18

No. 2828C dated 26th July 1888

Referred to the Supdg. Engr I circle, for explanation as to why the rates allowed in the estimate are in most cases in excess of those given in the Divisional Schedule.

Some reason should also be given in justification of the very large sum proposed to be spent on the carriage of teak wood, & also as to why good jungle wood cannot be used instead of teak.

for consideration
Colonel R.E.
Chief Engineer P.W.D.
