1546
10TH JUNE 1889, No. 1546 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

Office note from the Examiner, Public Works Accounts, dated Madras, 18th May 1889, No. 671.

The Executive Engineer, Godávri Eastern division, having brought to my notice the inconvenience of the practice of incorporating in the divisional half-yearly returns, returns of tools and plant and office furniture in Superintending Engineer's office, I asked all Superintending Engineers whether such returns might not be forwarded by them to me direct instead of through Executive Engineer as heretofore. I also pointed out that if this procedure were adopted, it would be necessary for them to send me statements of receipts and issues of tools and plant in form M. 49 B for those months in which there were any transactions.

2. With the exception of the Superintending Engineer, Periyár project, who considers that the matter does not appear to be of sufficient importance to justify the correspondence which would be a necessary preliminary to a change in the existing practice, Superintending Engineers have no objection to the returns being sent direct to me, statements of receipts and issues in form M. 49 B being submitted when necessary.

3. Apart from the trouble to Executive Engineers of having to incorporate Superintending Engineers' statements in the divisional returns, the existing practice is inconvenient in that all references from myself, and all replies thereto, have to pass through the Executive Engineer, instead of passing directly between myself and the Superintending Engineer concerned.

4. Also it has recently come to my notice in connection with certain mathematical instruments supplied by Public Works Stores division to the office of the Chief Engineer for Irrigation that, under existing arrangements, there is no record of articles of tools and plant in such offices as that of the Chief Engineer for Irrigation.

5. With a view therefore to putting the matter on a satisfactory footing, I would propose that Government be moved to authorise the introduction of a rule under para. 1675 of the Madras Public Works Department Code requiring that lists (in form Nos. M. 13 and M. 13 A) be submitted to the Examiner half-yearly (on 1st April and 1st October) showing all articles classed as tools and plant (see Code para. 1656) and office furniture as actually counted in the offices of Chief Engineer, Public Works Department, Chief Engineer for Irrigation, Consulting Engineer for Railways and Examiner of Guaranteed Railway Accounts and of all Superintending Engineers, and requiring the Examiner to record a similar list for his own office. To enable me to maintain a check over such lists, it will be necessary for each office to send me a statement in form M. 49 B showing receipts and issues of such articles during any month in which there may be such receipts or issues.

ORDER—dated 10th June 1889, No. 1546 W., Public Works.

The proposals of the Examiner are approved. On their introduction, the return of valuable stores prescribed by G.O., No. 843, dated 22nd July 1887, Financial, may be discontinued.

JUNE.

Office Furniture

Proposal of the Examiner, Public Works
Accounts, to introduce a rule requiring lists
to be submitted to him half-yearly showing
all articles classed as tools and plant and —,
approved.

C. No. 4574

LW

It seems worthy
of consideration whether
C's proposal may not
be adopted with advan-
tage. At present there
is no check over furni-
ture and tools & plant
in the Superior offices
of Control - e.g.

Chungling's office

C.E. for D. - do -

Cor. Engineer - do -

Ex. Ry. Acct. - do -

Ex. P.W. Acct. - do -

In this office for
instance, the Chungling
would, under the present
system, be held respon-
sible for articles which
would not be accounted
for. There should thus
be some systematic
check & account - as
a matter of fact there
is no such check. I
have long seen the
defect. I now suggest
a remedy, which we
would do well to adopt.

The return rendered
in the S.O. 1459 w. d/3d
June 89 includes only
"valuable" stores. The
description is vague
and excludes many
things which should
be properly looked after.
This return might be
merged in the more
comprehensive one
suggested by C.
