OFFICE NOTE No. 715

To

W.

With reference to my remark against item 5 in the summary of the inspection report of the North Arcot Division dated 25th. February 1889 regarding failure to post outlay on repairs of tools and plant in the "register of works", I beg to state that in my opinion the posting of the "register of works" in respect to expenditure against estimates for "tools and plant" including repairs and carriage, should follow the rules with regard to "works" and I think it should be made clear in the code that this is intended. I can see no reason for making any distinction. If you agree, please obtain approval of Government to the issue of a standing order accordingly.

SIR,

In returning your No 2566C dated
31 May 1889, I have the honor to
state that as each Government
engineer has a grant with which to
meet repairs to, and New Supplies
Tools & Plant, I think you estimate
necessary for repairs as well as for
New Supplies and that any ex-
penditure on either should be treated
as is expenditure for works
