28th May 1889, No. 1415 W., Public Works.

1415

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following paper:—

From W. MORGAN, Esq., Deputy Registrar of the High Court of Judicature, Appellate Side, to the Chief Secretary to Government, dated Madras, 10th May 1889, No. 1421.

In forwarding copies of letters of the Acting District Judge of Bellary and of the Superintending Engineer, III Circle, dated 16th and 13th April 1889, Nos. 63 and 155, respectively, and of paras. 13 and 14 of the report on the administration of civil justice in the district of Bellary for 1888, I am directed to request that the Government may be pleased to issue orders for the construction of a District Munsif's Court at Bellary adjacent to the District Court.

2. I am to state that the High Court does not support Colonel Smalley's proposals to build two court-houses, as the Sub-Judge's Court may in course of time cease to be required at Bellary. The present building can be utilized for one court.

Enclosures.

From R. SEWELL, Esq., Acting District and Sessions Judge, Bellary, to the Registrar of the High Court, Appellate Side, dated Bellary, 16th April 1889, No. 63.

In continuation of my remarks regarding the extreme unsuitability of the Sub-Judge's and District Munsif's Court-houses at this station, noted in paras. 13 and 14 of the report on the administration of civil justice for 1888, I have the honor to enclose a communication from the Superintending Engineer, III Circle, Colonel Smalley, who, at my request, inspected the present buildings

2. Personal inspection by any one of the Honorable the Judges of the High Court would, I feel satisfied, lead to the evil being remedied. It is useless to do anything with the present buildings, and I would venture to urge the extreme desirability of building a new court-house altogether for the accommodation of the District Munsif. There will always be a District Munsif at Bellary, and I do not press for a special Sub-Judge's Court, on the ground that it is possible that the Sub-Judge might be withdrawn from this district. But a new District Munsif's Court is urgently needed, and I would support the suggestion of Colonel Smalley that the court-house might be built as an annexe to the present District and Sessions Judge's Court-house. The site would cost nothing.

From Colonel H SMALLEY, R.E., Superintending Engineer, III Circle, to the District and Sessions Judge of Bellary, dated Bellary, 13th April 1889, No. 155.

As requested in your note of the 10th instant, I have the honor to inform you that I inspected the District Munsif's and Subordinate Judge's Court at Bellary this morning, and I am decidedly of opinion that the accommodation provided for both is very much below the standard prescribed according to modern requirements. The two courts appear to have been forced into one building not large enough for either court. According to the latest standard plan, the accommodation for a Sub-Judge and for a Munsif should be precisely the same. I consider that, with additions and alterations, the present building might be made into a sufficiently good court for one, and that it is imperative that a new building be constructed for the other, either close to the present building or as an annexe to your own court-house. What I should consider still better would be that, if the Jail Department would take over the present buildings, two new courts should be built as annexes on either side of your own court-house, thus bringing all the courts alongside each other. If this idea were adopted, some latitude should be given as to the design for the new buildings so as to diminish the hideous ugliness of the court-house as it stands.

Report on the administration of Civil Justice for 1888, Bellary district.

* * * *

13. The Court building of the Subordinate Judge at Bellary is in fair repair but leaky. It is very unsuitable. The Subordinate Judge has been requested to send in a report with particulars.

14. The Court-house of the Bellary District Munsif is very incommodious. It is very small, very dark and very leaky in wet weather. In the court-room all the light comes from doors in verandahs low down and, when it rains and is cloudy, great inconvenience is felt. The clerks are accommodated in small verandah with pent roofs; one is only lit by a window at the extreme end and there is no accommodation for Pleaders and witnesses. I consider the remedy to be not in petty repairs, but in the construction of a proper and well-built court-house such as Bellary ought to have. If, however, the High Court are not prepared at once to go so far, I would earnestly beg for an increased grant for petty repairs for the year, which will enable me to spend about Rs. 500 on substantial improvements. If this is sanctioned, I will have estimates prepared as soon as possible. The Court-house of the District Munsif of Gooty is very suitable, but a room is wanted for Pleaders and also for custody of attached property. The Superintending Engineer has been requested to prepare an estimate for the same. It will be submitted to the High Court for sanction in due course.
