Sir,

Encls: 1

× No. 194 of 1888-89 (To be returned)

In forwarding the accompanying list of disallowances from the Contingent bill of the Coimbatore division for October last, I have the honor to request you will be good enough to obtain the sanction of Government to the charges (Rs. 80-8-0) incurred in printing advertisements calling for tenders for sanctioned works.

2. These advertisements are not given to Newspapers. As each work is sanctioned, tenders are invited by supplying the printed advertisements

2 2 to

to known contractors and by affixing them in conspicuous places in the head quarters of the Division and the taluq in which the work is to be carried out, and hitherto the charges for this purpose were shown under the head "Printing" in the Contingent bills and admitted by the Examiner without any objection.

3. The limit of Rs: 25 prescribed for advertisements in para 267 (a) of the Code is hardly sufficient to meet the cost of advertisements for tenders and as all works in a division are to be given out on contract, such applications will have to be made frequently and this will entail more work in this as well as in Government Office

4. In these circumstances I request you will be good enough to obtain the general sanction of Government authorizing the Examiner to admit the charges without specific sanction of Government in each case.

5. Of course for advertisements in news papers the Codal rules will be strictly adhered to. 1336

I have the honor to be
Sir

№ 262 D 27 Feby 1889

To W.

Code para 826 as modified by standing order No.200 suggests that no distinction should be made between advertisements in newspapers and other forms of advertisements. No such distinction is made in Code para 267(n) and if such a distinction were made, it would tend to multiply the rule of Code para 267(n) by allowing an easy way of evading it.

2. For some reason or other, such charges in the Coimbatore Division are very much greater than in any other division and this great difference seems to invite enquiry.

Executive Engineer's Office,
Coimbatore, 15th March 1889.

No. 999.

From,

J. W. Martin, Esq.,
Executive Engineer,
Coimbatore Division,

To,

The Superintending Engineer,
Fourth Circle,
Coimbatore.

Sir,

In reply to your Endorsement No. 187 C.J., dated 12th March 1889 on G.O. No. 694 W, dated 8th idem, in the matter of printing charges for this Division, I have the honor to state that all works are carried out by contract, and during the current year a large number of Tank Restoration works are in progress. As estimates for Tank Restoration Scheme works are received at irregular intervals, practically a separate tender must be called

called for each estimate and this in-
-volves rather a heavy charge for printing
notices calling for tenders.

2. If para 1355 of P.W. Code is referred to it will be seen that tenders must be called for by ad-
-vertisement. In this Division the system is to post in public places and circulate to known Contractors and pyots residing in the villages close to any work, notices with conditions calling for tenders. It is almost useless to insert notices in the Fort Saint George Gazette, or in the District Gazette, for the former is seldom seen by ordinary contractors, and the latter is issued only once a month.

3. As regards the printing, this has been done by a private firm, for there would be great delay if the work was given to the District Press.

4. With regard to para 2 of the Examiner's note, I beg to point out that I do not think he need have had

had any doubt as to why the charges for printing in this Division are higher than the charges of the Divisions he has mentioned, for a printed copy of each notice in-
-viting tenders is sent to him with the contingent bill, and a reference to these notices would have made it clear, that almost all the notices refer to Tank Restoration Scheme works; while in the Divisions he has referred to, there are, I believe, no Tank Restoration works with, perhaps, the exception of North Arcot.

I have &c
(Sd) J. W. Martin,
Executive Engineer.

Secl

B. The explanation of the comparatively heavy charges on account of printing in the Coimbatore Division is considered satisfactory.

2. With reference to para 2 of the Executive Engineer's letter it is observed that the system of distributing notices to known Contractors is likely to nullify the object of calling for tenders publicly and is apt to result in high prices and inferior work. The Superintending Engineer should give this matter his earnest attention. Giving a matter publicity does not contemplate its being brought specially to the notice of particular individuals.
