11TH MAY 1889, No. 1246 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From M. R. Ry. R. SUBRAMANIYAM AIYAR, Registrar of Tinnevelly, to the Inspector-General of Registration, Madras, dated Tinnevelly, 22nd April 1889, No. 1655.

In submitting herewith, for orders, letters Nos. 151 and 155, dated 11th and 20th April 1889, respectively, from the Sub-Registrar of Sivakási, I have the honor to state that the Sub-Registrar represents that he suffers for want of proper office accommodation, and descends into too much of detail to show the inconvenience and unsuitability of the present rented building as an office. The Sub-Registrar, in his letter No. 155, says that no other building is available at the station for rent, and requests that a building be erected for his office by Government.

2. The office was opened in April 1885, and has maintained its position during the four years of its existence, the registrations and collections being as follows :—

	Registrations.	Collections.		
		RS.	A.	P.
1885-86	1,820	1,958	7	0
1886-87	2,003	2,186	9	0
1887-88	2,168	2,426	1	0
1888-89	2,173	2,499	9	0

The continued progress and stability of the office may therefore be depended upon.

3. I beg therefore that Government be moved to sanction the construction of a building on the standard plan for the Sub-Registrar.

T. No. 1658.

Submitted with the recommendation that the sanction of the Government may be obtained for the preparation of plan and estimate for constructing a Sub-Registry office at Sivakási on the revised standard (tiled) design.

2. The office was opened under the sanction of the Government in Judicial Order, dated 7th January 1885, No. 34, and is self-supporting.

OOTACAMUND,
28th April 1889.

(Signed) G. HAMNETT,
Inspector-General of Registration.

Approved and transferred to the Public Works Department.

(By order.)

(Signed) A. G. CARDEW,
Under Secretary.

6th May 1889.

ORDER—dated 11th May 1889, No. 1246 W., Public Works.

Communicated to the Superintending Engineer, VI Circle, who will submit an estimate for the building on the revised standard (tiled) design.

MAY.

Sub-Registry Office at Sivakasi, Tinnevelly District

Superintending Engineer, VI Circle, instructed to submit an estimate for a —.

Sub Registrar's office Sivakasi
Dated 11th April 1889

No 151.

From A Ganapati aiyar
Sub Registrar
Sivakasi

1246

13/4/89

To
The Registrar of
Tinnevelly.

Sir.

With reference to para 1 of your memo no 1515 of the 8th Instant, I beg to Submit that it is absolutely necessary to construct a Suitable building for this office. The office was opened in April 1885. There has been steady progress. No Suitable building can be had. The present rented building is a very old, low and insecure one. In the hot seasons the building is extremely Sultry, so much so that it affects the health of the establishment considerably. The heat is Simply unbearable. I would prefer the shade of a tree to this building; the building farther gets dark before it is 3 o'clock in the evening. There is a great difficulty in placing or removing the almirahs. As there is no possibility of any private individual making ready a Suitable building

registrations and Collections being
(10

building for the office, [246 I think it is absolutely necessary that a Government building should soon be constructed. In addition to the above reasons I have to state another; on one occasion I overheard what two parties were [246 speaking i.e. one said "What although it is 3 years since the establishment of the office the Government have not built an office. I do not know whether the office will continue or not." The people seem to have some doubts as to the continuance of this office. I therefore pray that the subject may be submitted for the favourable consideration of the Inspector General of Registration. The total savings made by this office for these 4 years comes to Rs 3545.

2. In addition to the above considerations, I beg to submit that the 4 walls of the office are simply built of mud; this was found out during the last rainy season when rain had washed away part of the eastern wall. There is a house to the east of the office. This was generally occupied before. For the last 3 months it is unoccupied This house and

the present

registrations and Collections being

3 the present office are two Separate buildings. There are no other buildings either near to or contiguous with the same. This adjoining house is in so very bad State that it has not at present even the doors either on the back or in the front. This is being used by the people as a latrine. The bad smell that it sends forth is highly unbearable. But it is not a very important consideration. The fact of the house being unoccupied is really dangerous as thieves may get into the house which is always open to them. They can bore the eastern wall of the office unseen by any body. Under these circumstances, and as no better building can be had at present, I humbly pray that the General charge Deputy Collector may be requested to direct the owner either to rebuild the house in a manner suitable for people living in or to raise the ruins to the ground that the enclosure may not furnish a safe hiding place for thieves.

[266]

3. This year it is unusually hot; the heat is really unbearable. It creates a burning sensation all over the body.

5 5

The building.

registrations and Collections being

[[0

(24)

The building is very low. It is only about $6\frac{1}{2}$ feet high. I asked the owner to put a Pandal over the roof. He seems to be unwilling to make any further additions to the building. I have therefore promised to give him an increased rent of Rs $3\frac{1}{2}$ per mensem from the date he makes the addition, subject to your approval. I therefore pray that sanction may be accarded for the same. I cannot but make this promise. Without such an arrangement, I fear my health and the health of the establishment will be considerably affected. To sit in the office is like sitting on a furnace. The table is hot, the chairs are hot. It may be imagined how much our bodies will be affected. On the 9th Instant the Tahsildar had come here. He entered the office between 1 & 2 P.M. He expressed "Sir, I do not know how you pull on in this building. The heat may melt your brains." The gentleman could not

stop

registrations and Collections being

Stop in the building; it is a pity he had no other place as the Chathram was occupied by the Deputy Collector. I beg here to add that this heat has considerably affected my health.

1246

7. Praying that you will be pleased to recommend the immediate construction of a suitable Government building for this office.

Sir

With reference to your memo no 1643 of the 17th distant I beg to submit that no suitable building is available for the office in the interior of the Town. The present locality is very convenient for parties as there is a chathram with well in it. There seems to be no other alternative than that of constructing a suitable Government building.

I have the honor to be
