-house at Tanjore, in which 113,389 persons were fed at a cost of Rs. 1,678, and the Tirukurangudi and Kuttalam chuttrums in Tinnevelly from the funds of which 66 cripples were paid monthly pensions. The remaining 345 choultries merely afford shelter to travellers. Including charges for establishments, contingencies, &c., the total expenditure on choultries was Rs. 1,98,771 against Rs. 2,01,176 in 1886-87. The number of choultries in Chingleput, Ganjam and Vizagapatam should be increased when funds admit.

Appendix XXVII.

66. *Contributions.*—The contributions paid from Local Funds for medical, sanitary and other purposes amounted to Rs. 1,91,614 as shown below, against Rs. 1,93,505 in 1886-87:—

	1886-87. Rs.	1887-88. Rs.
To Provincial Funds—		
For the Medical College	20,337	13,680
„ sanitary inspection	29,089	19,500
„ cutlers' establishment in the Medical Store Depôt .	531	558
„ Medical Reserve Staff	1,778	2,525
„ medicines and surgical apparatus	34,460	64,438
„ maintenance of lunatics	21,640	17,141
	75,457	65,012
To Municipalities—		
For hospitals and dispensaries	3,663	4,726
„ other purposes		
To private individuals—	5,745	3,731
For dispensaries maintained by Missions and other agencies	805	303
For other purposes		
Total ...	1,93,505	1,91,614

17

There are noteworthy decreases under "Medical College," "sanitary inspection," and "contributions to municipalities on account of dispensaries," counterbalanced by a very large increase under "medicines and surgical apparatus." The variations in the first two cases are apparently due to the system now in force of recovering only the actual cost of these services, instead of levying a contribution of 0·5 per cent. on the receipts of each District Board, as was done in former years. The decrease in the contributions to municipalities for dispensaries occurs mainly in North Arcot, Madura and Tanjore. In North Arcot the contributions of 1886-87 were abnormally swelled by the transfer of the unexpended balance in favor of the Tirupati hospital to the new municipality; in Madura to the contributions to the Periyakulam and Palni municipal dispensaries having been reduced; and in Tanjore to the contribution payable to the Kumbakónam municipal hospital not having been disbursed within the year. The increase under medicines and surgical apparatus is, in great part, due to the purchase of large stocks of medicines for new dispensaries and to payments made for supplies obtained in 1886-87.

Grant IV—Miscellaneous.

67. *Supervision and Office Management.*—The total cost of supervision, including contingencies, amounted to Rs. 2,70,403, against Rs. 2,50,265 in 1886-87, and was 4·3 per cent. of the actual receipts of the year, as also of the charges. There is a decrease of Rs. 30,702 under contributions to Provincial Services on account of general establishments, &c., maintained at the Presidency town, counterbalanced by an increase of Rs. 50,840 under Local Boards' establishments and contingencies. The decrease was due to three years' printing charges at the Government Press having been paid in 1886-87. The increase is under charges incurred in connection with the Taluk Boards and Union Panchayats, these bodies having not only increased in number, but many of the existing ones having been at work for the whole year instead of for a few months only as in 1886-87. The pay of the head clerks or "managers" in the various District Boards' offices varies from Rs. 40 to Rs. 70. The maximum establishment allowed for a Taluk Board's office is a clerk on Rs. 25, or two clerks on Rs. 15 and Rs. 10, respectively, and an attender or peon on Rs. 8. The Panchayat of every union in which house-tax is levied is permitted to employ a kurnam on Rs. 10 and a bill-collector on Rs. 5; those of the other unions, a kurnam on Rs. 7 only.

68. *Repayment of Loans, and Investments.*—The Chingleput and Malabar District Boards paid Rs. 9,044 as interest and Rs. 16,912 as instalments of principal on account of loans received from Imperial funds. The purposes for which these loans were obtained and the balance due at the close of the year are shown below:—

Boards.	Amount of Loan.	Purpose for which raised.	Mode of repayment.	Amount still due.	Probable date of repayment.
				Rs.	
Chingleput ...	Rs. 1,99,790 at 4½ per cent.	Construction of the iron girder bridge across the Kortálayár river.	In annual instalments.	1,26,543	1898
Malabar ...	Rs. 1,49,000 at 4½ per cent.	Completion of the Támbracheri and Periaghat roads.	Do. ...	61,303	1898

The Tinnevelly District Board paid Rs. 2,100 as interest and Rs. 5,000 as instalment of principal on account of a loan of Rs. 35,000 received from the surplus of the endowments (choultries Rs. 30,000 and markets Rs. 5,000) under the control of the Taluk Boards, towards the construction of the Srívaikuntham bridge. In Tanjore a sum of Rs. 1,00,000 was invested in Government securities in favor of the Railway Guarantee Fund, the total investment on this account up to 31st March 1888 being Rs. 6,00,000.

69. *Refund of Cess, &c.*—The total payments under this head were Rs. 19,121 as shown below, against Rs. 13,641 in the previous year:—

	1886-87.	1887-88.
	Rs.	Rs.
(1) Land-cess, &c., refunds	8,146	9,969
(2) Public Works refunds	1,640	1,552
(3) Educational refunds	648	4,472
(4) Medical, &c., refunds	3,207	3,128
Total ...	13,641	19,121

The increase under educational refunds was mainly owing to the contributions made to Local Funds by the Municipalities towards the moiety of the cost of Deputy Inspectors of Schools having been refunded for reasons already assigned.

IV—ENDOWMENTS, &c.

70. The total number of endowed institutions, such as schools, dispensaries, choultries, markets, &c., under the control of the various Local Boards and Panchayats is shown in Appendix XXVIII, while their gross receipts and charges are shown in Appendices XXIX and XXX furnished by the Accountant-General. Excluding Rs. 50,701 appropriated from general funds to meet excess expenditure, and Rs. 12,638 allotted from the funds of some of the Rajah's chuttrams in Tanjore to meet the deficit with which other connected chuttrams and dispensaries would otherwise have closed, but including Rs. 7,100 paid by the Tinnevelly District Board on account of the loan referred to in paragraph 68 above, the actual receipts of these institutions amounted to Rs. 3,97,868 and the charges to Rs. 3,58,826. The following abstract shows the receipts and charges under the several heads compared with the corresponding figures for 1886-87:—

—	Receipts.		Charges.	
	1886-87.	1887-88.	1886-87.	1887-88.
	Rs.	Rs.	Rs.	Rs.
Schools	6,848	6,063	5,379	6,200
Dispensaries	19,043	24,479	31,951	30,041
Choultries	2,58,675	2,80,538	2,72,144	2,58,909
Markets	66,889	81,323	50,510	58,287
Miscellaneous	4,761	5,465	3,839	5,389
Total ...	3,56,216	3,97,868	3,63,823	3,58,826

The decrease in the receipts under schools occurs mainly in Malabar owing to smaller receipts from the Moyan endowed lands attached to the Female Normal School at Calicut. The increase under dispensaries occurs in North Arcot and Trichinopoly. In North Arcot, a contribution of Rs. 1,200 was paid by the Mahant towards the maintenance of the Tirupati dispensary, retransferred to the District Board from December 1887, and in Trichinopoly Rs. 2,000 were paid by Rajah Sakaram Sahib in part payment of the contribution promised by him towards the construction of a dispensary building at Ariyalúr. The increase under choultry receipts occurs mainly in Tanjore and that under markets in Coimbatore and Madura, and these have already been explained in paragraph 21 *supra*.

The total balance in favor of endowed institutions was Rs. 3,00,907 at the commencement of the year and Rs. 3,39,949 at its close. The largest balances were in the districts noted in the margin, and it is hoped that well-considered proposals will soon be made for utilizing the greater part of them.

	Rs.
Tinnevelly	41,004
Coimbatore	47,359
Madura	71,781
Tanjore	85,216

71. (*a*) *Endowed Schools.*—There was no change in the number of these institutions, which remain as described in paragraph 65 of the general review for 1886-87.

(*b*) *Endowed Hospitals and Dispensaries.*—There were 26 institutions of this class against 25 in the previous year, the increase being due to the retransfer to the North Arcot District Board of the hospital at Tirupati, referred to in paragraph 52 above. In addition to these there were 16 hospitals and dispensaries maintained wholly from the funds of the Tanjore Rajah's chattrams, and 2 in Tinnevelly from the funds of the Tirukkurangudi chattram.

(*c*) *Endowed Choultries.*—The number of these institutions was 213 against 210 in 1886-87. The variation is explained in a foot-note to Appendix XXVIII. Particulars regarding the most important endowed choultries have already been given in paragraph 65.

(*d*) *Endowed Tanks, Markets, &c.*—There was an increase* of one water-shed in Madura and three tanks, &c., in Kistna. The number of langarkhanas remained the same. The increase in the number of markets has already been noticed in paragraph 21 *supra*.

	1886-87.	1887-88.
* Tanks	31	34
Water-sheds	13	14
Langarkhanas	3	3
Markets	250	279

(*d*) *Miscellaneous Endowed Institutions.*—The items included under this head are—(*a*) the "Victoria Jubilee Fund" in South Arcot, the interest accruing from which is devoted to the presentation of two gold rings to the students of the middle schools at Tirukoilúr and Kallákurchi who pass highest in the Middle School Examination; (*b*) the "District Officers' Bungalow Fund" in South Canara, which is composed of subscriptions from district officers for the upkeep of 17 bungalows used by them when on tour; (*c*) the "Surplus Pagoda Fund" in Chingleput, the proceeds of which are devoted to the upkeep of the Chingleput dispensary; (*d*) "Petrus Uscan's Charity Fund" in the same district, founded for the perpetual repair of the Marmalong bridge and the steps up Saint Thomas' Mount; (*e*) the "Barnett Scholarship Fund" in Cuddapah, in regard to which information has been called for; (*f*) the "Taylorpettah Fund" in Godávari, consisting of the fees levied on godowns, stalls and carts in the cart-stand at Taylorpettah, a suburb of Narsápur, the proceeds being devoted to the sanitation and general improvement of the village; (*g*) the "Rani Atchayya Fund" in the same district, intended for feeding brahmins once in every fortnight; (*h*) the "Jubilee Fund" in Kistna, intended for the erection of a Museum and Technical Institute at Bezváda as a permanent memorial of Her Majesty's Jubilee; (*i*) the "Price Vaccination Fund" in Salem, intended for the promotion of vaccination in that district; and (*j*) the "Surplus Pagoda Fund" in the same district, the proceeds of which are expended on sanitary improvement.

72. *Contributions from Private Individuals.*—The amount of voluntary contributions made by private individuals or bodies for works of local utility was Rs. 35,150 as shown below, against Rs. 20,300 in 1886-87 and 31,866 in 1885-86:—

	1885-86.	1886-87.	1887-88.
	RS.	RS.	RS.
Public Works	6,400	5,786	6,126
Dispensaries	8,145	3,542	11,005
Schools	893	261	10,414
Sanitary purposes	16,428	10,711	7,605
Total ...	31,866	20,300	35,150

The increase under dispensaries and schools has been already noticed in paragraphs 18 and 19. The decrease under sanitary purposes occurs chiefly in Kurnool, Madura, Salem and Tinnevelly, and appears to be largely due in the three last mentioned districts to the levy of house-tax in Unions having superseded the voluntary cesses and contributions formerly paid for sanitary objects. The decrease in Kurnool has not been explained.

V.—GENERAL REMARKS.

73. *Map.*—The illustrative maps referred to in paragraph 71 of the last general review have been received from all districts, and a general map for the Presidency is now under preparation.

74. In conclusion, His Excellency the Governor is able to record with satisfaction that, except in regard to elementary education, the year under review has again been marked by substantial progress in the administration of local affairs. Taluk Boards and Unions are now in fair working order throughout the Presidency; most of them have justified their establishment by good and useful work; while through the agency of the Taluk Boards the District Boards have, for the first time, been furnished with a considerable *quota* of elected members. Of the importance of allotting adequate funds to the maintenance and construction of roads both District and Taluk Boards are already convinced. It now remains for them to repair the defects that have been pointed out in regard to primary education; to see that their sanitary allotments are fully utilised; and to devote greater attention to the spread of medical help and vaccination. The District Boards should remember that the transfer of a particular branch of administration, such as sanitation or the control of schools, to Taluk Boards does not relieve them of their general responsibility for the utilisation of the Local Funds of the whole district.

Taking the districts individually, South Canara, Chingleput and Tinnevelly may be singled out as having produced specially good results, while in Kurnool and Nellore the administration of Local Fund affairs was decidedly unsatisfactory.

(True Extract.)

for Chief Secretary.

To all Presidents of District Boards.
" all Chairmen of Municipal Councils.
through the Collectors concerned.
" the Public Works Department.
" the Revenue Department.
" the Board of Revenue.
" the Accountant-General.
" the Director of Public Instruction.
" the Surgeon-General with the Government of Madras.
" the Sanitary Commissioner for Madras.
" the Honorary Secretary, Madras Branch of the Countess of Dufferin Fund.

ENDORSEMENT—dated 15th March 1889, No. 621 L., Local and Municipal.

Copies to the Government of India, Home and Financial Departments.

J. F. PRICE,
Chief Secretary.

APPENDIX II.

Rules for the Election of Members of the District Board.

When the Government shall have directed that any number or proportion of the member of the District Board of any district shall be elected by the Taluk Boards situated within such district, the President of such District Board shall, as soon as any vacancy occurs among the non-official members of the District Board, report the occurrence of such vacancy to Government, stating that the taluk to which each member of the existing District Board belongs and the Taluk Board by which, in his opinion, the vacancy should be supplied. The Government will thereupon determine by which Taluk Board a member of the District Board shall be elected to fill the vacancy, and will direct an election to be held. Provided that when once all the Taluk Boards in the district have secured their full complement of elected representatives on the District Board, the President of the District Board shall, without reference to Government, himself direct, on the occurrence of any vacancy as aforesaid, that the Board of the taluk to which the outgoing member belonged shall elect a new member to fill the vacancy.

2. Every election shall be held on such date as the President of the District Board shall from time to time appoint.

3. When the President of the District Board has fixed a date for the election of one or more members of the District Board by any Taluk Board, he shall cause a written notice to be sent by post or otherwise to the address of the President of the Taluk Board, informing him of the vacancy to be filled up, and directing him to summon a meeting of the Taluk Board for the purpose of the election upon the date notified.

4. At the meeting summoned by the President of the Taluk Board for the purpose, the Taluk Board shall proceed to the election of the member or members for the District Board. But such election shall not be held unless at least half the members of the Taluk Board are present at the meeting.

5. Any member who desires or is willing to be elected must be proposed by one and seconded by another member, and the votes of the President and members present at the said meeting upon every such proposal shall be taken by the President.

6. The election shall be decided by a majority of the votes of the President and members present at the meeting, the President having a second or casting vote in every case of an equality of votes.

7. The result of the election shall be declared by the President of the Taluk Board and communicated by him without delay to the President of the District Board for the approval of Government.

8. The President of the Taluk Board shall also forward, under his signature, to the President of the District Board minutes of the proceedings of the meeting, in which shall be recorded—

(*a*) the names of the members present;
(*b*) the names of the proposer and seconder of each proposal and of the member proposed;
(*c*) the names of the members voting respectively for and against each proposal.

9. The validity of any election may be contested by a petition signed by at least three members of the Taluk Board by which the election was held, and not otherwise, provided that such petition shall reach the President or office of the District Board within seven days from the date of the election, and shall allege one or more of the following grounds, viz:—

(*a*) that fraud, intimidation or bribery was practised at such election;
(*b*) that the person whose election is questioned was, at the time the election was held, not qualified as a candidate;
(*c*) that he was not duly elected by a majority of votes;
(*d*) that there was material irregularity in the election.

10. Upon receipt of such petition, the President shall inquire either personally or by the Vice-President into the validity of such objection or objections, and may disallow the same; but if he finds any such objection to be valid, he shall report his opinion to Government which shall pass such orders on the matter as it may think fit, and all such orders shall be final.

11. In the event of a Taluk Board called on to elect a District Board member under Rule 3, failing to do so within a reasonable time, the President of the District Board shall report the matter to Government, which shall pass such orders on the matter as it may think fit, and all such orders shall be final.

* The figures in this case have been posted as per explanatory memorandum attached to Statement VII submitted with the District Report.

† The arrear demand, as shown in this statement, differs from the closing balance of 1886-87 given in the corresponding statement for that year, the difference being apparently due to adjustments made after the settlement of the Jamabandi accounts.

APPENDIX XII.

STATEMENT showing the statistics of Tolls for 1887-88.

Districts.	Number of Toll gates.	Rate of Tolls.	Income from Tolls.				Expenditure.					Net income from Tolls.	Number of miles of road maintained.	Cost of maintenance of roads.	Average cost of maintaining each mile of road.	Average net income from Tolls for each mile of road.	Percentage of column 17 to column 16.

APPENDIX XXI.

STATEMENT showing expenditure under Grants-in-aid (including Building and Miscellaneous grants) by the Local Boards of each district.

Districts.	Actual expenditure under grants of all kinds in 1886-87.	Actual expenditure under grants of all kinds in 1887-88.	Budget allotments for 1887-88.	Percentage of column 3 to column 4.	Remarks.
1	2	3	4	5	6
	RS.	RS.	RS.		
1. Anantapur	5,158	3,630	4,800	75·6	
2. Arcot, North	6,608	6,548	11,065	(1) 59·2	(1) The decrease was due mainly to a large number of schools having been closed or found unfit for examination and to the grants having been paid at reduced rates in the majority of cases.
3. Arcot, South	11,852	11,765	14,420	81·6	
4. Bellary	7,034	7,555	9,090	83·1	
5. Canara, South ..	5,442	4,213	7,230	(2) 58·3	(2) The decrease is ascribed to a considerable portion of the allotment provided, having remained unpaid at the close of the year owing to delay in passing the certifying memoranda of grants.
6. Chingleput	9,272	9,203	13,010	70·7	
7. Coimbatore	7,614	13,882	20,458	(3) 67·9	(3) The decrease is due to (1) the number of schools having been less than was anticipated; (2) a number of schools having earned and drawn grants for nine months only; (3) it having been necessary to alter the dates of examination owing to the redistribution of the ranges of the Deputy Inspectors of schools; (4) grants having been withheld in the case of some schools on account of irregularities; and (5) certifying memoranda of certain schools in the Polláchi taluk not having been cashed for want of vaccination certificates of pupils.
8. Cuddapah	5,203	3,785	8,089	(4) 46·8	(4) The decrease was due to a large number of result grants schools having been closed, owing to cholera, for a considerable portion of the year, and to the unsatisfactory work of the inspecting agency.
9. Ganjam	16,227	14,668	13,150	111·5	
10. Godávari	8,558	6,879	10,723	(5) 64·2	(5) The decrease was due to delay in presenting bills and to the poor results produced by some of the schools.
11. Kistna	9,943	12,818	16,800	76·3	
12. Kurnool	2,275	2,483	4,150	(6) 59·8	(6) The decrease has not been satisfactorily explained.
13. Madura	15,652	17,362	21,550	80·6	
14. Malabar	23,667	25,039	30,120	83·1	
15. Nellore	4,759	4,541	8,183	(7) 55·5	(7) The only explanation given by the President is that the result schoolmasters were not able to earn the estimated grants.
16. Nílgiris	1,437	1,606	1,720	93·4	
17. Salem	5,111	5,178	8,500	(8) 60·9	(8) The decrease is attributed to decrease in the number of schools, to the poor grants earned by many of the schools examined, and to the condition imposed by the Boards that uncertificated teachers should not be entitled to grants for any standard above the third.
18. Tanjore	7,509	7,768	10,743	72·3	
19. Tinnevelly	24,186	20,890	30,440	(9) 68·6	(9) The President ascribes the decrease to greater strictness in the selection of schools for aid and increased care in the examination of pupils.
20. Trichinopoly	5,091	10,367	13,803	75·1	
21. Vizagapatam ..	5,348	6,856	13,880	(10) 49·4	(10) The decrease was due to more stringent examinations under the rules of the revised Grant-in-aid Code, and to the non-payment of grants within the year.
Total ..	1,87,946	1,97,036	2,71,924	72·5

APPENDIX XXIV.

A SUMARY OF THE MEASURES ADOPTED IN FURTHERANCE OF FEMALE MEDICAL EDUCAFION IN 1887-88.

1. *Anantapur.*—During the year under report no measures were adopted in furtherance of this object owing to want of funds.

2. *Arcot, North.*—In addition to the three midwives employed by the Taluk Boards, the District Board contributed a moiety of the cost of the midwife maintained by the Chittoor Branch of the National Association for rendering medical aid to women.

3. *Arcot, South.*—In May 1887, the Board obtained the sanction of Government to grant a scholarship of Rs. 20 per mensem to a female student for the Hospital Assistant grade and to train three caste women as midwives at Madras. No candidates, however, appeared for the scholarship. Three midwifery pupils have been selected and are under training at Madras.

4. *Bellary.*—Two midwives were newly entertained.

5. *Canara, South.*—No special measures were taken by the Local Boards in this direction, but the Taluk Boards of Coondapoor and Udipi have resolved to employ trained midwives at Coondapoor and Karikal and two more are now being trained at Madras. The Taluk Boards of Mangalore and Kásaragód have also provided funds for this purpose in the current year's budget.

6. *Chingleput.*—The District Board sent two Barber caste women to be trained at the Madras Lying-in-Hospital on a monthly stipend of Rs. 8 each. These underwent training during the year, but one of them had to be dismissed for misconduct and absence without leave. The other completed her course, received her diploma in December 1887, and has been posted to the Sriperumbudur dispensary. The District Surgeon has been asked to select two more women for training in the current year. Owing to the proximity of the district to Madras, what is now being done is considered sufficient by the District Board.

7 *Coimbatore.*—No expenditure was incurred in this direction, but a provision of Rs. 620 has been made for the medical education of females in the current year's budget and the Committee of the Madras Branch of the Countess of Dufferin's Fund has been requested to select candidates wishing to receive the requisite training.

8. *Cuddapah.*—During the year two pupil midwives were trained at Cuddapah.

9. *Ganjam.*—The President states that the entertainment of a midwife on Rs. 15 who was attached to the Parlákimedi Municipality was all that was done in this direction. In the current year, however, a female medical apothecary student has been entertained to be trained at Madras in connection with Lady Dufferin's Fund, and some contributions have also been raised with regard to trained nurses.

10. *Godávari.*—Nothing was spent on the medical education of women owing to want of funds.

11. *Kistna.*—Under the superintendence of the District Surgeon, a class of four pupil midwives was taught by a trained nurse, who was paid Rs 50 per mensem. Three of them were found qualified for employment, and they were sent to do work at the Répalle, Sattenapalle and Vinukonda dispensaries.

12. *Kurnool.*—No expenditure was incurred under this head.

13. *Madura.*—Two midwifery pupils on a monthly stipend of Rs. 5 each were maintained. In March 1888, the District Board sanctioned a scholarship for training a female student for the Civil Apothecary grade at the Madras Medical College under the auspices of the Committee of the Madras Branch of the Countess of Dufferin's Fund on condition that on passing her final examination she will serve the Madura District Board for a period of not less than five years.

14. *Malabar.*—The Board did not send in any pupils for training in 1887-88, but provision has been made in the budget for 1888-89 for educating a pupil in midwifery.

15. *Nellore.*—Two East Indian women are under instruction in the Local Medical School, but the terms on which they are being trained and the rates of stipends allowed to them are not stated.

16. *Nilgiris.*—No midwives are attached to any of the dispensaries, nor has any provision ever been made in the budget on this account. The women of the Barber caste are called in by the Tamil section of the inhabitants in cases of emergency, while the indigenous tribes do not resort even to this aid.

17. *Salem.*—Three trained midwives were entertained during the year in addition to the two already employed.

18. *Tanjore.*—The District Board sanctioned the admission of three female medical pupils into the Prince of Wales' Medical School to be trained as medical practitioners Of these, two were admitted in the school in October 1887 and the 3rd in January 1888. The District Surgeon says that it is proposed to open a special class for female medical pupils in case other District Boards should send female students to Tanjore for instruction.

19. *Tinnevelly.*—A sum of Rs. 240 was paid to the Lady Dufferin's Fund at Rs. 20 per mensem for training a female Hospital Assistant.

20. *Trichinopoly.*—Two native pupils were sent to Madras for instruction on a monthly scholarship of Rs. 8 each from 1st December 1887.

21 *Vizagapatam.*—An allotment of Rs. 1,380 was specially sanctioned for the scholarships, but as no suitable candidates offered themselves, nothing was spent under this head. In the current year's budget a sum of Rs. 1,400 has been provided to meet the cost of educating five females for the Hospital Assistant's grade.

APPENDIX XXV.

STATEMENT showing the strength, cost and operations of the Vaccine establishments for 1887-88.

Districts.	Establishment. Deputy Inspectors.	Establishment. Vaccinators.	Establishment. Probationers.	Total cost of vaccination.	Number vaccinated.	Number of successful cases. Total ..	6	26	213	14	34	3	279	10

* The increase in the number of endowed choultries as compared with 1886-87, when there were 210, occurs in Godávari (1), Kistna (2), Nellore (1) and Nilgiris (1), counterbalanced by a decrease of two choultries in Tinnevelly. In Godávari the choultry at Rájanagaram, with its lands, has been handed over to the Rajahmundry Taluk Board under G.O., dated 16th May 1888, No. 914-L. In Kistna the choultries at Mangalagiri and Kaza were transferred by private individuals under G.Os., dated 11th March 1887, No. 265, and 6th March 1888, No. 508-L. In Nellore the Samardhana Inam in the village of Badevolu was made over to the choultry at Dugarazapatam under G.O., dated 23rd August 1881, No. 1538, F.D. In Nilgiris the number of endowed choultries is now correctly shown as 16 instead of 15 as given in the review for 1888-87. In Tinnevelly the two choultries at Tiruchendur and Sindupundurai, have been made over to the Hukdar (hereditary Manager).
