The Right Honorable the SECRETARY of STATE for INDIA.

My Lord,

In forwarding for your Lordship's information the accompanying copy of a telegram despatched on the 5th June 1889, we have the honor to invite attention to our Proceedings,* No. 821 W., dated 19th March 1889, which will show the arrangements which we have made for the prosecution of work on the northern arm of the harbour, pending decision of the question of entrance now before your Lordship. As stated in our telegram of the 5th June, the abutment blocks ordered to be got ready in your Lordship's telegram of the 24th December 1888 will have "set" and be ready for use by the middle of July, while the north arm will be sufficiently advanced by the 18th June to commence laying the abutment blocks at the point described in the Chief Engineer's note of the 16th March 1889, printed with our Proceedings of the 19th idem. To prevent delay of the work we have sent the telegram enclosed, and request that your Lordship's orders may be transmitted by wire. We trust that we shall soon be in possession of your Lordship's views as to the plan of entrance to be finally adopted.

We have the honor to be,
My Lord,
Your Lordship's most obedient, humble servants,

On the draft Order of G. O. No. 1492/A W. of 6/6/89, requesting the Secretary of State to communicate early orders in regard to the plan of entrance to the Madras harbour to be finally adopted, C.A.W. wrote "print soon, and send back the original to Ooty". The file connected with this Order was stated to have been retained at Ooty–

The original draft Order was accordingly sent to Ooty on the 24th June, but it came back today without the file, or any note to show why the draft order was returned–

Marine C. No. 530

For orders. 14928

The latest intimation from the Secretary of State is contained in Despatch printed with E.D. 1291 of 14 May 89 in which he says. "For some time at any rate the reconstruction would must proceed upon the lines of the sanctioned design". It has to be considered how far the Engineer is justified in proceeding. He seems in doubt as to the meaning of the previous Govt. orders.

Rnd.
1. 6. 89

The question whether the abutment blocks are to be put in at the spot indicated by Col. Mead depends on the adoption of Mr. Parkes' plan for a N.E. entrance. Definite orders cannot be given until the Secy of State gives his decision on that plan. The only course open would seem to be to send by next mail a despatch stating the most pressing point as clearly & briefly as possible & asking for reply by wire. Brought to come before the middle of July. I would also telegraph to S. of S. The Engineer does not say when the north arm will be advanced to the point by the date named, and I should think block setting will stop now for a couple of months. I would say that the Secy of State has been asked for immediate orders by wire and ask when the north arm is expected to be advanced to the point in question. Get the despatch & telegram to S. of S. ready, & send following telegram to Chairman H. T. Bd.

Your No. 1906 dated 29 May. When is north arm expected to be advanced to the point in question.
