GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

Read—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Ootacamund, 27th February 1884, No. 115 W. :—

With reference to paragraph 2 of G.O., No. 3538 W. of 10th December 1883, I have the honor to forward, for sanction, an estimate, amounting to Rs. 1,500, for improvements to the gymnasium attached to the Boys' School, Lawrence Asylum, Ootacamund.

2. The estimate has been countersigned by the Principal of the Asylum.

Order—dated 19th March 1884, No. 746 W., Public Works.

The Government of India having declined to sanction any further expenditure on the Ootacamund Lawrence Asylum, from Military funds, the proposed improvements to the gymnasium must stand over for the present.

2. A far more important work, the building of a detached hospital for the boys, an estimate for which was sanctioned in G.O., No. 3281 W., dated 12th December 1882, is now in abeyance owing to the withdrawal of Imperial aid ; and the Government consider that it should receive the first attention when funds become available under Provincial.

READ—the following papers:—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 2nd May 1887, No. 184 E.W.:—

As directed in paragraph 1339 of the Public Works Code, I have the honor to forward, for Government sanction before the work is put in hand, a plan and estimate, amounting to Rs. 18,200, for constructing a hospital with out-houses for the Male branch, Lawrence Asylum, Ootacamund, together with a report and duplicate abstract of the estimate.

2. I also enclose the correspondence noted in the margin, from which you will observe that the plan and estimate have been approved by the Asylum Committee, who also desire this department to undertake the execution of the work, stating that the President and Secretary of the Committee will make all disbursements from the Asylum funds on passed bills.

Enclosures—
1 to 4 to letter, No. 3734, of 23rd March 1887, from Executive Engineer.
1 letter, No. 42, of 11th April 1887, from Principal, Lawrence Asylum.

3. The Asylum Committee further ask Government to exempt them from the payment of the usual percentage for superintendence and tools and plant (*vide* letter of the Principal, No. 42, of 11th instant).

No. 107 D.

The plan and estimate are submitted for the approval of Government in the Educational Department, prior to sanction in the Public Works Department.

2. The site plan has been submitted, but it is understood that the question of the best site for the hospital is under consideration by the School Committee, and will be settled shortly.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—again the following paper:—

G.O., dated 30th May 1887, No 1465 W., Public Works.

Order—dated 23rd July 1887, No. 1970 W., Public Works.

With reference to G.O., No. 1465 W., dated 30th May 1887, the Government resolve to request the Committee, Ootacamund Lawrence Asylum, to reconsider the question of the hospital accommodation to be provided for the male asylum, in communication with the Surgeon-General with the Government of Madras. It seems to the Government to be a question deserving careful attention whether the existing hospital wards cannot, with slight additions, be made a sufficiently convenient hospital, affording adequate accommodation. Under existing circumstances, the number of boys is likely to be still further reduced, while many applications for the admission of girls continue to be refused for want of room. It would seem, therefore, that any funds which can be spared for *new buildings* should be devoted to the female, rather than to the male asylum. It appeared to His Excellency in Council that it would not be difficult completely to shut off the upper story of the wing now used as a hospital from the rest of the male asylum, and that, with a little management as to separate entrances, arrangements might be made, without danger, to reserve one of the wards for cases of contagious disease, but on this point the opinion of the Surgeon-General will be especially valuable. If his opinion is adverse, it may be necessary to construct a separate ward or shed for contagious diseases at some little distance from the main building, but the cost of such a shed would be comparatively trifling.

2. At their recent visit to the asylum, a scheme of the medical officer was brought before Government for a system of drainage by which the existing latrines were to be converted into water closets, and all drainage water was to be conveyed by closed pipes to a distance from the buildings. The Government doubt whether, even if the hot weather supply of water is, or could be made, sufficient for the purpose, such a scheme can be carried out without incurring very considerable expenditure, but it will be well to have an approximate estimate of the cost prepared, and to ascertain the Surgeon-General's views on the abandonment of the present system. Meanwhile, it should be considered whether the present latrine is not at too great a distance from the buildings, and whether it would not be advisable to construct new latrines at the edge of the platform near the point where the present water-supply pipe is brought to the surface. They might be sunk below the level of the platform, so as not to be noticeable, and carts could be readily brought up to them. They would be on the dry-earth system and connected with the main building by a covered way.

3. The Government also wish to be informed at what cost the female asylum can be enlarged so as to accommodate 25 more girls. The Committee will be best able to decide how the existing building can be enlarged to the requisite extent, and can also estimate what additional establishment would be necessary in consequence of an increase of 25 to the number at present in the asylum.

4

4. The Government understand that the water-supply project has been worked out in detail and is about to be submitted, and they desire to be furnished at the same time with approximate estimates of the cost of the other works referred to above, and with the Committee's views on the proposals. The estimates required will be prepared by the Executive Engineer of the Nilgiri division in communication with the Committee.

READ—the following papers :—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 8th August 1887, No. 330 E.W.

With reference to G.O., No. 1970 W., of 23rd July 1887, regarding works required at the Lawrence Asylum, Lovedale, I have the honor to submit an estimate, amounting to Rs. 12,350, for a revised scheme of supply, prepared by the present Executive Engineer, Mr. W. B. deWinton.

2. Major Smith's scheme, submitted May 1886, was estimated to cost Rs. 17,700. Mr. deWinton finds that the section of piping (3″ and 2″) then proposed was larger than necessary, and that by substituting 2″ piping all the way and a reduced rate per ton of Rs. 140 (instead of Rs. 240) for the piping, he can, with some minor alterations in regard to the position and levels of the reservoir and service cisterns, &c., provide a complete water-supply scheme for the Asylum at a considerably reduced cost.

3. I sent the Executive Engineer's letter, No. 1233 of 13th July 1887, which, with the report accompanying the estimate, affords full information in regard to the proposals now made and the alterations on Major Smith's design, which design was rejected by the Military authorities on the ground of expense.

4. In paragraph 11 of the report Mr. deWinton mentions that the present system of supply, by which water is pumped up to the Asylum buildings, costs Rs. 85 per month, so that the cost of the new scheme would be recovered within fifteen years and prove a great saving in expense to the Asylum.

5. In paragraph 4 of the Government order above mentioned Government desired that certain approximate estimates might be submitted with the detailed scheme of water-supply. These approximate estimates have not yet been received and the Executive Engineer has been requested to report when they may be expected.

From the Reverend O. DENE, B.A., Principal and Secretary, Lawrence Asylum, to the Chief Secretary to Government, dated Lawrence Asylum, 3rd December 1887, No. 1235. (Through the Secretary to Government, Public Works Department.)

1 Letter from Surgeon-General, dated 31st August 1887, No. 0/47.
1 Statement of probable cost of works and improvements.
1 Sketch of cottage hospital.
1 Report *re* alterations and other works.
3 Estimates.
1 Plan of proposed additions to the Female Branch buildings (sent by parcel post.)

With reference to G.O., dated 23rd July 1887, No. 1970 W., Public Works, requesting the Committee to reconsider the question of the hospital accommodation to be provided for the Male Asylum, in communication with the Surgeon-General with the Government of Madras, and of other proposed works, marginally noted, I have the honor to forward, by their direction, their views thereupon.

6

The opinion of the Surgeon-General is that, in addition to the alterations necessary for converting the existing hospital wards into a convenient hospital, a cottage hospital should be built.

The estimated cost of alterations and the addition of a cottage hospital is Rs. 16,000.

The estimate for a new hospital, which was sanctioned (G.O., dated 30th May 1887, No. 1465 W.) is Rs. 18,200.

The Committee, after having carefully reconsidered the whole question, are of opinion that the original proposal of the Committee is preferable to the alternative plans for the following reason, viz., that a large proportion of the diseases, from which the boys have suffered during the last ten years, have been of such a nature as to require segregation. For this reason the Surgeon-General recommends the provision of a separate hospital, the estimated cost of which is Rs. 14,000. The adoption of this plan will involve extra expenditure on account of establishment and contingencies, and the Committee are of opinion that the advantage of excluding all the sick from the main building and having a separate hospital would more than compensate for the difference of Rs. 2,000 between the estimates.

They would further beg to suggest that should sanction be given for a new hospital, the present hospital wards could be used as dormitories for the nursery boys, and then their present dormitories would be available for a school-room and a play-room. At present, in wet weather, they have not any place to play in, excepting the corridor between their dormitories.

The Committee observe that if the revised rules submitted for the orders of Government are sanctioned, the number of boys will be increased, as the children of Volunteers will be admissible.

The Committee beg to point out that the expenditure regarding hospital accommodation, and referred to above, will nearly exhaust all available funds.

In paragraph 6 of his letter under reference, the Surgeon-General strongly objects to the scheme of the medical officer to a system of drainage by which the existing latrines would be converted into water closets, &c.

The Committee fully agree with the Surgeon-General.

The Surgeon-General is of the same opinion, and has approved of a new site, and also of the plan for the construction of new latrines, the estimated cost of which is Rs. 4,200.

The Committee accept the views of the Surgeon-General.

A plan for the additional accommodation specified by Government, at an estimated cost of Rs. 20,000, is herewith forwarded.

Whether the existing hospital wards cannot, with slight additions, be made a sufficiently convenient hospital, affording adequate accommodation.

The Government suggest that the number of boys is likely to be still further reduced.

Government observe that any funds which can be spared for new buildings should be devoted to the Female, rather than the Male, Asylum.

Whether the existing latrines should be converted into water closets, &c.

Government suggest a doubt whether the present latrine is not at too great a distance from the buildings.

Government wish to be informed at what cost the Female Asylum can be enlarged, so as to accommodate 25 more girls, and the Committee are asked to decide how the existing buildings can be enlarged.

The average cost of a girl for the past ten years has been Rs. 262 per annum. The cost, therefore, of 90 girls, *i.e.*, 25 in addition to the present number, would be Rs. 23,580, the income being Rs. 18,500. Thus, with the additional 25 girls, the expenditure over income would be Rs. 5,080 per annum.

But, should the fixed deposit (Rs. 20,000) be expended upon buildings, the income would be reduced by Rs. 800 per annum, *i.e.*, to Rs. 17,700.

In these circumstances the Committee are unable to recommend any extension to the present accommodation for girls.

The Committee are informed that the water-supply project, referred to in paragraph 4 of the Government order in question, is before Government. They are not, therefore, in a position to express their views thereupon.

What additional establishment will be required?

1247
1248
1249

ORDER—dated 9th April 1888, No. 1069 W., Public Works.

The estimates enclosed in these papers for works at the Lawrence Asylum, Lovedale, have been submitted in compliance with G.O., No. 1970 W., dated 23rd July 1887.

2. The following is a brief description of the several estimates:—

		Rs.
(i)	Altering the existing hospital wards	2,000
(ii)	Constructing a separate cottage hospital for infectious cases ...	14,000
(iii)	Constructing a latrine for the boys	3,000
(iv)	Converting the present boys' latrine into a servants' latrine ...	1,200
(v)	Constructing an open drain	500
(vi)	Water-supply scheme	12,350

3. A plan is also submitted, showing how the girls' school may be enlarged to accommodate twenty-five more girls. The approximate cost is set down at Rs. 20,000.

4. The Committee's views on the several suggestions made by Government in Order, No. 1970 W., dated 23rd July 1887, are set forth in the Principal's letter of 3rd December 1887.

5. With respect to estimates (i) and (ii), the Government have no difficulty in coming to the conclusion that a single hospital, costing about Rs. 18,000, is preferable to a cottage for infectious cases, estimated at Rs. 14,000 *plus* an expenditure of Rs. 2,000 for repairs and alterations in the main building. They are therefore of opinion that the sanction accorded in G.O., No. 1465 W., dated 30th May 1887, and subsequently held in abeyance, for constructing a separate hospital for the boys' school should now be revived; but, on considering the plan sanctioned in May 1887, it appears to the Government to be defective in some respects. There should in the opinion of the Government be no special wards in the main building, and all wards should be supplied with fire places. In the climate of Ootacamund a verandah on three sides of a building seems unnecessary.

6. Estimates (iii), (iv) and (v) are approved, and the Government are of opinion that the water closet scheme referred to in paragraph 2 of G.O., No. 1970 W., dated 23rd July 1887, need not be further considered.

7. Estimate (vi) for a new water-supply scheme, though countersigned by the Principal, does not appear to have been laid before the Asylum Committee. It has been examined in the Chief Engineer's office and may be accepted as satisfactory.

8. The proposal to enlarge the girls' school will be dropped for the present, as it appears from the Principal's letter that no funds are available for the work.

9. With these remarks, the plans and estimates now submitted, as well as those for a separate hospital for the boys' school, will be referred for consideration to the new Committee recently appointed under orders in the Educational Department.

7

10. If the water-supply scheme be approved, the Government of India will be requested as a special case to allot funds for its execution from the Military Works grant.

READ—the following papers:—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 26th July 1884, No. 359 G.W.

In forwarding for sanction a plan and estimate amounting to Rs. 1,700 for improving the hospital and nursery dormitories, male and female, Lawrence Asylum at Lovedale near Ootacamund, I have the honor to observe that under paragraph 6 of the order of the Government of India printed with G.O., Nos. 1183 W., and 1964 W., of 20th April and 13th July 1883, the works in question cannot be classed under Works, Military.

2. The estimate was prepared at the request of the Principal of the Asylum who has countersigned it. The alterations were proposed by the Consulting Physician to the Asylum, in order to provide hospital accommodation.

3. Copy of a letter from the Quartermaster-General to the General Officer Commanding Bangalore Division, with endorsement of the latter officer No. 1764 of 23rd instant is herewith enclosed for information.

ENCLOSURE.

From Brigadier-General R. C. STEWART, Quartermaster-General, to the General Officer Commanding Bangalore Division, dated Ootacamund, 21st July 1884, No. 722 A.

I have the honor, by order, to return the plan and estimate, amounting to Rs. 1,700, for improving the hospital and nursery dormitories, male and female branches at the Lawrence Asylum, Ootacamund, and to state that improvements or new buildings required for this institution do not come under the head of Works, Military.

The Government of India has, on two previous occasions, declined to sanction any further expenditure on the Lawrence Asylum, Ootacamund, *vide* paragraph 6 of its Proceedings, No. 232 M.W., dated 12th March 1883, republished in G.O., No. 1183 W., dated 20th April 1883, Public Works Department, and also paragraph 6 of its Secretary's letter, No 542 M.W., dated 14th June 1883, republished in G.O., No. 1964 W., dated 13th July 1883, Public Works Department.

The plan and estimate now returned should be forwarded to the Superintending Engineer of the Circle, for action in the Civil Department.

No. 1764.

Forwarded to the Superintending Engineer, IV Circle, with reference to his No. 218 M., dated 12th instant, for information and return.

(By Order.)

(Signed) G. SWINLEY, Lieut.-Col.,
Asst. Quartermaster-General.

23rd July 1884.

From Colonel G. CHESNEY, Secretary to the Government of India, Military Department, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 3rd September 1884, No. 895 M.W.

I am directed to acknowledge the receipt of your letter, No. 744 A.W., dated 19th March last addressed to the Public Works Department, forwarding for confirmation a copy of the Proceedings of the Government of Madras, No. 191 W., dated

9

22nd January 1884, sanctioning an estimate, amounting to Rs. 2,650, from Provincial funds, for converting a cattle shed at the Lawrence Asylum, Ootacamund, into a latrine, and constructing a covered passage between it and the Asylum.

2. It is stated that the cost of the work had to be met from Provincial funds, because the Government of India refused to sanction any further outlay on the Lawrence Asylum buildings from Imperial funds.

3. That refusal, I am to explain, was given with reference to the desire of the Local Government to build a new hospital for boys, and was intended to show that in the opinion of the Government of India no further extensive additions were required or would be sanctioned; but there was no intention to prohibit minor alterations and improvements being carried out. The expenditure in question may therefore be charged against the Military Works Grant and should be provided by reappropriation.

ORDER—dated 25th September 1884, No. 2370 W., Public Works.

His Excellency the Governor in Council observes that the restriction which the Government of India imposed on expenditure of Imperial funds in connection with the Lawrence Asylums, Ootacamund, is now explained to have had reference only to "further extensive additions," and was not intended to prohibit "minor alterations and improvements." The outlay of Rs. 2,650 sanctioned* from Provincial funds for converting a cattle shed into a latrine, and for constructing a covered passage, will now be charged to "Military, Original Works," and His Excellency the Commander-in-Chief will be requested to propose a reappropriation of funds to meet the cost.

* G.O., No. 191 W., dated 22nd January 1884.

2. The estimate, amounting to Rs. 1,700, for improving the hospital and nursery dormitories, male and female branches, submitted by the Superintending Engineer, IV Circle, with his letter, No. 359 E.W., dated 26th July 1884, is sanctioned for execution when funds are available.

3. This sanction has been registered as Imperial No. 37 W. of 1884-85, and classified as "Military, Original Works."
