1638/6

Order—dated 22nd June 1889, No. 1638 W., Public Works.

With the papers above recorded, Superintending Engineers and the Consulting Architect to Government submit statements of demands under Provincial for incomplete works of 1888-89 and for new works, repairs and tools and plant.

2. A sum of Rs. 1,63,549 was reserved in the budget for incomplete works, but the modifications of grants subsequently sanctioned increased the reserve to Rs. 1,64,199. Adding to this amount Rs. 335 resumed from the grant provided in the budget for item No. 109 of the statement B printed with these Proceedings, the reserve will stand at Rs. 1,64,534. Superintending Engineers, I and IV Circles, having applied for less grants under minor works than those provided in the budget, the following sums are resumed and credited to the reserve which will now amount to Rs. 1,83,584 :—

	RS.
Civil Buildings, Minor works, Ganjam division	500
Do. do. Vizagapatam division	2,400
Do. do. Godávari Western division	1,150
Do. do. Nílgiri division	8,000
Do. do. Coimbatore division	500
Do. do. West Coast do.	2,500
Communications, Minor works, Nílgiri division	3,000
Miscellaneous Public Improvements, Minor works, Nílgiri division.	1,000
Total ...	19,050

3. The demands under Original works are detailed in the statement B and they amount to—

	RS.
Incomplete Minor works	11,905
Do. Major do.	1,41,344
Do. Police do.	6,881
Do. Registration works	9,824
Total ...	1,69,954
New Minor works	27,842
New Major do.	62,218
New Police do.	27,765
New Registration works	38,894
Total demands ...	3,26,673

4. The allotments sanctioned under Original works amount to—

	RS.
Incomplete Minor works	11,227
Do. Major do.	87,428
Do. Police do.	6,881
Do. Registration works	8,404
Total ...	1,13,940
New Minor works	760
New Major do.	10,000
New Police do.	629
New Registration works	4,385
Total allotments ...	1,29,714

5. The demands under incomplete works include additions to allotments already provided in the budget, but these demands have not been complied with in the case of items 61, 63, 74 and 79 as the balance of reserve is too small. No allotment has been made for item 71, as outlay to the extent of the sanctioned estimate has already been incurred. The question of providing funds for it will be considered on receipt of a revised estimate. Funds have been provided for all other incomplete works brought forward by Superintending Engineers and the Consulting Architect to Government.

1638/7

6. In the case of new works, a sum of Rs. 10,000 has been provided for improving the strong rooms of the Paper Currency office, Fort St. George, the early execution of which was urged by the Accountant-General (*vide* G.O., No. 247 W., dated 30th January 1889). The circumstances in which the grant provided for this work in 1888-89 has not been utilised should be explained. Funds have also been provided for three other new works, items 37, 101 and 132 of the statement B, as the Superintending Engineer, V Circle, has reported that they have been already commenced. The circumstances in which these works were put in hand without obtaining allotments should be explained.

7. The marginally-noted works, for which large grants have been applied for, should have been included in the Superintending Engineers' budget estimates for 1889-90. Funds have now been allotted for them with much inconvenience as the small reserve with the Government was chiefly intended for such incomplete works as were expected to be completed in 1888-89, but were delayed owing to unforeseen circumstances.

i. Third-class Tahsildar's office at Sálúr.
ii. Constructing an operation room at the General Hospital, Madras.
iii. Converting two of the work-sheds at the Lunatic Asylum, Madras, into 16 single rooms.

8. An allotment of Rs. 6,560 under Minor works as shown in the statement A has been made from the reserve in addition to the grants already provided in the budget.

9. The demands under Repairs being much in excess of the budget provision, a sum of Rs. 38,300 has been transferred from the reserve as shown below :—

	RS.
Civil Buildings	2,400
Communications	34,500
Miscellaneous Public Improvements	1,400
Total ...	38,300

10. The amounts applied for and those granted under Repairs and Tools and plant are shown in the statement A appended to these Proceedings.

11. As the system of distributing the grants for repairs and tools and plant in the statements of demands is productive of inconvenience, these grants will be finally distributed in the budgets of ensuing years. Superintending Engineers and the Consulting Architect in framing their future budget estimates will carefully consider the requirements under Minor works, Repairs, and Tools and plant and include the same in their budgets. When large amounts are applied for, explanation with details should be furnished.

Statement

SIR,

I have the honor to forward statements of demands for 1889-90 for incomplete works of 1888-89 and for anticipated outlay on Repairs & Tools and Plant.

2 This return has been kept back in order to include works in Presidency Division; but great delay was caused owing to Executive Engineer's not furnishing the necessary report until it had been written for three times.

I have the honor &c
Sir,
Your most obedient Servant

ENCLOSURES.
c/o 4359 with B, 13-5-89

Sir,

In the statement of demands for Provincial Incomplete works, submitted in this Office No. 279. T. J. of 10th May 1889, Rs: 2000 were applied for for the District Jail at Trichinopoly, but the Executive Engineer now reports that only Rs: 820. are required for the current year for completing block 5.A. by the Jail Department and for closing the accounts of work done by the P.W.D. I have therefore the honor to request that the sum applied for in the statement may be reduced to Rs: 820.

From the Consulting Architect
to Government No. 246 dt 21st May 1889.—

Note:

	Rs
The total reserve —	183,584
Total allotments sanctioned in these Proceedings —	174,574
Allotments separately sanctioned —	3,884
	178,458
Balance available	5,126

With the papers above recorded, Superintending Engineers, and the Consulting Architect to Government submit statements of demands under Provincial, for incomplete works of 1888-89 and for new works, repairs and tools and plant.

2. . A sum of Rs 1,63,549 was reserved in the budget for incomplete works; but the modifications of grants subsequently sanctioned increased the reserve to Rs.

1018
20 June

27

Rs 1,64,199. Adding to this amount Rs 335 resumed from the grant provided in the budget for item No. 109 of the Statement B printed with these Proceedings, the reserve will stand at Rs 1,64,534. Superintending Engineers I and IV Circles having applied for less grants under minor works than those provided in the budget, the following sums are resumed and credited to the reserve which will now amount to Rs 1,83,584

Civil Buildings Minor Works Ganjam Division	500
Do. Do. Vizagapatam Do.	2400
Do. Do. Godavari Western Do.	1150
Do. Do. Nilgiri	8000
Do. Do. Coimbatore Do.	500
Do. Do. West Coast Do.	2,500
Communications Minor Works Nilgiri Division	3,000
Miscellaneous Public Improvements Minor Works Nilgiri Do.	1,000
Total Rs	19,050

3. The demands under original works are detailed in the Statement B and they amount to:—

Incomplete minor works	11,905
Do. major works	1,41,344
Do. Police works	6,881
Do. Registration works	9,824
Total Rs	1,69,954
New minor works	27,842
Do. major works	62,218
" Police works	27,765
" Registration works	38,894
Total demands	3,26,673

4.— The allotments sanctioned under original works amount to:—

Incomplete minor works	11,227
" major "	87,428
" Police "	6,881
" Registration "	8,404
Total Rs	1,13,940
New minor works	760
" major works	10,000
" Police works	629
" Registration works	4,385
Total allotments Rs	1,29,714

5.— The demands under incomplete works include additions to allotments already

already provided in the budget, but these demands have not been complied with in the case of items 61, 63, 74 and 79 as the balance of reserve is too small. No allotment has been made for item 71, as outlay to the extent of the sanctioned Estimate has already been incurred. The question of providing funds for it will be considered on receipt of a revised estimate. Funds have been provided for all other incomplete works brought forward by Superintending Engineers and the Consulting Architect to Government.

6. In the case of new works, a sum of Rs 10,000 has been provided for improving the strong rooms of the Paper Currency Office Fort Saint George, the early execution of which was urged by the Accountant General vide G. O. No. 217 W dated 30th January 1889. Funds have also been provided

The circumstances in which the grant provided for this work in 1888-89 has not been utilised should be explained.

1638/8

provided for three other new works, items 97, 101, and 132 of the Statement B as the Superintending Engineer V Circle has reported that they have been already commenced. The circumstances in which these works were put in hand without obtaining allotments should be explained.

7. The marginally noted × works for which large grants have been applied for, should have been included in the Superintending Engineer's budget Estimates for 1889-90. Funds have now been allotted for them with much inconvenience as the small reserve with the Government was chiefly intended for such incomplete works as were expected to be completed in 1888-89 but were delayed owing to unforeseen circumstances.

×

i.. Third class Tahsildar's Office at Salur.

ii.. Constructing an operation room at the General Hospital, Madras.

iii.. Converting two of the workshed at the Lunatic Asylum, Madras, into 16 single rooms.

8. An allotment of Rs 6,560 under minor works as shown in the statement A has been made from the reserve in addition to the

grants

grants already provided
in the budget.

9.— The demands under Repairs being much in Excess of the Budget provision, a sum of Rs 38,300 has been transferred from the reserve as shown below:—

Civil buildings	Rs	2,400
Communications	"	34,500
Miscellaneous Public Improvements	"	1,400
Total	Rs	38,300

10.— The amounts applied for and those granted under Repairs and Tools and Plant are shown in the statement A appended to these Proceedings.

11.— As the system of distributing the grants for Repairs and Tools and Plant in the statements of demands is productive of inconvenience, these grants will be finally distributed in the budgets of ensuing years. Superintending Engineers and the Consulting Architect in

1638/83 34P

in framing their future budget estimates will carefully consider the requirements under minor works, repairs, and tools and plant and include the same in their budgets. When large amounts are applied for, explanation with details should be furnished.
