Sir,

Since you warned Mr Power when you were here in august, he has done about 8 days work. On the 3rd Instant I sent for him at Perani; he sent word he was ill. I waited a day and sent him an order to go to Sholamandaw for treatment, and if ordered by the apothecary there, to proceed to Madura to do so. Since then, I have had no report of where he was (except from the office people) although he was written to on the subject. I do not know up to what date he is to get pay; the last time he was at work was 30-8-88 and I would request the favor

of his living exchanged for a more
healthy man, as up to date he has been
useless.

I enclose a certificate given him * * (his original ~~true copy~~)
for leave. You will observe the date is
the 24th instant and Mr Power I am
told, left Madura on the 23rd without
sending any report.

I have the honorable

Forwarded to the Chief Engineer P.W.D. for consideration and orders.

2 Mr Power was appointed by me last year as a supernumerary the promise of a recommendation for appointment as an Overseer if he showed himself worthy of promotion.

3 His performance of duties as a Surveyor was by no means satisfactory and it had been my intention to dispense with his services at the end of the last season.

4. After my departure for England he volunteered to remain above the Ghat during the hot weather and although the manner in which he performed the work entrusted to him left much to be desired, Mr Taylor no doubt thought that something was due to him for remaining in the Perak Valley at this time, and recommended him for further trial

5 5 as

as an Answer.

5. He suffered a good deal from fever contracted during his stay up here and was transferred to the II Division in July last.

6 Since that time he has hardly done a days real work and has habitually and constantly disregarded orders to report himself for duty to work, and has conducted himself with pending verbal messages that he was unable to work.

7 I had to speak to him myself upon the subject early in August and to warn him that he must attend to orders or he would lose his employment.

8 Much indulgence was considered to be due to him on account of the fact of his illness having been in the first instance contracted while on duty Connected with the Project but I have very little doubt that it has been aggravated and prolonged by his own conduct, and he has now in my opinion exhausted the allowance which should be made for him. 133

9. I therefore recommend that notice of the termination of his employment be given him and another subordinate appointed in his place. 133

10. The question of the amount of pay to be allowed to him requires settlement.

Sir,

Encls: 1 With reference to your No 1878 C of 13th ultimo (herewith returned) I have the honor to state that in accordance with your No 3888 C / 13.10.88 pay up to 23rd September 88 and one months pay in lieu of notice was claimed and passed to overseer Mr. A B Power

2. The Executive Engineer No II Periyar Division reports that the amount in question was paid to the overseer by the Executive Engineer, Kistna Eastern Division and adjusted

29 only

only in March last.

3. The sum passed is Rs 109-13-11, just the amount stated by Mr Power to be due, and apparently nothing else is due to him.

4. There seems to have been a good deal of delay in making this payment as the requisition was made by the Executive Engineer to the Peniyar Divn on the Executive Engineer changing post on the 26th November 1888, and allowing for the delay caused by Mr Power's transfer to the Kistna it is not clear why the payment should not have been made before March.

Mr Power was dismissed from Peniyar. came to Mad. ras. our appointment he was sent direct to Cuddapah
